*All Manner of Things* Jeffrey A. Vogel, 2023-01-27 The meditations in this collection originated from a series of questions about suffering death and eternal life put to the author by a friend who was dying from cancer These questions included How do we wait upon God and cancer at the same time What do we know of the God to whom we go when we experience only the silence of God in our suffering How do we long for heaven when what we want most is to continue on with our families and loved ones in this life Is heaven removed from this world Does the joy associated with it depend on ignorance of the suffering of those we leave behind And so on The meditations themselves are not intended primarily as answers to these questions so much as an attempt to enter into them more fully the goal being to think about how we might best inhabit those places where doubt and faith grief and hope forsakenness and grace are so often made to coexist For though the tension between suffering and hope cannot ultimately be resolved in this world we can look for ways to stand within it a little more boldly and to fall within it a little more boldly as well We can seek out words or images that allow us to speak about it a little more clearly a language that helps us to find rest in our longing and perhaps also longing in our rest

**Complexifying Religion** Andrei-Razvan Coltea, 2023-07-31 This book provides an original and challenging perspective of religions as abstract complex adaptive systems using an interdisciplinary approach to try to understand what religions are and how they function two fundamental issues which despite an intense struggle from several fields have not yet been resolved What is the source of religious belief How do religions work and what are they made of Why is religion so important for us that it has survived centuries of scientific progress and secularization Why are people religious even outside religion The book addresses these questions using an interdisciplinary approach that seeks to untangle the Gordian knot of defining religion In short they can be considered entropy reducing technologies What differentiates them from other meaning producing systems is their configuration which employs specific building blocks as tools for mitigating

entropy which are also subsystems and combine in various ways to build a unique configuration rituals myths taboos supernatural agents authority identity superstitions moral obligations afterlife beliefs and the sacred As a reaction to perturbances or pressure systems can collapse Inspired by Nicholas Nassim Taleb it is in this book referred to as fragility the negative reaction of systems to random events and four parameters can be used to evaluate it in religious systems monotonicity the inability to learn from past mistakes coupling linking with other systems such as political or economic centralization and stress starvation Several case studies are provided in order to test the theoretical claims made in this book based on the author's field research in Romania Japan North Korea and Mongolia and offering details that could be of interest to casual readers students and researchers of religion **Faith According to Jesus Christ** Dallied

a mother's reflections after the death of her only son but also a reminder that letting go doesn't mean forgetting. Rather, this book is about finding acceptance, recognizing that healing like everything else is a choice, and never losing hope that each day brings the opportunity for endless possibilities. After all, as Linda believes, even during tough times we should still take time to appreciate the small gifts that surround us: the rising sun, the beautiful cloud formations, a pretty flower, or the smile of a child.

**Removing the Veil of Deception** Barbara Wentroble, 2009-09-01. Sure, unbelievers are susceptible to Satan's deceptions. But are Christians being deceived as well? Then, answer all too often is yes. Unknowingly, many are swayed by scripturally unsound teaching as well as false prophecies and other unholy supernatural manifestations. Using biblical and modern-day examples, Barbara Wentroble shows readers how to identify the subtle deceptions Satan employs to cloud the hearts and minds of believers. In a straightforward, informative way, she explains how to biblically judge revelatory insight, prophecies, and manifestations; how to protect your mind from deception; the importance of accountability and healthy submission to a Christian leader; how to find healing from past trauma that may leave you vulnerable to enemy attack; how to break free from deception; and much more. Wentroble's seasoned insights will equip believers to become mature in Christ, ready to fulfill God's purposes for their lives.

**God Thoughts 2** U K Edward Balentine, 2019-06-07. This book was written for those who have perhaps become disillusioned with the condition of today's church. Over the years, much of the content of our faith has been seriously diluted; many words have been emptied of meaning, and much vibrancy has been lost. Found in these writings is the offering of some thoughts that can help us regain some of what we have lost. Jesus is still building his church today, whether or not we can see it, and it is the author's hope that these writings are part of his reconstruction.
