Reflecting on the Inevitable Peter J. Adams, 2020 Death studies have over the last twenty years witnessed a flourishing of research and scholarship particularly in areas such as dying and bereavement cultural practices and fear of dying But despite its importance a specific focus on the nature of personal mortality has attracted surprisingly little attention This book breaks new ground by bringing together available ideas and research on the meaning of one s own death Its content is organized around the question of how an ongoing relationship might be possible when the threat of consciousness coming to an end points to an unthinkable and unspeakable nothingness The book then argues that despite this threat an ongoing relationship with one s own death is still possible by means of conceptual devices that help shape personal mortality into a relatable object Four of these devices or enabling frames are examined essential structures passionate suffusion point of

transition and self generative process While each frame conceptualizes mortality differently they share a capacity to move it from unintelligibility to something we can think and speak about thereby enabling us to maintain an ongoing engagement The final chapters explore ways in which pursuing a relationship with our own deaths could become a normal and acceptable activity throughout our lives *The Oxford Handbook of Taboo Words and Language* Keith Allan,2019 This volume brings together experts from a wide range of disciplines to define and describe taboo words and language and to investigate the reasons and beliefs behind them It examines topics such as impoliteness swearing censorship taboo in deaf communities translation of tabooed words and the use of taboo in banter and comedy **The A.S.M.R.** Asheru Romancha,2024-02-12 This book shows the automatic spontaneous intelligent design from a feedback loop between the right hemisphere matching by form and the resulting sacred fractal geometry of self similar sexual mimicry in the four dimensional human body He shows how this is done through the ASMR and thrill intelligence The missing link is no longer missing His book is a magnum opus on the alchemy of this subject Censorship Derek Jones,2001-12-01 First published in 2002 Routledge is an imprint of Taylor Francis an informa company The Best of Anthropology Today Jonathan Benthall,2013-10-11 The articles in this influential journal placed it in the thick of a turbulent period for anthropology Reacting to current research interests and launching what were often heated debates it set the agenda for disciplinary change and new research Once described the American Anthropological Association as creating a strong voice for anthropology in the public arena the Founder Editor Jonathan Benthall introduces here a personal selection of articles and letters with his own candid retrospect arguing that the discipline s greatest strength and potential lies in testing and refining the ideas of other disciplines Once described by the American Anthropological Association as creating a strong voice for anthropology in the public arena the founder editor Jonathan Benthall introduces here a personal selection of articles and letters with his own candid retrospect arguing that the discipline s greatest strength and potential lies in telling and refining the ideas of other disciplines *The Routledge Handbook of Chinese Applied Linguistics* Chu-Ren Huang,Zhuo Jing-Schmidt,Barbara Meisterernst,2019-03-11 The Routledge Handbook of Chinese Applied Linguistics is written for those wanting to acquire comprehensive knowledge of China the diaspora and the Sino sphere communities through Chinese language It examines how Chinese language is used in different contexts and how the use of Chinese language affects culture society expression of self and persuasion of others as well as how neurophysiological aspects of language disorder affect how we function and how the advance of technology changes the way the Chinese language is used and perceived The Handbook concentrates on the cultural societal and communicative characteristics of the Chinese language environment Focusing on language use in action in context and in vivo this book intends to lay empirical grounds for collaboration and synergy among different fields *American Studies* Jack Salzman,American Studies Association,1986-08-29 A major three volume bibliography including an additional supplement of an annotated listing of American Studies monographs published between 1900 and 1988 **Denying**

Meanings and Prototypes S.L. Tsohatzidis, 2014-02-03 There are fewer distinctions in any language than there are distinct things in the universe If therefore languages are ways of representing the universe a primary function of their elements must be to allow the much more varied kinds of elements out of which the universe is made to be categorized in specific ways A prototype approach to linguistic categories is a particular way of answering the question of how this categorization operates It involves two claims First that linguistic categorization exploits principles that are not specific to language but characterize most if not all processes of cognition Secondly that a basic principle by which cognitive and linguistic categories are organized is the prototype principle which assigns elements to a category not because they exemplify properties that are absolutely required of each one of its members but because they exhibit in varying degrees certain types of similarity with a particular category member which has been established as the best example or prototype of its kind The development of the prototype approach into a satisfactory body of theory obviously requires both that its empirical base be enriched and that its conceptual foundations be clarified These are the areas where this volume in its 26 essays makes original contributions The first two parts contain discussions in which various kinds of linguistic phenomena are analysed in ways that make essential use of prototype notions The last two parts contain discussions in which prototype notions themselves become the object rather than the instrument of analytical scrutiny

