Spes In Arduis A History Of The University Of South Africa:

Spes in Arduis Maurice Boucher,1973 **A Social History of the University Presses in Apartheid South Africa** Elizabeth Le Roux,2015-10-14 In A History of the University Presses in Apartheid South Africa Elizabeth le Roux examines scholarly publishing history academic freedom and knowledge production during the apartheid era Using archival materials comprehensive bibliographies and political sociology theory this work analyses the origins publishing lists and philosophies of the university presses The university presses are often associated with anti apartheid publishing and the promotion of academic freedom but this work reveals both greater complicity and complexity Elizabeth le Roux demonstrates that the university presses cannot be considered oppositional because they did not resist censorship and because they operated within the constraints of the higher education system but their publishing strategies became more liberal over time Spes in Arduis Maurice Boucher,1973 *Historical Dictionary of South Africa* Christopher Saunders,Peter Limb,2020-12-15 As the most influential and powerful country on the entire continent of Africa an understanding of South Africa s past and its present trends is crucial in appreciating where South Africans are going to and from where they have come South Africa changed dramatically in 1994 when apartheid was dismantled and it became a democratic state Since 2000 when the previous edition appeared further big changes occurred with the rise of new political leaders and of a new black middle class There were also serious problems in governance in public health and the economy but with a remarkable popular resilience too This third edition of *Historical Dictionary of South Africa* contains a chronology an introduction and an extensive bibliography The dictionary section has more than 600 cross referenced entries on important personalities as well as aspects of the country s politics economy foreign relations religion and culture This book is an excellent resource for students researchers and anyone wanting to know more about South Africa The Scientific Imagination in South Africa William Beinart,Saul Dubow,2021-05-20 An innovative three hundred year exploration of the social and political contexts of science and the scientific imagination in South Africa Companion Encyclopedia of the History and Philosophy of the Mathematical Sciences Ivor Grattan-Guinness,2004-11-11 First published in 2004 Routledge is an imprint of Taylor Francis an informa company **South Africa and the Global Game** Peter Alegi,Chris Bolsmann,2013-10-18 Firmly situating South African teams players and associations in the international framework in which they have to compete South Africa and the Global Game Football Apartheid and Beyond presents an interdisciplinary analysis of how and why South Africa underwent a remarkable transformation from a pariah in world sport to the first African host of a World Cup in 2010 Written by an eminent team of scholars this special issue and book aims to examine the importance of football in South African society revealing how the black oppression transformed a colonial game into a force for political cultural and social liberation It explores how the hosting of the 2010 World Cup aims to enhance the prestige of the post apartheid nation to generate economic growth and stimulate Pan African pride Among the themes dealt with are race and racism class and gender

