Spice Jack Turner,2008-12-10 In this brilliant engrossing work Jack Turner explores an era from ancient times through the Renaissance when what we now consider common condiments were valued in gold and blood Spices made sour medieval wines palatable camouflaged the smell of corpses and served as wedding night aphrodisiacs Indispensable for cooking medicine worship and the arts of love they were thought to have magical properties and were so valuable that they were often kept under lock and key For some spices represented Paradise for others the road to perdition but they were potent symbols of wealth and power and the wish to possess them drove explorers to circumnavigate the globe and even to savagery Following spices across continents and through literature and mythology Spice is a beguiling narrative about the surprisingly vast influence spices have had on human desire Includes eight pages of color photographs One of the Best Books of the Year Discover Magazine The Christian Science Monitor San Francisco Chronicle

Spice Jack Turner,2005 A history of the trade that controlled the world and left an indelible impression on our taste buds a sweeping story of avarice ingenuity and exploration spanning the globe and the centuries in its epic reconstruction of this magnificent obsession Spices for centuries the staple of cuisine remedies and ritual they have commanded the highest of prices To this day saffron is per ounce one of the most expensive commodities known to man For their sake fortunes have been made and lost empires built and destroyed and new worlds discovered Astoundingly in the 17th century more people died for the sake of cloves than in all the European dynastic wars of the period However the spice trade dates back thousands of years before this Ancient Egyptian hieroglyphs depict a merchant fleet sailing south to the Horn of Africa and returning triumphantly with a priceless cargo of cinnamon Only the story of mankind's infatuation with precious metals can rival the story of spice in scope and only the history of silver and gold rivals that of spice for its improbable and extraordinary combination of discovery and conquest heroism and savagery greed and violence

Teaching Big History Richard B. Simon,Mojgan Behmand,Thomas Burke,2015 Big History is a new field on a grand scale

it tells the story of the universe over time through a diverse range of disciplines that spans cosmology physics chemistry astronomy geology evolutionary biology anthropology and archaeology thereby reconciling traditional human history with environmental geography and natural history Weaving the myriad threads of evidence based human knowledge into a master narrative that stretches from the beginning of the universe to the present the Big History framework helps students make sense of their studies in all disciplines by illuminating the structures that underlie the universe and the connections among them Teaching Big History is a powerful analytic and pedagogical resource and serves as a comprehensive guide for teaching Big History as well for sharing ideas about the subject and planning a curriculum around it Readers are also given helpful advice about the administrative and organizational challenges of instituting a general education program constructed around Big History The book includes teaching materials examples and detailed sample exercises This book is also an engaging first hand account of how a group of professors built an entire Big History general education curriculum for first year students demonstrating how this thoughtful integration of disciplines exemplifies liberal education at its best and illustrating how teaching and learning this incredible story can be transformative for professors and students alike

The Lost Supper

Taras Grescoe, 2023-09-19 A New Scientist Globe and Mail and Eater Best Book of 2023 In the tradition of Michael Pollan Anthony Bourdain and Mark Bittman a surprising flavorsome tour of ancient cuisines Kirkus STARRED from Neolithic bread to ancient Roman fish sauce and why reviving the foods of the past is the key to saving the future A fascinating look at the people who are keeping these ancient food traditions alive against the odds while offering a rough roadmap toward a more sustainable food ecosystem Eater Many of us are worried or at least we should be about the impacts of globalization pollution and biotechnology on our diets Whether it s monoculture crops hormone fed beef or high fructose corn syrup industrially produced foods have troubling consequences for us and the planet But as culinary diversity diminishes many people are looking to a surprising place to safeguard the future into the past The Lost Supper explores an idea that is quickly spreading among restaurateurs food producers scientists and gastronomes around the world that the key to healthy and sustainable eating lies not in looking forward but in looking back to the foods that have sustained us through our half million year existence as a species Acclaimed author Taras Grescoe introduces readers to the surprising and forgotten flavors whose revival is captivating food lovers around the world ancient sourdough bread last baked by Egyptian pharaohs raw milk farmhouse cheese from critically endangered British dairy cattle ham from Spanish pata negra pigs that have been foraging on acorns on a secluded island since before the United States was a nation and olive oil from wild olive trees uniquely capable of resisting quickly evolving pests and modern pathogens From Ancient Roman fish sauce to Aztec caviar to the long thought extinct silphium The Lost Supper is a deep dive into the latest frontier of global gastronomy the archaeology of taste Through vivid writing history and first hand culinary experience Grescoe sets out a provocative case in order to save these foods he argues we ve got to eat them Published in partnership with the David Suzuki Institute
