Case Study International Management 2006 "Spin-Off" Stefan Vollmer, Simone Muschelknautz, Carsten Schröder, 2007-01-14 Seminar paper from the year 2006 in the subject Business economics Business Management Corporate Governance grade 1 3 University of Applied Sciences Essen course International Management language English abstract During upswing or boom phases companies tend to diversify their products and services either by acquisitions or by the foundation of subsidiaries active in different businesses As the market situation or the overall economic situations change companies have to adapt their strategy and structure to the current market If there are changes in the general market situation e g by the entry of new competitors companies might need to restructure to be able to compete In times of economic downturns most companies need to restructure due to economic problems and high in house costs caused by high complexity and low transparency within the company Moreover there seems to be a change in paradigms in the market Whereas in the 60 s in the US conglomerates were a prominent way to increase the company value the current market pays no premium for being a large company Since the 80 s in the US and the late 90 s in Western Europe shareholder value rather is increased by a focused approach on core markets and selling or spinning off the side businesses Major spin offs were conducted in Western Europe during the recent years e g the spin off of Infineon from Siemens in 1999 which was followed by a listing of Infineon at the Frankfurt Stock Exchange in 2000 the spin off of Hypo Real Estate from HypoVereinsbank in 2003 freeing the HypoVereinsbank from their difficult real estate financing business and against the odds lead to a successful performance of Hypo Real Estate at the Stock Market⁷ or the spin off of Lanxess from Bayer in 2005 Looking at the current development of the capital market European conglomerates seem all to work on their restructuring and on their focus on a certain area⁸ Recently announced or publicly evaluated transactions include e g MAN selling the majority of its printing machine division to Allianz Capital Partners Linde evaluating the sale of their fork lift division Electrolux envisaging the spin

off and listing of their outdoor division in the company Husqvarna to which shareholders consented in April 2006 In the course of this paper we will evaluate the motives and value drivers of a spin off with view on the parent company the spin off and the capital market including investors and bondholders

Societal Impact of Spaceflight Steven J. Dick,Roger D. Launius,2007 Since the dawn of spaceflight advocates of a robust space effort have argued that human activity beyond Earth makes a significant difference in everyday life Assertions abound about the impact of spaceflight on society and its relationship to the larger contours of human existence Fifty years after the Space Age began it is time to examine the effects of spaceflight on society in a historically rigorous way Has the Space Age indeed had a significant effect on society If so what are those influences What do we mean by an impact on society And what parts of society Conversely has society had any effect on spaceflight What would be different had there been no Space Age The purpose of this volume is to examine these and related questions through scholarly research making use especially of the tools of the historian and the broader social sciences and humanities Herein a stellar array of scholars does just that and arrives at sometimes surprising conclusions

sets showing for example that high growth Spin Offs benefited over proportionally from sector growth or the access to relations with customers or suppliers This produces a new and comprehensive perspective on the relative contribution of each success factor their interaction and the behaviour of both the parent and the Spin Off companies in the process These results are highly valuable for managers scientists in the field and policy makers *Spin-Off Churches* Rodney Harrison, Tom Cheyney, Don Overstreet, 2008 Veteran missional church planters present a much needed how to resource for churches desiring to sponsor the planting of other new churches locally and globally **Sex, Bombs, and Burgers** Peter Nowak, 2011-12-20 How War Pornography and Fast Food Have Shaped Modern Technology Guns Germs and Steel meets the age of technology in this rollicking history of how our pursuit of lust gluttony and rage has led to our greatest technological advancements It is also a chronicle of popular culture packed with surprising revelations From the unexpected origins of aerosols cold medicine and Google to Saran Wrap Tupperware and video games here is a fascinating look at modern life
