Spiritual Healing In A Scientific Age:

Spiritual Healing in a Scientific Age Robert Peel, 1988 Examines Jesus's teachings concerning spiritual healing discusses how it differs from faith healing or miracles and looks at the conflict between science and religion *The Philosophical Foundations of Christian Science* Nicholas Sheldon, 2025-04-24 Mary Baker Eddy 1821-1910 is best known for founding the religion of Christian Science an international institution which has extended beyond her lifetime and into the twenty-first century Often labelled as fringe theology rather than core philosophy Eddy's work has remained on the peripheries of academia Her unmitigated idealism and occasionally nebulous style have led to a reluctance to apply a philosophical rigour to her thinking In *The Philosophical Foundations of Christian Science* Nicholas Sheldon rediscovers her as a radical philosopher one of many female philosophers of her time who he contends should no longer be underestimated Carefully analysing her non-linear style in order to understand her internal system of thought Sheldon resolves flaws within her argument and draws out Christian Science's remarkable philosophical assertion that it is not only illness and suffering which are unreal but the entire physical realm For Eddy it is only the spiritual which remains *Physics, Metaphysics, and God - Third Edition* Jack W. Geis, 2010-07 At long last a promising dialogue between science and medicine has begun A focal point of this discussion is healing and how it happens Jack W Geis shows how modern physics and spirituality are centrally involved in this debate No one who is interested in the current interface between science spirituality and medicine can afford to neglect his ideas Larry Dossey MD Author *Healing Beyond the Body* and *Healing Words: The Power of Prayer and the Practice of Medicine* This book introduces some of the most perplexing and exciting aspects of the revolution going on in physics today as it continues toward an increasingly metaphysical basis for defining reality This exciting scientific revolution should be shared by everyone and the issues taken up in this book form a basis for that participation That the math is not in the chalk is becoming increasingly evident as well as the question as to which is more substantial Dr Laurance R Doyle Astrophysics and Planetary Science Center for the Study of Life in the Universe SETI Institute *Science and Spiritual Healing* Rolf A. F. Witzsche, 2003 *Studying Christian Spirituality* David B. Battin, Larry May, 2000-01-01 When the children of Christian Scientists die from a treatable illness are their parents guilty of murder for withholding that treatment How should the rights of children the authority of the medical community and religious freedom be balanced Is it possible for those adhering to a medical model of health and disease and for those adhering to the Christian Science model to enter into a meaningful dialogue or are the two models incommensurable DesAutels Battin and May engage in a lucid and candid debate of the issues of who is ultimately responsible for deciding these questions and how to accommodate and in some cases constrain Christian Science views and practices within a pluralistic society

A Plea for Embodied Spirituality Fraser Watts, 2022-07-07 The body is crucial to religious life but there has been little practical attention given to how to make a helpful reality of this fact Strong forms of philosophical dualism have been widely abandoned by post war theologians in favour of a more integrated view of human nature but guidance on the role of the body in Christian spirituality remains fragmentary Focusing particularly on drawing out practical implications for religious life and ministry this book surveys the many ways in which the body plays an important role in religious and spiritual life drawing on scientific research
