Taught by God: Teaching And spiritual Formation , The history of the Christian spiritual life suggests that those who truly teach the spiritual life have been themselves taught by God The phrase taught by God occurs in Christian writings across several centuries This book draws on the teachers and teaching models that animate Christian history bringing it into conversation with the issues and concerns of contemporary teachers and learners who seek to follow Christ The authors contend that the various strands of the Christian spiritual and mystical tradition provide continuing guidance for Christian teachers in the cultivation of their own spiritual lives and the lives of their students They order this book around four aspects

of Christian educational ministries the identity of the teacher contexts in which we teach models for teaching and evaluation of teaching Readers are invited to look at the world of teaching through multiple sides of a prism refracting differently with each effort drawing the eye toward a variety of subtle nuance and inviting varied interpretations of the subject we see Each chapter focuses on particular spiritual teachers Francis de Sales Catherine of Siena S ren Kierkegaard practices monastic rules spiritual direction examination of conscience and images pilgrimage imitation apprenticeship as exemplars of or frameworks for teaching and spiritual formation in the church today

Holy Feast and Holy Fast Caroline Walker Bynum, 1988-01-07 In the period between 1200 and 1500 in western Europe a number of religious women gained widespread veneration and even canonization as saints for their extraordinary devotion to the Christian eucharist supernatural multiplications of food and drink and miracles of bodily manipulation including stigmata and inedia living without eating The occurrence of such phenomena sheds much light on the nature of medieval society and medieval religion It also forms a chapter in the history of women Previous scholars have occasionally noted the various phenomena in isolation from each other and have sometimes applied modern medical or psychological theories to them Using materials based on saints lives and the religious and mystical writings of medieval women and men Caroline Walker Bynum uncovers the pattern lying behind these aspects of women s religiosity and behind the fascination men and women felt for such miracles and devotional practices She argues that food lies at the heart of much of women s piety Women renounced ordinary food through fasting in order to prepare for receiving extraordinary food in the eucharist They also offered themselves as food in miracles of feeding and bodily manipulation Providing both functionalist and phenomenological explanations Bynum explores the ways in which food practices enabled women to exert control within the family and to define their religious vocations She also describes what women meant by seeing their own bodies and God s body as food and what men meant when they too associated women with food and flesh The author s interpretation of women s piety offers a new view of the nature of medieval asceticism and drawing upon both anthropology and feminist theory she illuminates the distinctive features of women s use of symbols

Rejecting presentist interpretations of women as exploited or masochistic she shows the power and creativity of women's writing and women's lives

Handbook of Faith and Spirituality in the Workplace Judi Neal, 2012-12-09

While the field of management has developed as a research discipline over the last century until the early 1990s there was essentially no acknowledgement that the human spirit plays an important role in the workplace. Over the past twenty years the tide has begun to turn as evidenced by the growing number of courses in academia and in corporate training and an exponential increase in the publications emerging through creative interaction of scholars and practitioners in organizational behaviour, workplace diversity, sustainability, innovation, corporate governance, leadership and corporate wellness as well as contributions by psychotherapists, theologians, anthropologists, educators, philosophers and artists. This Handbook is the most comprehensive collection to date of essays by the preeminent researchers and practitioners in faith and spirituality in the workplace featuring not only the most current research and case examples but visions of what will be or should be emerging over the horizon. It includes essays by the people who helped to pioneer the field as well as essays by up and coming young scholars. Among the questions and issues addressed: What does it mean to be a spiritual organization? How does this perspective challenge traditional approaches to the firm as a purely rational profit maximizing enterprise? Is faith and spirituality in the workplace a passing fad or is there a substantial shift occurring in the business paradigm? How does this field inform emerging management disciplines such as sustainability, diversity and social responsibility? In what ways are faith and spirituality in the workplace similar to progressive and innovative human resource practices? Does faith and spirituality in the workplace bring something additional to the conversation and if so what? The aim of *The Handbook of Faith and Spirituality in the Workplace* is to provide researchers, faculty, students and practitioners with a broad overview of the field from a research perspective while keeping an eye on building a bridge between scholarship and practice.