dynamics social identities mass media and culture and globalization This collection of original and insightful essays will appeal to specialists in African Studies Cultural Studies and Sport Studies as well as to non specialist readers seeking to inform themselves ahead of the 2010 World Cup This book was published as a special issue of Soccer and Society A Commonwealth of Knowledge Saul Dubow,2006-10-19 This is the first full study of the relationship of knowledge to national identity formation in modern South Africa It explores how the cultivation of knowledge served to support white political ascendancy and claims to nationhood Elegantly written and wide ranging the book addresses major themes in both South African and comparative imperial historiography *Utilisation of South African Research on Higher Education* Jan Botha ,Gabriele Vilyte,2021-10-26 The relationship between research on the one hand and policy practice on the other hand is complicated and collaboration between scholars in research on higher education RHE and institutional research IR practitioners is often lacking This book marks a collaborative effort of a diverse range of South African RHE and IR scholars and asks the overarching questions What do we know about the utilisation of South African research on higher education SARHE and its subset of research known as Institutional Research How and by whom is this research used The book begins by looking at the historical underpinnings of SARHE and delineating the shape and size of this body of research This is followed by a series of case studies on South African Higher Education institutions and governmental bodies investigating how when and by whom are research on higher education and institutional research used in the decision making of these organisations This book is the first of its kind in South Africa and sets out to lay the groundwork for further research into the use uptake and utilisation of RHE and IR in this country National Park Science Jane Carruthers,2017-08-17 South Africa is renowned for its wildlife and environmental conservation in iconic national parks such as the Kruger one of the world s first formal protected areas However this is the first book to thoroughly analyse and explain the interesting and changing scientific research that has been accomplished in South Africa s national parks during the twentieth century Providing a fascinating and thorough historical narrative based on an extensive range of sources this text details the evolution of traditional natural history pursuits to modern conservation science in South Africa covering all research areas of conservation biology and all the national parks around the country It reveals the interaction between the international context government learning institutions and the public that has shaped the present conservation arena A complex story that will interest and inform not only those involved in conservation science of South Africa but worldwide **New Light at the Cape of Good Hope** J. L. McCracken,1993 William Porter 1805 1880 of Limavady Ulster now in Northern Ireland was the son of William Porter and Mary Scott He was appointed attorney general of Cape Colony in 1839 He drew up a parliamentary constitution in 1854 and was elected to parliament in 1865 He returned to Belfast now Northern Ireland in 1873 where he died Emphasis is on his political career Corrupted Jonathan D Jansen,2023-02-01 In South African higher education the images of dysfunction are everywhere Student protests Violence Police presence Rubber or real bullets Class disruptions

Burning tyres Damaged buildings Injury and sometimes death Reports of wholesale corruption Year after year often in the same set of universities the problem of routine instability seems insoluble The financial academic and reputational costs of ongoing dysfunction are high especially for those universities caught up in the never ending struggle to overcome apartheid legacies Any number of explanations have been ventured including a lack of resources shortage of capacity rural location corrupt officials and endemic conflict Corrupted takes a deeper look at dysfunction in an attempt to unravel the root causes in a sample of South African universities At the heart of the problem lies the vexed issue of resources or more pertinently the relationship between resources and power who gets what and why Whatever else it aspires to be commonly a place of teaching learning research and public duty a university in an impoverished community is also a rich concentration of resources around which corrupt staff students and those outside of campus all vie for access Taking a political economic approach Jonathan Jansen describes the daily struggle for institutional resources and offers accessible sensible insights He argues that the problem won't be solved through investments in capacity building alone because the combination of institutional capacity and institutional integrity contributes to serial instability in universities Rather durable solutions would include the depoliticisation of university councils and appointments of academics with integrity and capacity to manage and lead these fragile institutions This groundbreaking and long overdue study will offer a promising way forward for universities to better serve their communities and the country more broadly

Education, Race, and Social Change in South Africa

John A. Marcum, 2023-04-28 Education Race and Social Change in South Africa examines the deep rooted issues of higher education in South Africa highlighting the complex interplay between race politics and access to education Beginning with the colonial foundations of South African higher education in the early 19th century it traces the development of institutions such as the University of Cape Town and the University of Fort Hare reflecting the segregated nature of the education system As the country transitioned to a republic in the 20th century the policies of apartheid shaped the university landscape leading to the creation of separate institutions for various racial groups The book explores how these divisions have persisted particularly in the context of racial inequalities in enrollment and access to quality education with black students historically underrepresented in South Africa's leading universities The study also delves into the evolving nature of South African higher education in the face of racial segregation examining the impact of political shifts on the educational landscape With the rise of the National Party in 1948 and the implementation of strict segregation policies the book explores the creation of ethnic universities for non white students and the ongoing challenges faced by these institutions in providing quality education The book raises critical questions about the future of education in South Africa focusing on the need for reform to bridge the educational divide address teacher shortages and promote greater racial integration within universities It also considers the role of international collaboration and aid in fostering educational opportunities for black South Africans and suggests possible pathways for achieving equitable educational access This title is part of UC Press's Voices Revived program which

