Start with No Jim Camp,2011-12-07 *Start with No* offers a contrarian counterintuitive system for negotiating any kind of deal in any kind of

situation the purchase of a new house a multimillion dollar business deal or where to take the kids for dinner Think a win win solution is the best way to make the deal Think again For years now win win has been the paradigm for business negotiation But today win win is just the seductive mantra used by the toughest negotiators to get the other side to compromise unnecessarily early and often Win win negotiations play to your emotions and take advantage of your instinct and desire to make the deal Start with No introduces a system of decision based negotiation that teaches you how to understand and control these emotions It teaches you how to ignore the siren call of the final result which you can't really control and how to focus instead on the activities and behavior that you can and must control in order to successfully negotiate with the pros The best negotiators aren't interested in yes they prefer no never ever rush to close but always let the other side feel comfortable and secure are never needy they take advantage of the other party's neediness create a blank slate to ensure they ask questions and listen to the answers to make sure they have no assumptions and expectations always have a mission and purpose that guides their decisions don't send so much as an e-mail without an agenda for what they want to accomplish know the four budgets for themselves and for the other side time energy money and emotion never waste time with people who don't really make the decision Start with No is full of dozens of business as well as personal stories illustrating each point of the system It will change your life as a negotiator If you put to good use the principles and practices revealed here you will become an immeasurably better negotiator
