Spinsters Abroad Dea Birkett, 1989 *The Society for the Oversea Settlement of British Women, 1919-1964* Bonnie White, 2019-03-18 This book examines the British government's response to the superfluous women problem and concerns about post war unemployment more generally by creating a migration society that was tasked with reducing the number of single women at home through overseas migration The Society for the Oversea Settlement of British Women SOSBW was created in 1919 to facilitate the transportation of female migrants to the former white settler colonies To do so the SOSBW worked with various domestic and dominion groups to find the most suitable women for migration while also meeting the dominions demands for specific types of workers particularly women for work in domestic service While the Society initially aimed to meet its original mandate it gradually developed its own vision of empire settlement and refocused its efforts on aiding the migration of educated and trained women who were looking for new modern and professional work opportunities abroad

Wheels of Her Own Carla R. Lesh, 2024-03-25 Women used automobiles as soon as they had access to them Black Indigenous and White American women utilized the automobile to improve their quality of life and achieve greater freedom These women shared unique concerns and common aims as they negotiated their way through a time when advocacy for social change was undergoing a resurgence The years that brought the automobile to the United States 1893 1929 also brought increased legal and social restrictions based on racism and gender stereotypes For women the automobile was a useful tool as they worked to improve their quality of life The automobile provided a means for Black Indigenous and White women to pull away from limitations and work toward greater freedom Exploring these key issues and more this book is a history and social exploration of women and the automobile during the early automotive era

An Anthology of Women's Travel Writings Shirley Foster, Sara Mills, 2002 This anthology aims to challenge stereotypes of women travellers Rather than simply presenting writings by Victorian women who travelled bravely around the world disregarding social convention and danger the editors present a range of writing and possible ways of being a woman traveller As well as the eccentric woman traveller the editors have included writings by those who might be seen as failed travellers cautious and conventional travellers and those who did not conform to the adventurous heroine stereotype Because travelling as a woman and writing as a woman presents the author with a number of textual problems which must be negotiated Foster and Mills have chosen to include writings which confronted these problems and which resolved them or did not resolve them in different ways These textual problems include the depiction of other women the representation of spatial relations the negotiations undertaken in relation to the adventure heroine narrative and character and the position taken by the author in relation to the representation of knowledge These issues are all crucial in relation to travel writing by women and the women whose writing has been collected together in this anthology have made bold decisions in relation to them

Women and museums 1850-1914 Kate Hill, 2016-07-01 This book recovers the significant contribution made by women to museums not

just in obvious roles such as workers but also as donors visitors volunteers and patrons It suggests that women persistently acted to domesticate the museum by importing domestic objects and domestic regimes of value as well as by making museums more welcoming to children and even by stressing the importance of housekeeping at the museum At the same time women sought masculine careers in science and curatorship but found such aspirations hard to achieve their contribution tended to be kept within clear feminised areas The book will be of interest to those working on gender culture or museums in the period It sheds new light on women s material culture and material strategies education and professional careers and leisure practices It will form an important historical context for those working in contemporary museum studies

Western Women and Imperialism Nupur Chaudhuri, Margaret Strobel, 1992-05-22 Western Women and Imperialism provides fascinating insights into interactions and attitudes between western and non western women mainly in the 19th and early 20th centuries It is an important contribution to the field of women s studies and primarily British imperial history in that many of the essays explore problems of cross cultural interaction that have been heretofore ignored Nancy Fix Anderson A challenging anthology in which a multiplicity of authors sheds new light on the waves of missionaries memsahibs nurses and feminists Ms a long overdue engagement with colonial discourse and feminism excellent essays The Year s Work in Critical Cultural Theory **From Cairo to Baghdad** James Canton, 2014-08-25 Until the 1880s British travellers to Arabia were for the most part wealthy dilettantes who could fund their travels from private means With the advent of an Imperial presence in the region as the British seized power in Egypt the very nature of travel to the Middle East changed Suddenly ordinary men and women found themselves visiting the region as British influence increased Missionaries soldiers and spies as well as tourists and explorers started to visit the area creating an ever bigger supply of writers and market for their books In a similar fashion as the Empire receded in the wake of World War II so did the whole tradition of Middle East travel writing In this elegantly crafted book James Canton examines over one hundred primary sources from forgotten gems to the classics of T E Lawrence Thesiger and Philby He analyses the relationship between Empire and author showing how the one influenced the other leading to a vast array of texts that might never have been produced had it not been for the ambitions of Imperial Britain This work makes for essential reading for all of those interested in the literature of Empire travel writing and the Middle East **"Women, Femininity and Public Space in European Visual Culture, 1789?1914 "** Temma Balducci, 2017-07-05 Focusing on images of or produced by well to do nineteenth century European women this volume explores genteel femininity as resistant to easy codification vis is the public Attending to various iterations of the public as space sphere and discourse sixteen essays challenge the false binary construct that has held the public as the sole preserve of prosperous men By contrast the essays collected in Women Femininity and Public Space in European Visual Culture 1789 1914 demonstrate that definitions of both femininity and the public were mutually defining and constantly shifting In examining the relationship between affluent women femininity and the public the essays gathered here consider works by an