Acting and Connecting Sonia Zyngier, Anna Chesnokova, 2007 This fine collection of papers is the successful outcome of an international research project carried out by advanced undergraduate and graduate students from four different countries Exceptionally the papers do not rehash old ideas or themes but offer a fresh approach to a wide range of topics from language literature and culture This innovative attitude is the result of newly devised empirical methods of research which clearly show that these students are well on their way to becoming inventive and resourceful researchers The book connects three important themes and acts upon them First it provides empirical studies of literary texts and experiences once again proving the value of empirical studies of literature It thereby nicely forecasts the future of literary studies Secondly it highlights the connections between research groups in different continents showing the strength of international

collaborations It thereby nicely forecasts the future of intercultural research Thirdly it presents work from students illustrating upcoming talent It thereby nicely forecasts the future of academia **Child Survival** Nancy

Includes index The Orifice As Sacrificial Site James Alfred Aho, *The Orifice as Sacrificial Site* bases its argument on expert histories and primary documents of selected religions Although based on textual analysis and documentary evidence this is essentially a social study The goal of Aho's study is to discover explanatory principles of orifice management rather than to expound on the peculiarities of individual faiths The work locates the attributes religions share instead of the qualities that differentiate them The argument of the book is that these preeminently private sites are in reality publicly accomplished The most secret reaches of our personal geographies our orifices are products of more encompassing structural circumstances of which we have only a dim grasp Thus one can speak with appropriate caution of a prototypical Jewish mouth and of a uniquely different Christian mouth of orthodox Brahmanic genitals and of their diametric opposites tantric genitals The task of this fascinating study is to elucidate the nature of these mysterious precincts and above all to demonstrate how they have come to acquire the special qualities they do In order to do this the author examines the prophetic moment of a people's cultural ethos the circumstances surrounding that point in time during which their dominant faith acquired its characteristic orifice signature and second to the organizational matters concerning that faith its boundary concerns internal hierarchies and disputes and the external market situation The author aims to show how the social

regulation of bodily orifices is if not mechanically determined at least made understandable in light of religious and theological concerns These are examined through a social science lens that offers amply illustrated detailed cross cultural studies of orifice taboos in Christianity ancient Judaism Brahmanism tantric Hinduism and some tribal cultures Aho's argument will add support for the theory that orifices are at the center of all political and religious disputes James Aho is professor of sociology at Idaho State University Among his earlier books are two celebrated studies of survivalist and hate groups in the northwest *The Politics of Righteousness* and *This Thing of Darkness* *The Last Taboo* Maggie Black, Ben Fawcett, 2010-09-23 Except in schoolboy jokes the subject of human waste is rarely aired We talk about water related diseases when most are sanitation related in short we don't mention the shit A century and a half ago a long hot summer reduced the Thames flowing past the UK Houses of Parliament to a Great Stink thereby inducing MPs to legislate sanitary reform Today another sanitary reformation is needed one that manages to spread cheaper and simpler systems to people everywhere In the byways of the developing world much is quietly happening on the excretory frontier In 2008 the International Year of Sanitation the authors bring this awkward subject to a wider audience than the world of international filth usually commands They seek the elimination of the Great Distaste so that people without political clout or economic muscle can claim their right to a dignified and hygienic place to go Published with UNICEF *An Empty Chair* Sara Swan Miller, 2000-05-20 At least 30 000 people kill themselves in the United States alone most leaving behind shocked siblings Yet too often the grief and bewilderment of surviving siblings is simply ignored leaving the bereaved siblings feeling even more abandoned The accounts of siblings' experiences in this book are based on interviews with more than thirty people from all over the United States as well as the author's own experience of losing a sister to suicide Just as sibling relationships are varied and complex so the feelings and experiences of sibling suicide survivors run a long and complex gamut from deep grief to anger to guilt to relief Often these feelings are intermixed The survivors are often bewildered by the complexity of their feelings including reactions that may seem shameful or inappropriate These moving accounts will help other sibling survivors of sibling suicide see that they are not alone No matter what their feelings and reactions are there are others who have shared them

Setting Boundaries Deborah Pellow, 1996-01-19 Proxemic studies concentrate on the structure and organization of space its design and use allocation and the relations encoded in it as aspects of cultural communication Space is perceived through the senses and since cultures use the senses differently they create boundaries differently Pellow in her edited collection of boundary studies focuses on the social conception and production of boundedness The essays by 10 scholars eight of them anthropologists explore the nature of boundaries in terms of change space and place society and culture politics class urbanization housing and secular and spiritual life
