Life-changing Science Of Designer Babies Paul Knoepfler, 2015-11-26 This book won the INDIEFAB 2015 Bronze Award for Science Adult nonfiction Genetically modified organisms GMOs including plants and the foods made from them are a hot topic of debate today but soon related technology could go much further and literally change what it means to be human Scientists are on the verge of being able to create people who are GMOs Should they do it Could we become a healthier and better species or might eugenics go viral leading to a real new world of genetic dystopia GMO Sapiens tackles such questions by taking a fresh look at the cutting edge biotech discoveries that have made genetically modified people possible

Bioengineering genomics synthetic biology and stem cells are changing sci fi into reality before our eyes This book will capture your imagination with its clear approachable writing style It will draw you into the fascinating discussion of the life changing science of human genetic modification **The Mirage of Dignity on the Highways of Human 'Progress'**

Lukman Harees, 2012-01-16 The Modern Man is hypocritically boasting of unprecedented material progress in a world where inter alia millions daily go to bed hungry die or get killed through unwanted wars and preventable causes live in inhumane conditions vulnerable being exploited with ever widening inequality and might still ruling over right in international relations even in the post UDHR era an indictment on the collective conscience of mankind Besides the flame of materialism has been devouring time tested moral values causing chaos within the basic unit in society the family and relegating Man and his dignity to the level of animals and even manipulating his identity Therefore questions arise Is Moral law fading are political economic systems and institutions like UN failing in realizing the lofty goal of affording due dignity basic rights and social justice humanity deserves Can the bystanders be mere onlookers anymore This book seeks to dispassionately survey the yawning gap between the rhetoric and the ground reality in bringing about dignity and social justice for humanity from bystanders perspective in the light of these questions and underlines the imperative need for moral progress to go hand in hand to make Man assume his due role as the trustee on earth It also exhorts bystanders to close ranks as human dignity champions rights defenders identity protectors against onslaughts from power hungry politicians mighty powers and vested interests This is the need of the times and what our future progeny demands *Remembering for the Future* J. Roth, E.

Maxwell,2017-02-13 Focused on The Holocaust in an Age of Genocide Remembering for the Future brings together the work of nearly 200 scholars from more than 30 countries and features cutting edge scholarship across a range of disciplines amounting to the most extensive and powerful reassessment of the Holocaust ever undertaken In addition to its international scope the project emphasizes that varied disciplinary perspectives are needed to analyze and to check the genocidal forces that have made the Twentieth century so deadly Historians and ethicists psychologists and literary scholars political scientists and theologians sociologists and philosophers all of these and more bring their expertise to bear on the Holocaust and genocide Their contributions show the new discoveries that are being made and the distinctive approaches that are being developed in the study of genocide focusing both on archival and oral evidence and on the religious and cultural representation of the Holocaust

Rights and Liberties in the Biotech Age Sheldon Krinsky,Peter Shorett,2005-03-11 The authors in this book with their carefully reasoned calls for a genetic bill of rights seem to me to be making a powerful conservative argument and proposing amendments far more sensible human and rational than the zealotry promoted by men like More They are assuming there is great value in human beings as we have known them in plants and food crops as we have slowly and within clear boundaries develop them over millennia in the relationship between human being and the natural world

Bulletin of the Atomic Scientists ,1970-06 The Bulletin of the Atomic Scientists is the premier public resource on scientific and technological developments that impact global security Founded by Manhattan Project Scientists the Bulletin s iconic Doomsday Clock stimulates solutions for a safer world

Science and its Publics Alice R. Bell. Sarah R. Davies,Felicity Mellor,2021-02-03 The relationship between science and its publics has concerned commentators since science itself began Yet in recent years questions of how and how should science and society interact have come to particular prominence A field of practice initially dubbed public understanding of science and later rebranded as public engagement with science and technology has blossomed But although academic studies have informed the development of this practical field to date there has been little opportunity to take stock of the full breadth and variety of academic analyses of science communication In an attempt to reveal the richness of the nascent field of science communication studies this volume presents critical interdisciplinary analyses of some of the many ways in which science intersects with its publics From children s science books to computer advertising news media to lab talk public engagement to science fiction the sites modes and meanings of public science are explored Contributions draw on historical cultural science and media studies All however follow science through popular culture taking critical science studies out of the lab and into society

A Dangerous Master Wendell Wallach,2015-06-02 The co author of Moral Machines explores accountability challenges related to a world shaped by such technological innovations as combat drones 3 D printers and

synthetic organisms to consider how people of the near future can be protected
