## **Sperm Wars The Rights And Wrongs Of Reproduction:**

**Sperm Wars** Heather Grace Jones, Maggie Kirkman, 2005 *SPERM* Who wants it who's got it and what are they going to do with it *Sperm Wars* takes a close look at the often controversial topic of reproductive technologies *Children on Demand* Thomas R. Frame, 2008 This is a book that starts off by acknowledging the pain of infertility for many people and then examines the options for conceiving that have developed so rapidly since Louise Brown the first test tube baby was born 30 years ago Tom Frame argues that ethics law and community desires haven't been able to keep up with technological advancement and that this is a problem He starts by looking at adoption and includes details about his own experience as an adoptee He writes about sperm and egg donors asking whether it's fair that they be allowed to remain anonymous he writes about IVF and surrogacy and finishes by writing about cases where women have asked to use the dead husbands stored sperm to become pregnant He looks at science religion philosophy ethics but his starting point is always what's best for the child His view that the ideal family is a mother a father and a child will create some controversy Provided by publisher

**Sperm Wars** Robin Baker, 2020-10-06 This classic work on the rules of sex updated for a new generation is still as provocative as the day it was published providing simple explanations for any and all questions about what happens in the bedroom Sex isn't as complicated as we make it In *Sperm Wars* evolutionary biologist Robin Baker argues that every question about human sexuality can be explained by one simple thing sperm warfare In the interest of promoting competition between sperm to fertilize the same egg evolution has built men to conquer and monopolize women while women are built to seek the best genetic input on offer from potential sexual partners Baker reveals through a series of provocative fictional scenes the far reaching implications of sperm competition 10% of children are not fathered by their fathers over 99% of a man's sperm exists simply to fight off all other men's sperm and a woman is far more likely to conceive through a casual fling than through sex with her regular partner From infidelity to homosexuality to the female orgasm *Sperm Wars* turns on every light in the bedroom Now with new material reflecting the latest research on sperm warfare this milestone of popular science will still surprise entertain and even shock **Relative Strangers: Family Life, Genes and Donor Conception** Petra

Nordqvist, C. Smart, 2014-01-02 With reproductive medical technologies becoming more accessible assisted donor conception is raising new and important questions about family life Using in depth interviews the authors explore the lived reality of donor conception and offer insights into the complexities of these new family relationships **Making Gaybies** Jaya Keaney, 2023-10-06 In *Making Gaybies* Jaya Keaney explores queer family making as a site of racialized intimacy Drawing on interviews with queer families in Australia Keaney traces the lived experiences of choice and constraint as these families seek to craft likeness with their future children and tell stories of chosen family made through love Queer family building often involves multiracial and multicultural encounters as intending parents take part in the global fertility industry Keaney follows queer family making through reproductive technologies and highlights the confines of varied transnational reproductive

markets and policies as well as changing formations of race gender sexuality and kinship Whether sharing the story of white gay men choosing Indian and Thai egg donors to make their surrogate born children s ethnicities visually distinct from their own or that of an Aboriginal lesbian and her white partner choosing a Cherokee donor from the United States to articulate a global Indigeneity Keaney foregrounds the entwinement of reproduction race and affect By focusing on queer family making Keaney demonstrates how reproduction fosters a queer multiracial imaginary of kinship

**Rights, Gender and Family Law** Julie Wallbank,Shazia Choudhry,Jonathan Herring,2009-12-04 There has been a widespread resurgence of rights talk in social and legal discourses pertaining to the regulation of family life as well as an increase in the use of rights in family law cases in the UK the US Canada and Australia Rights Gender and Family Law addresses the implications of these developments and in particular the impact of rights based approaches upon the idea of welfare and its practical application There are now many areas of family law in which rights and welfare based approaches have been forced together But whilst to many they are premised upon different ethics respectively of justice and of care for others they can nevertheless be reconciled In this respect a central concern is the gender blind character of rights based approaches and the ontological and practical consequences of their employment in the gendered context of the family Rights Gender and Family Law explores the tensions between rights based and welfare based approaches explaining their differences and connections considering whether if at all they are reconcilable and addressing the extent to which they can advantage or disadvantage the interests of women children and men It may be that rights based discourses will dominate family law at least in the way that social policy and legislation respond to calls of equality of rights between mothers and fathers This collection however argues that rights cannot be given centre stage without thinking through the ramifications for gendered power relations and the welfare of children It will be of interest to researchers and scholars working in the fields of family law gender studies and social welfare

How the educational environment and teaching methods may perpetuate a system that disproportionately favors girls and what this means for boys' academic success. The hidden biases in family courts that often privilege maternal rights over paternal rights in custody and divorce proceedings. How feminist ideologies have captured key institutions, potentially leading to biased policies and practices that disadvantage men. The role of the mainstream media in perpetuating feminist perspectives that distort public perception of gender issues. The erosion of due process rights for men in the legal and university settings, especially in cases of sexual misconduct allegations. The complexities behind the wage gap narrative, offering a balanced view beyond simplistic claims of systemic discrimination. The disparities in health outcomes and funding for men, particularly in areas like mental health and suicide prevention. If you want to understand the hidden war being waged against male perspectives and start fighting back, buy *The Silent War*.

Understanding and Overcoming Feminism's Hidden Impact on Society today. This is your guide to navigating the labyrinth of modern societal structures and reclaiming your voice in a world that seems to have forgotten you. **American Book Publishing Record**, 2003. **Inconceivable** Alexandra Collier, 2023-03-29. An inspiring and necessary book that challenges the narratives we set for our lives and reveals the beauty beyond them. CLEMENTINE FORD. Alexandra Collier was a writer living in a light-filled Brooklyn brownstone in New York with the man she loved. But when she woke up to a ravenous hunger to have a baby that her partner didn't share, her life took a sharp turn. She found herself back in Melbourne at 37, single, heartbroken, and living with her parents. Ally began dating with dedication, with sometimes hilarious and often soul-crushing results. Like many 30-something single women, though, she found that her reproductive timeline was rapidly outpacing her romantic life. So she began to explore a controversial option: conceiving a baby with donor sperm. Insightful, moving, and relatable, this is an uplifting memoir about taking hold of your own future. Inspiring, challenging, and often very funny, *Inconceivable* is an important read about one woman's choice to become a parent. THE AUSTRALIAN. Bravely rewrites the script about how to make a family. GINA RUSHTON, author of *The Most Important Job in the World*. An important story fantastically told. CELIA PACQUOLA. Powerful, singular story. I rejoiced in reading. Finally, here is a story about a woman who has created her own happily ever after without submitting to traditional forms of family building. Collier writes movingly of the judgement single women face in society. Necessary, immersive read. JESSIE TU. A bright light in a shrouded corner of parenthood. ASHE DAVENPORT, author of *Sad Mum Lady*. An assured first book that walks the fine line between lightness and gravity. SYDNEY MORNING HERALD. A candid and heartwarming account of Collier's journey to motherhood that will stay
