The Last Picture Show Artists Using Photography 1960-1982:

The Last Picture Show Douglas Fogle, 2003 Photography has become an increasingly pervasive medium of choice in contemporary art practice and is even employed at times by artists who do not necessarily consider themselves to be photographers How did this come to be The Last Picture Show will address the emergence of this phenomenon of artists using photography by tracing the development of conceptual trends in postwar photographic practice from its first glimmerings in the 60s in the work of artists such as Bernd and Hilla Becher portraiture and cultural identity the formal and social architectonics of the built environment societal and individual interventions in the landscape photography's relationship to sculpture and painting the visual mediation of meaning in popular culture and the poetic and conceptual investigation of visual non sequiturs disjunctions and humorous absurdities Bringing together a newly commissioned body of scholarship with reprints of important historical texts The Last Picture Show seeks to define the legacy that has produced a rich body of photographic practice in the art world today

Aesthetics After Modernism Diarmuid Costello,2024 Aesthetics after Modernism argues for the ongoing relevance of aesthetics to art after modernism In it I show that even what are typically taken to be the hardest of hard cases engage us in recognisably aesthetic ways and as such remain amenable to aesthetic analysis Why if that is true do so many art theorists critics and sometimes even artists appear to think otherwise I trace the artworld s rejection of aesthetic theory to Clement Greenberg s success in co-opting the discourse of aesthetics notably Kant s aesthetics to underwrite his own formalism about modernist art Not only has this led to Kant being tarred with the brush of Greenbergian formalism it has also led critics and theorists of later art to miss the resources of the aesthetic tradition perhaps especially Kant for capturing what is distinctive about our cognitive relation to the kinds of art that interest them There is a tendency simply to assume that Kant s aesthetics cannot speak to the more conceptual aspects of our interactions with art I trace the legacy of Greenberg s modernism and formalism for later art criticism and theory before offering an interpretation of Kant s theory of art that seeks to show otherwise I take Conceptual Art as my test case here is a form of art that often claims to forgo sensible properties altogether But if Kant s aesthetics can accommodate to our cognitive relation to art with no sensible features relevant to its appreciation as art then it should in principle withstand the challenge of any form of art

Lacan at the Scene Henry Bond, 2012-09-21 A Lacanian approach to murder scene investigation What if Jacques Lacan the brilliant and eccentric Parisian psychoanalyst had worked as a police detective applying his theories to solve crimes This may conjure up a mental film clip starring Peter Sellers in a trench coat but in Lacan at the Scene Henry Bond makes a serious and provocative claim that apparently impenetrable events of violent death can be more effectively unraveled with Lacan s theory of psychoanalysis than with elaborate technologically advanced forensic tools Bond s exposition on murder expands and develops a resolutely i ekian approach Seeking out radical and unexpected readings Bond unpacks his material utilizing Lacan s neurosis psychosis perversion grid Bond places Lacan at the crime scene and builds his argument through a series of archival crime scene photographs from the 1950s the period when Lacan was developing his influential theories It is not the horror of the ravished and mutilated corpses that draws his attention instead he interrogates seemingly minor details from the everyday isolating and rephotographing what at first seems insignificant a single high heeled shoe on a kitchen table for example or carefully folded clothes placed over a chair From these mundane details he carefully builds a robust and comprehensive manual for Lacanian crime investigation that can stand beside the FBI s standard issue Crime Classification Manual

What Was History Painting and What Is It Now? Mark Salber Phillips, Jordan Bear, 2019-10-10 The dominant visual language of European painting from the Renaissance to the nineteenth century history paintings were formidable in their monumental scale ambitious moral lessons and intricate narratives With the rise of modernist avant gardes the genre receded from the forefront of artistic production into the realm of nostalgia Yet history painting cast a shadow that would subtly colour even the works that sought to displace it Exploring the resilience of this distinctive mode of visual representation What Was History Painting and What Is It Now brings together an internationally distinguished group of scholars to trace the endurance adaptation and mutation of history painting These studies offer a reexamination of the fortunes of the genre from North America to Europe and Africa Organized around illuminating themes the book explores the creation of an audience attuned to the genre s didactic aims the entry of history painting into the marketplace of commercial art and attractions and the reimagination of the mode in response to the edicts of modern and contemporary art Spanning the full range and diversity of history painting this collection is a broad reconsideration of the tradition and the vibrant ways in which it resonates through the art of the present
