Spina Bifida For The Clinician Clinics In Developmental Medicine No 57:

Current Concepts in Spina Bifida and Hydrocephalus Carys M. Bannister, 1991 Over the past decade there have been great advances in the prognosis and treatment of neural tube defects New surgical techniques can increase the life expectancy and improve the quality of life of affected individuals while recent research into vitamin supplementation offers the prospect of hydrocephalus and spina bifida becoming largely a thing of the past The new study brings together these medical advances and also deals with the practical issues which every specialist student family doctor and even the worried parent needs to know For maximum clarity the chapters are arranged chronologically dealing with all the problems that may occur from the prenatal period to adolescence
