The Last Island:

The Last Island Zülfü Livaneli, 2022-06-21 From the internationally bestselling author of *Disquiet* a brilliant political allegory that vividly illustrates how capitalism and authoritarianism harm us and the environment Having failed to hold onto power after an ironfisted first term the former President moves to a secluded island and decides to rid it of what he sees as its anarchic components The island described by its close knit community as a utopia the last peaceful resort for humankind morphs into dystopia when the President in the hope of bringing order to island life begins to act more and more like a dictator The first ones to revolt against him are the seagulls Originally written in 2008 as a condemnation of the authoritarian Turkish regime *The Last Island* has only grown more relevant foreshadowing the events and aftermath of Istanbul's bloody Gezi Park Taksim Square political protests of 2013 as well as the protest movements of our time *The Emperor's Last Island* Julia Blackburn, 2012-10-10 In 1814 Napoleon Bonaparte arrived on St Helena for a surreal exile that would last until his death six years later Dazzling a compelling meditation on Napoleon's exile Blackburn has brought her startlingly imaginative sensitivity to bear on a vanished time The New York Times Book Review A resonant meditation on exile fame the stories we tell about ourselves and the bigger stories we tell about our great figures Los Angeles Times Book Review *Chita: A Memory of Last Island* Lafcadio Hearn, 2019-11-22 In Lafcadio Hearn's evocative novella *Chita: A Memory of Last Island* the author immerses readers in the exquisite wanderings of a young man's reminiscence of a vanished paradise on the Louisiana coast Hearn's lyrical and impressionistic style captures the ethereal beauty of its landscapes interweaving themes of nostalgia memory and loss against the backdrop of a devastating hurricane With its rich descriptions and haunting atmosphere the narrative serves as both a tribute to the unique Creole culture and a reflective exploration of human experience in the face of nature's wrath Lafcadio Hearn an enigmatic figure of the late 19th century was captivated by the cultural complexities of New Orleans and its surroundings His diverse background as a Greek Irish expatriate and his experiences in Japan gave him a distinct perspective that informed his depictions of Southern life This place deeply resonated with Hearn and his keen observations of the interplay between man and nature compounded by his personal encounters with loss culminate in the poignant storytelling found within this work *Chita: A Memory of Last Island* invites readers to explore the delicate interplay between beauty and transience Hearn's haunting prose and vivid imagery make it a compelling read drawing those interested in regional literature the complexities of coastal life and the evocative power of memory into a world that remains both familiar and eerily ephemeral ***The Last Atoll*** Pamela Frierson, 2012-06-05 Far from the beach towel covered sands of Waikiki there is a hidden Hawai'i remote islands and atolls that are some of the wildest and at the same time most vulnerable places on earth In *The Last Atoll* Pamela Frierson chronicles a decade of travels to this wildlife teeming outback of the Hawaiian archipelago Spanning 1200 miles the Northwestern Islands are home to some of the world's rarest species including the Hawaiian monk seal the Laysan duck and the Nihoa millerbird The vast surrounding reefs are

one of the last intact Pacific ecosystems dominated by the big predators giant jacks groupers and sharks But according to Frierson this far flung region is both pristine and plundered In a series of arduous journeys she uncovers a history of use and abuse At Midway Atoll she watches the politics of clean up as a naval facility shuts down and learns about clandestine Cold War activities At Laysan Island she finds a legacy of guano mining and bird feather hunting that led to the extinction of three endemic landbirds In a compelling adventure tale this award winning Pacific writer explores lives both human and wild at one of the extreme edges of the world

Hume,2017-08-24 A comprehensive review of the hundreds of bird species that have become extinct over the last 1 000 years of habitat degradation over hunting and rat introduction Extinct Birds has become the standard text on this subject covering both familiar icons of extinction as well as more obscure birds some known from just one specimen or from travellers tales This second edition is expanded to include dozens of new species as more are constantly added to the list either through extinction or through new subfossil discoveries The book is the result of decades of research into literature and museum

drawers as well as caves and subfossil deposits which often reveal birds long gone that disappeared without ever being recorded by scientists while they lived From Great Auks Carolina Parakeets and Dodos to the amazing yet almost completely vanished bird radiations of Hawaii and New Zealand via rafts of extinction in the Pacific and elsewhere this book is both a sumptuous reference and astounding testament to humanity's devastating impact on wildlife **The Last Assassin** Peter Stothard,2021 Julius Caesar was assassinated in the Roman Senate on March 15th 44 BCE For the next fourteen years his killers were hunted down and murdered in turn This is their story one of ordinary men's motives at an extraordinary time of ambitions dreams ideas dizzying transformation in politics desperate fear and how to keep fear at bay *Collections of the State Historical Society of Wisconsin* ,1916 Let's Make World War II the Last World War Donald Johnson,2023-04-07 The purpose of this book is to let the people mostly the young people of today who think they're living in hard times and that everything around them is so brutal and savage and of so much despair though many think that way because of the constant negative ambush they receive today from the media schools newspapers and through many elites in our society who are taught that everything around them is going to hell in a handbasket know that this is the best time in the world to be alive Most people are safer better educated and living around modern high tech advances that make their lives easier People have more wealth and leisure time than ever before They are healthier and tend to live longer than ever before The world is also more acceptable among the races and religions of the world and this generation has the chance to live in everlasting peace without no World Wars though there will always be conflicts among people and nations and it will never be perfect This generation today must know that the world was a pretty savage doggy world throughout history climaxed by World War II though savage wars did continue after World War II They must also be taught that the perpetrators of the savagery were all people races and religions not just some For today's media want to use that narrative and the victims of the savagery were also from all people races and religions We all know that slavery is wrong in America but it ended over 160 years ago Why not also talk about slavery before American slavery like the slavery in Africa And why not talk right now about slavery that's been going on right now in China in North Africa by Isis and in Libya Because it doesn't get the media's narrative on who is good and who is bad And one more thing about the media how about talking about some of the good things that America has done throughout its history instead of bashing America all the time For example if America were to be wiped out by a tidal wave the rest of the world would be in warfare because there will be no America to secure peace *Evolution of the human life-wave on earth* Helena Petrovna Blavatsky,2017-07-01 A distinctive feature of Philaletheians compilations is that headings and side captions when available function as subtitles when read sequentially they impart the salient points of the entire compilation The value of this feature becomes apparent in long and complex analyses where Contents double as Train of Thoughts In this book pages 2-18 provide an outline of the main points the syllogism of propositions and further elaborations An Account of the Last Expedition to Port Egmont, in Falkland's Islands, in the Year 1772 Bernard Penrose,1775 **The**

