**Cumulative List of Organizations Described in Section 170 (c) of the Internal Revenue Code of 1954**, Sword of the Spirit, Shield of Faith Andrew Preston, 2012-02-28 A richly detailed profoundly engrossing story of how religion has influenced American foreign relations told through the stories of the men and women from presidents to preachers who have plotted the country's course in the world Ever since John Winthrop argued that the Puritans new home would be a city upon a hill Americans role in the world has been shaped by their belief that God has something special in mind for them But this is a story that historians have mostly ignored Now in the first authoritative work on the subject Andrew Preston explores the major strains of religious fervor liberal and conservative pacifist and militant internationalist and isolationist that framed American thinking on international issues from the earliest colonial wars to the twenty first century He arrives at some startling conclusions among them Abraham Lincoln's use of religion in the Civil War became the model for subsequent wars of humanitarian intervention nineteenth century Protestant

missionaries made up the first NGO to advance a global human rights agenda religious liberty was the centerpiece of Franklin Roosevelt's strategy to bring the United States into World War II From George Washington to George W Bush from the Puritans to the present from the colonial wars to the Cold War religion has been one of America's most powerful sources of ideas about the wider world When just days after 9 11 George W Bush described America as a prayerful nation a nation that prays to an almighty God for protection and for peace or when Barack Obama spoke of balancing the just war and the imperatives of a just peace in his Nobel Peace Prize acceptance speech they were echoing four hundred years of religious rhetoric Preston traces this echo back to its source *Sword of the Spirit Shield of Faith* is an unprecedented achievement no one has yet attempted such a bold synthesis of American history It is also a remarkable work of balance and fair mindedness about one of the most fraught subjects in America *Centennial Ruminations on Max Weber's the Protestant Ethic and the Spirit of Capitalism* Isaacs Mark, 2006-03-13 In 1904 1905 Max Weber published the sociological classic *The Protestant Ethic and the Spirit of Capitalism* In this book Weber argues that religion specifically ascetic Protestantism provided the essential social and cultural infrastructure that led to modern capitalism Weber's suggests that Protestantism has an affinity for capitalism Indeed something within Protestantism by accident or design creates the necessary preconditions that lead to the flowering of a just free and prosperous society At the same time Weber wonders if the economic backwardness of certain societies and regions of the world are somehow related to their religious affiliation Weber's century old thesis challenges the erroneous core assumptions of many secular humanists postmoderns Roman Catholic traditionalists and Islamists In view of the threat of the War on Terror and in the face of the inadequate response of secularist and post modern intellectuals it is vital that we understand and appreciate the profound paradigm shift that occurred during the sixteenth and seventeenth century that led to the unfolding of modern capitalism Despite a plethora of critics Max Weber's one hundred year old thesis still stands **Spirit and Flesh** James M. Ault, Jr., 2005-09-13 In an attempt to understand the growing popularity and influence of Christian fundamentalism sociologist and documentary filmmaker James Ault spent three years inside the world of a Massachusetts fundamentalist church *Spirit and Flesh* takes us into worship services home Bible studies youth events men's prayer breakfasts and bitter conflicts leading to a church split We come to know the members of the congregation and see how the church acts as an extended family that provides support and security along with occasional tensions Intimate and rigorously fair minded *Spirit and Flesh* will help non religious readers better understand their fellow citizens and will allow devout readers to see themselves through the eyes of a sympathetic outsider **The Spirit of '76**, 1894 **New England Women Writers, Secularity, and the Federalist Politics of Church and State** Gretchen Murphy, 2021-02-10 Drawing on literature correspondence sermons legal writing and newspaper publishing this book offers a new account women's political participation and the process of religious disestablishment Scholars have long known that eighteenth and nineteenth century American women wrote pious sentimental stories but this book uses biographical and archival methods to

understand their religious concerns as entry points into the era's debates about democratic conditions of possibility and the role of religion in a republic. Beginning with the early republic's constitutional and electoral contests about the end of religious establishment and extending through the nineteenth century, Murphy argues that Federalist women and Federalist daughters of the next generation adapted that party's ideas and fears by promoting privatized Christianity with public purpose. Harriet Beecher Stowe, Catharine Sedgwick, Lydia Sigourney, Judith Sargent Murray, and Sally Sayward Wood authorized themselves as Federalism's literary curators, and in doing so they imagined new configurations of religion and revolution, faith and rationality, public and private. They did so using literary form, writing in gothic, sentimental, and regionalist genres to update the Federalist concatenation of religion, morality, and government in response to changing conditions of secularity and religious privatization in the new republic. Murphy shows that their project both complicates received narratives of separation of church and state and illuminates the problem of democracy and belief in postsecular America.