commemorates University of California Press's mission to seek out and cultivate the brightest minds and give them voice reach and impact Drawing on a backlist dating to 1893 Voices Revived makes high quality peer reviewed scholarship accessible once again using print on demand technology This title was originally published in 1982 Student Activism in the Global South Kurauone Masungu,2024-09-01 This book makes an original conceptual and empirical contribution to debates on the role of student activism in enhancing social justice within education in the Global South using South Africa as a case study The book explores the development of higher education students political capabilities through student activism that is the freedom to express political ideas and engage in protests including the following key capabilities participation dialogue practical reasoning voice emotional expression contextual knowledge and physical wellbeing The author considers the possibility of enhancing justice and democracy in higher education through the formation of such student freedoms The book will be of interest to academics and researchers in student activism higher education and social justice as well as institutional staff members with knowledge of student governance members of student representative councils and higher education administrators **The Open University** Daniel Weinbren,2015-11-01 This historical perspective on The Open University founded in 1969 frames its ethos to be open to people places methods and ideas within the traditions of correspondence courses commercial television adult education the post war social democratic settlement and the Cold War A critical assessment of its engagement with teaching assessment and support for adult learners offers an understanding as to how it came to dominate the market for part time studies It also indicates how as the funding and status of higher education shifted it became a loved brand and a model for universities around the world Drawing on previously ignored or unavailable records personal testimony and recently digitised broadcast teaching materials it recognises the importance of students to the maintenance of the university and places the development of learning and the uses of technology for education over the course of half a century within a wider social and economic perspective **Architecture, State Modernism and Cultural Nationalism in the Apartheid Capital** Hilton Judin,2021-04-08 This book is the first comprehensive investigation of the architecture of the apartheid state in the period of rapid economic growth and political repression from 1957 to 1966 when buildings took on an ideological role that was never remote from the increasingly dominant administrative legislative and policing mechanisms of the regime It considers how this process reflected the usurpation of a regional modernism and looks to contribute to wider discourses on international postwar modernism in architecture Buildings in Pretoria that came to embody ambitions of the apartheid state for industrialisation and progress serve as case studies These were widely acclaimed projects that embodied for apartheid officials the pursuit of modernisation but carried latent apprehensions of Afrikaners about their growing economic prospects and cultural estrangement in Africa It is a less known and marginal story due to the dearth of material and documents buried in archives and untranslated documents Many of the documents drawings and photographs in the book are unpublished and include classified material and photographs from the National Nuclear

Research Centre negatives of 1960s from Pretoria News and documents and pamphlets from Afrikaner Broederbond archives State architecture became the most iconic public manifestation of an evolving expression of white cultural identity as a new generation of architects in Pretoria took up the challenge of finding form to their prospects and beliefs It was an opportunistic faith in Afrikaners who urgently needed to entrench their vulnerable and contested position on the African continent The shift from provincial town to apartheid capital was swift and relentless Little was left to stand in the way of the ambitions and aim of the state as people were uprooted and forcibly relocated structures torn down and block upon block of administration towers and slabs erected across Pretoria This book will be of great interest to students and scholars of architectural history as well as those with an interest in postcolonial studies political science and social anthropology

Open and Distance Education in Asia, Africa and the Middle East Olaf Zawacki-Richter, Adnan Qayyum, 2019-02-18 This book is open access under a CC BY 4.0 license This book describes the history structure and institutions of open and distance education in six countries China India Russia Turkey South Africa and South Korea It describes how open and distance education is evolving in a digital age to reflect the needs and circumstances of the national higher education systems in these countries It also explores the similarities and differences between how their open and distance higher education systems are managed and structured This book is the second in a series following *Open and Distance Education in Australia Europe and the Americas* Springer 2018 Both books compare and draw conclusions about the nature of open and distance education in the context of various national higher education systems In a digital era characterized by the growing use of online open and distance education this book will prove particularly valuable for policy makers and senior administrators who want to learn about establishing or expanding open and distance education services In addition it offers a valuable reference guide for researchers academics and students interested in understanding the different approaches to open and distance education
