Spice Of Life Biodiversity And The Extinction Crisis:

The Spice of Life Chris Howes,1997 Dealing with the topic of biodiversity this work integrates the areas of evolution popular science conservation and prediction **Biological Diversity** L. N. Petrov,2003 One of the cornerstones of life s wonders is the vast array of species filling the planet From plants to animals to humans there is no shortage of beings to provide spice of life variety is said to be Periodically scientists announce the discovery of a new form of life so it seems as if Earth is capable of producing new species just to keep us on our toes At times the immense breadth of living things can even feel overwhelming as one pauses to ponder how numerically insignificant humans are when compared to the insect population Given the biological diversity of the planet it is incumbent upon humans to safeguard the natural beauty of the environment To that end conservation takes on special importance necessitating the balancing of industrial expansion with preserving the flora and fauna surrounding us This book is an important tool in understanding and researching the many different life forms spanning the globe Collected here is a substantial and carefully selected listing of relevant literature on biological diversity and its conservation Following this bibliography are author title and subject indexes to allow for further access to this information The sheer bulk of the works about biological diversity can be so intimidating that a book such as this one becomes useful in sorting through the resources about the importance of life s variety **Environmental Policy** Jane Roberts,2004 Within the overall context of sustainable development Environmental Policy discusses the opportunities and constraints that environmental systems place upon the operation of human systems It suggests environmental policy is a potential way to modify the operation of human systems so that they function within environmental constraints Key social scientific concepts political social and economic are used to explain the background for the formulation and implementation of environmental policy Environmental problems the role of humans in creating them sustainable development and how this concept relates to environmental policy are all introduced The book then considers environmental policy formulation implementation and evaluation within three specific contexts the firm the nation state and at the international level It also reviews the place of economics science and technology in environmental policy Detailed case studies drawn from a range of international examples are used throughout to illustrate issues such as global warming international trade tourism and the human rights of indigenous peoples It is well illustrated and includes end of chapter summaries and further reading