array of artists that includes canonical ones such as Mary Cassatt and Frans Gerd as well as understudied women artists including Louise Abb and Broncia Koller. The essays also consider works in a range of media from fashion prints and paintings to private journals and architectural designs facilitating an analysis of femininity in public across the cultural production of the period. Various European centers including Madrid, Florence, Paris, Brittany, Berlin and London emerge as crucial sites of production for genteel femininity providing a long overdue rethinking of modern femininity in the public sphere.

Women, Femininity and Public Space in European Visual Culture, 1789-1914 Dr Temma Balducci, Asst Prof Heather Belnap Jensen, 2014-11-28. Focusing on images of or produced by nineteenth century European women, this volume explores genteel femininity as resistant to easy codification vis-à-vis the public. Attending to various iterations of the public as space, sphere and discourse, sixteen essays challenge the false binary construct that has held the public as the sole preserve of prosperous men. By considering works in a range of media by an array of canonical and understudied women artists, they demonstrate that definitions of both femininity and the public were mutually defining and constantly shifting.

Gender, Geography and Empire Cheryl McEwan, 2019-06-03. This title was first published 2000. This text is intended to draw together two important developments in contemporary geography: firstly, the recognition of the need to write critical histories of geographical thought and particularly the relationship between modern geography and European imperialism; and secondly, the attempt by feminist geographers to countervail the absence of women in the histories. The author focuses on the narratives of British women travellers in West Africa between 1840 and 1915, exploring their contributions to British imperial culture, the ways in which they were empowered in the imperial context by virtue of both race and class, and their various representations of West African landscapes and peoples. The book argues for the inclusion of women and their experiences in histories of geographical thought and explores the possibilities and problems of combining feminist and post-colonial approaches to these histories.

Late-Victorian Heroic Lives in the Writings of Frank Mundell Moniez Baptiste, 2017-08-21. This study explores the work of Frank Mundell, a late Victorian author for the Sunday School Union. Mundell focused on heroism and represented various kinds of heroic deeds and figures regardless of gender in his books. Writing for educative as well as entertaining purposes, he avoided the use of didacticism and he endeavoured to combine the traditional and the modern in the stories he chose to tell. Mundell's favourite format was that of the prosopography, putting together several heroic lives or incidents. He was careful to dedicate each of his volumes to one topic in particular, thus distinguishing the different types of heroic deeds from one another. His writings belong to four series or collections, each highlighting a specific version of heroism: from instances of the mundane performed in a familial context to extraordinary deeds. He wrote about such bold acts as those featuring in the stories of brave firemen fighting devouring flames, fearless sailors in tempestuous seas, determined miners risking their lives to save their comrades, or intrepid explorers facing perils in the wide world. This book analyses each of his publications, highlighting the elements belonging to his representation of

