Spiral Staircase My Climb Out Of Darkness:

The Spiral Staircase Karen Armstrong, 2007-12-18 NATIONAL BESTSELLER The New York Times bestselling author of *A History of God* delivers the gripping inspirational story about her own search for God A story about becoming human being recognized finally recognizing oneself It fills the reader with hope The Washington Post Book World In 1962 at age seventeen Karen Armstrong entered a convent eager to meet God After seven brutally unhappy years as a nun she left her order to pursue English literature at Oxford But convent life had profoundly altered her and coping with the outside world and her expiring faith proved to be excruciating Her deep solitude and a terrifying illness diagnosed only years later as epilepsy marked her forever as an outsider In her own mind she was a complete failure as a nun as an academic and as a normal woman capable of intimacy Her future seemed very much in question until she stumbled into comparative theology What she found in learning thinking and writing about other religions was the ecstasy and transcendence she had never felt as a nun

Neuroscience, Selflessness, and Spiritual Experience Brick Johnstone, Daniel Cohen, 2019-06-15 Neuroscience Selflessness and Spiritual Transcendence conveys the manner by which selflessness serves as a neuropsychological and religious foundation for spiritually transcendent experiences The book combines neurological case studies and neuroscience research with religious accounts of transcendence experiences from the perspective of both the neurosciences and the history of religions Chapters cover the subjective experience of transcendence an historical summary of different philosophical and religious perspectives a review of the neuroscience research that describes the manner by which the brain processes and creates a self and more The book presents a model that bridges the divide between neuroscience and religion presenting a resource that will be critical reading for advanced students and researchers in both fields Creates a common focus on selflessness as a reliable construct for use by all disciplines interested in the basis of spiritual experience Links neuroanatomical data with religious texts from multiple faith traditions to describe the necessity of selflessness for spiritual experience and transformation Highlights disorders in neurological functioning that result in disorders of the self *The Lost Art of Scripture* Karen Armstrong, 2019-11-05 A book that shines fresh light on the world's major religions to help us build bridges between faiths and rediscover a creative and spiritual engagement with holy texts from the New York Times bestselling author of *A History of God* An unusual often dazzling blend of theology history and neuroscience The New Yorker The significance of scripture may not be immediately obvious in our secular world but its misunderstanding is perhaps the root cause of many of today's controversies The sacred texts have been co-opted by fundamentalists who insist that they must be taken literally and by others who interpret scripture to bolster their own prejudices These texts are seen to prescribe ethical norms and codes of behavior that are divinely ordained they are believed to contain eternal truths But as Karen Armstrong shows in this chronicle of the development and significance of major religions such a narrow peculiar reading of scripture is a relatively recent modern phenomenon For most of their history the world's religious traditions have regarded

these texts as tools that enable the individual to connect with the divine to experience a different level of consciousness and to help them engage with the world in more meaningful and compassionate ways

Twelve Steps to a Compassionate Life Karen Armstrong, 2010-12-28 Karen Armstrong explains how to practise the religion of compassion that her last books have preached In November 2009 Armstrong and TED launched The Charter of Compassion which states that We call upon all men and women to restore compassion to the centre of morality and religion to cultivate an informed empathy with the suffering of all human beings even those regarded as enemies To date it s been signed by over 48 000 people on the Web including such figures as The Dalai Lama and Queen Noor Dave Eggers and Meg Ryan [www charterforcompassion org](http://www.charterforcompassion.org) Out of the ideals of that Charter has come this humane accessible indispensable short book for our times *In Bed with the Word* Daniel Coleman, 2009-02-26 How can reading be deeply personal yet fundamentally social Coleman examines philosophical and spiritual aspects of reading

Spiritual Evolution George Vaillant, 2009-06-09 In our current era of holy terror passionate faith has come to seem like a present danger Writers such as Richard Dawkins Sam Harris and Christopher Hitchens have been happy to throw the baby out with the bathwater and declare that the danger is in religion itself God Hitchens writes is not great But man according to George E Vaillant M D is great In *Spiritual Evolution* Dr Vaillant lays out a brilliant defense not of organized religion but of man s inherent spirituality Our spirituality he shows resides in our uniquely human brain design and in our innate capacity for emotions like love hope joy forgiveness and compassion which are selected for by evolution and located in a different part of the brain than dogmatic religious belief Evolution has made us spiritual creatures over time he argues and we are destined to become even more so *Spiritual Evolution* makes the scientific case for spirituality as a positive force in human evolution and he predicts for our species an even more loving future Vaillant traces this positive force in three different kinds of evolution the natural selection of genes over millennia of course but also the cultural evolution within

recorded history of ideas about the value of human life and the development of spirituality within the lifetime of each individual For thirty five years Dr Vaillant directed Harvard s famous longitudinal study of adult development which has followed hundreds of men over seven decades of life The study has yielded important insights into human spirituality and Dr Vaillant has drawn on these and on a range of psychological research behavioral studies and neuroscience and on history anecdote and quotation to produce a book that is at once a work of scientific argument and a lyrical meditation on what it means to be human Spiritual Evolution is a life s work and it will restore our belief in faith as an essential human striving

Chasing after Wind Douglas J. Brouwer,2022-03-01 One pastor s journey from idealism through disillusionment to an acceptance of grace After forty years as a Presbyterian pastor Douglas Brouwer wondered if he had spent his life as the author of Ecclesiastes laments chasing after wind What did all the hard work on evenings and weekends and holidays away from his family amount to What was there to make of the long string of petty conflicts and the overwhelming feeling of disillusionment And in the current age of shrinking mainline churches what could he point to as the end result of his decades in ministry Chasing after Wind will resonate with pastors everywhere who went into ministry to do lifechanging work for God and ended up spending most of their time managing the parking situation outside the church fielding parishioner complaints about the color of the sanctuary carpet or in Brouwer s case the color of his shoes and endlessly fundraising for mission projects and building maintenance In telling his story Brouwer comes to recognize that the most meaningful parts of his career the holy bits as he calls them were in unexpected moments where everything was stripped away but the mysterious work of God Recounting these times of curious joy and shared mourning he demonstrates how a pastor can find grace and peace in looking back on a life in ministry