Journals of the Lewis and Clark Expedition: August 30, 1803-August 24, 1804 Meriwether Lewis, 1983-01-01 The journey of the Corps of Discovery under the command of Captains Meriwether Lewis and William Clark across the American West to the Pacific Ocean and back in the years 1804-1806 seems to me to have been our first really American adventure one that also produced our only really American epic. The Journals of the Lewis and Clark Expedition, now at last available in a superbly edited, easily read edition in twelve volumes of an eventual thirteen, almost two centuries after the Corps of Discovery set out. This important text has not been fully appreciated for what it is because of two centuries of incomplete and inadequate editing. All three editions previous to this excellent one from the University of Nebraska were flawed by significant omission. Thus my gratitude to the present editor Gary Moulton and his assistant editor Thomas Dunlay for bringing what I believe to be a national epic into plain view at last. For almost two hundred years their Lewis and Clark's strong words waited there but not there printed but not read our silent epic. But words can wait now the captains' writings have at last spilled out and fully in this regal edition. When the Atlas of the Lewis and Clark Expedition appeared in 1983 critics hailed it as a publishing landmark. This eagerly awaited second volume of the new Journals of the Lewis and Clark Expedition begins the actual journals of those explorers whose epic expedition still enthalls Americans. Instructed by President Jefferson to keep meticulous records bearing on the geography, ethnology, and natural history of the trans-Mississippi West, Meriwether Lewis and William Clark and four of their men filled hundreds of notebook pages with observations during their expedition of 1804-6. The result was in is a national treasure, a complete look at the Great Plains, the Rockies, and the Pacific Northwest reported by men who were intelligent and well prepared at a time when almost nothing was known about those regions so newly acquired in the Louisiana Purchase. Volume 2 includes Lewis's and Clark's journals for the period from August 1803 when Lewis left Pittsburgh to join Clark farther down the Ohio River to August 1804 when the Corps of Discovery camped near the Vermillion River in present South Dakota. The general introduction by Gary E. Moulton discusses the history of the expedition, the journal-keeping methods of Lewis and Clark, and the editing and publishing history of the journals from the time of Lewis and Clark's return. Superseding the last edition published early in this century, the current edition brings together new materials discovered since then. It greatly expands and updates the annotation to take account of the most recent scholarship on the many subjects touched on by the journals.

The Journals of the Lewis and Clark Expedition, 1983. When the Corps of Discovery left the vicinity of St. Louis in 1804 to explore the American West, they had only sketchy knowledge of the terrain that they were to cross; existing maps often contained large blank spaces and wild inaccuracies. William Clark painstakingly mapped every mile of the journey, drawing from both direct observation and from the reports of Indians and a few fur traders. On their return, Lewis and Clark directed the execution of new maps detailing with remarkable accuracy the features of the country that they had traversed.

The Definitive Journals of Lewis & Clark: From the Ohio to the Vermillion William Clark, Gary E. Moulton, Thomas W.

Dunlay,2002-01-01 Since the time of Columbus explorers dreamed of a water passage across the North American continent President Thomas Jefferson shared this dream He conceived the Corps of Discovery to travel up the Missouri River to the Rocky Mountains and westward along possible river routes to the Pacific Ocean Meriwether Lewis and William Clark led this expedition of 1804 6 Along the way they filled hundreds of notebook pages with observations of the geography Indian tribes and natural history of the trans Mississippi West This volume includes Lewis s and Clark s journals beginning in August 1803 when Lewis left Pittsburgh to join Clark farther down the Ohio River The two men and several recruits camped near the mouth of the Missouri River for five months of training acquiring supplies and equipment and gathering information from travelers about the trip upriver They started up the Missouri in May 1804 This volume ends in August when the Corps of Discovery camped near the Vermillion River in present day South Dakota **Index of American Periodical Verse 1984**

Rafael Catalá,James D. Anderson,1986 The Index of American Periodical Verse is an important work for contemporary poetry research and is an objective measure of poetry that includes poets from the United States Canada and the Caribbean as well as other lands cultures and times It reveals trends in the output of particular poets and the cultural influences they represent The publications indexed cover a broad cross section of poetry literary scholarly popular general and little magazines journals and reviews Protected Areas of the World IUCN Conservation Monitoring Centre,1991