heroism as a whole The Routledge History of Women in Europe Since 1700 Deborah Simonton,2006-04-27 This landmark publication collects the essays of the leading women s historians and provides the most coherent overview of women s role and place in Western Europe from the beginning of the eighteenth century to the twentieth century **White Women's Rights** Louise Michele Newman,1999 A reinterpretation of the history of the American women s movement The book traces the intellectual roots of the women s movement revealing how it took on racial overtones and demonstrating that white middle class women laid the intellectual groundwork for the social movements that followed Unsettling Whiteness Lucy Michael,Samantha Schulz,2019-01-04 This volume was first published by Inter Disciplinary Press in 2014 Unsettling Whiteness brings together an international collection that considers anew the politics practices and representations of whiteness at a time when nations worldwide continue to grapple with issues that are underwritten by whiteness **To Try Her Fortune in London** Angela Woollacott,2001-08-30 Between 1870 and 1940 tens of thousands of Australian women were drawn to London their imperial metropolis and the center of the publishing art musical theatrical and educational worlds Even more Australian women than men made the pilgrimage home seeking opportunities beyond those available to them in the Australian colonies or dominion In tracing the experiences of these women this volume reveals hitherto unexamined connections between whiteness colonial status gender and modernity Flowers in the Snow Gwyneth Hoyle,2005-04-01 Over the course of a dozen years Scottish plant collector Isobel Wylie Hutchison 1889 1982 explored northern latitudes from the Lofoten Islands of Norway to the far reaches of the American Aleutians To achieve her goals she traveled by any means available from rowboats in Greenland to trading schooners and coast guard vessels in Alaska When necessary she journeyed by snowshoe or sled in pursuit of her botanical specimens accompanied only by strangers who served as guides In Flowers in the Snow Gwyneth Hoyle paints a vivid portrait of a woman gloriously out of the step with the conventions of her time

Three Traveling Women Writers Natália Fontes de Oliveira,2017-09-13 This book presents an alternative framework for reading nineteenth century women s travel narratives by challenging the traditional paradigms which often limit women s space in print culture For the first time through a comparative lens a Latin American woman s travel narrative is analyzed concomitantly with the narratives of a North American and a European writer Contrary to the common assumption that Latin American women were powerless victims of imperialism elite women had access to the predominant philosophies of their time traveled around the globe and wrote about their experiences This book examines how an Argentinian writer together with an English and an American writer manipulate their bourgeois identity to inhabit the male dominated sphere of print culture By travelling and publishing travel narratives the three traveling women writers search for empowerment to establish their authority as writers and shapers of knowledge in literature Utilizing several concepts and criticisms including Aristotle s rhetoric Foucault s theories travel writing criticism postcolonial discourse and feminist literary criticism this volume attempts to challenge old fashioned archetypes and confinements of gender for traveling women writers in the nineteenth

century **Gendering Orientalism** Reina Lewis, 2013-06-17 In contrast to most cultural histories of imperialism which analyse Orientalist images of rather than by women Gendering Orientalism focuses on the contributions of women themselves Drawing on the little known work of Henriette Browne other lost women Orientalist artists and the literary works of George Eliot Reina Lewis challenges masculinist assumptions relating to the stability and homogeneity of the Orientalist gaze Gendering Orientalism argues that women did not have a straightforward access to an implicitly male position of western superiority Their relationship to the shifting terms of race nation and gender produced positions from which women writers and artists could articulate alternative representations of racial difference It is this different and often less degrading gaze on the Orientalized Other that is analysed in this book By revealing the extent of women's involvement in the popular field of visual Orientalism and highlighting the presence of Orientalist themes in the work of Browne Eliot and Charlotte Brontë Reina Lewis uncovers women's roles in imperial culture and discourse Gendering Orientalism will appeal to students lecturers and researchers in cultural studies literature art history women's studies and anthropology

Victorian Writing about Risk Elaine Freedgood, 2000-09-28 In *Victorian Writing about Risk* first published in 2000 Elaine Freedgood explores the geography of risk produced by a wide spectrum of once popular literature including works on political economy sanitary reform balloon flight Alpine mountaineering and African exploration The consolations offered by this geography of risk are precariously predicated on the stability of dominant Victorian definitions of people and places Women men the labouring and middle classes the English and the Irish Africa and Africans all have assigned identities which allow risk to be located and contained When identities shift and boundaries fail danger and safety begin to appear in all the wrong places The texts that this study focuses on reveal the ways in which risk moralizes and naturalizes the economic and political institutions of industrial imperial culture during a period of unprecedented expansion and change
