Hawkins, Cally Parkinson, 2011-08-12 Most church leaders are passionate about their calling to go and make disciples However despite their most creative thinking diligent efforts and rigorous assessments year after year they arrive at the end of a ministry season with no way of knowing for sure whether they have succeeded or failed in their calling I want to serve God the refrain goes and on most days I believe I'm doing what I'm called to do But what if my approach is off track What if the work we're doing as a church doesn't really help people grow at all The only indicators of success most leaders have are numbers Is attendance up Are giving trends on the rise Are we baptizing more people this year than last Numbers are helpful but they still come up short Numbers may tell leaders how active their congregants are but they reveal very little about whether or not anyone's heart is changing as a result Leaders need more than numbers to help them assess their efforts and make strategic ministry decisions The crux of spiritual growth is not how busy people are with spiritual activities but how engaged they are with Christ How close is a person to Christ Are they fully surrendered to his will and his teaching Do they prioritize faith in their daily lives Are they growing in their love of

God and others In order to answer these questions leaders need more than numbers they need to see inside people s hearts In 2004 Willow Creek Community Church completed research that would eventually become the REVEAL Spiritual Life Survey Based on those initial findings as well as data from more than 150 000 congregants in 500 churches the REVEAL team discovered a way to see inside the hearts and minds of congregants The Christ Centered Heart presents discoveries not from a hypothetical theoretical or opinion driven point of view but from an empirical one By linking biblical principles with spiritual attitudes and behaviors REVEAL research The Christ Centered Heart provides a foundational understanding of this new lens for spiritual growth and presents findings from the latest REVEAL research Focusing on Jesus definition of spiritual growth as increasing love of God and others Matthew 22 36 40 the book draws on compelling stories of real people as well as engaging charts and graphs to illustrate key concepts and insights It includes four parts PART ONE The Heart of the Matter explains the brutal truth about spiritual growth and an orientation on how REVEAL takes us inside the hearts of congregants PART TWO The Spiritual Continuum identifies the five segments of intimacy with Christ and describes people with closed hearts who are Far from Christ people with searching hearts who are Exploring Christ people with open hearts who are Growing in Christ people with engaged hearts who are Close to Christ and people with surrendered hearts who are Christ Centered PART THREE Spiritual Movement details the distinct spiritual catalysts that move people toward increasing intimacy with Christ This includes four spiritual movements from rejection to searching for Christ from searching to accepting Christ from growing in Christ to becoming close to him and from close to Christ to becoming Christ centered We name two primary barriers to spiritual growth becoming stalled along the journey toward intimacy with Christ and becoming dissatisfied with the church s ability to lead people there PART FOUR Spiritual Leadership presents five key findings based on REVEAL s proprietary Spiritual Vitality Index which ranks a church s effectiveness in helping people grow The findings explain the importance of getting people moving once they express interest in knowing Christ embedding the Bible in everything the church does creating ownership on the part of the Christ follower pastoring the local community rather than merely doing ministry inside the church s four walls and re establishing      *Way To Grow* Ronald J. Lavin, 1996 Nothing is more important for ministry today than small groups George Gallop Jr a Christian who conducts polls on political and religious matters quoted in chapter 1 of this book Lavin is quick to point out that this book is not merely about numerical growth It is about nurturing spiritual growth which in itself is a dynamic that leads to growth in numbers Use this publication as a workbook The chapters each end with fascinating questions for consideration and group discussion Dr Lavin offers five different kinds of group structures for discipleship development Each is fully explored offering the reader or study participant the opportunity to determine which style best fits their group He also lists five essentials that must be present for any group to function effectively Lavin has had over 35 years of experience in the ministry during which time he has refined the methods that are most successful in leading people to commitment and discipleship This book is filled with fascinating

McIntosh, 2003-05-01 Every pastor wants to have a vibrant dynamic church There are many popular models for church growth based on outstanding churches led by outstanding pastors But unfortunately specific models are temporary and go out of style quickly Author Gary McIntosh explores the biblical principles for church growth and applies them to today's culture Instead of concentrating on the ephemeral how of church growth he focuses on the unchanging why McIntosh defines church growth as all that is involved in bringing men and women who do not have a personal relationship with Jesus Christ into fellowship with him and into responsible church membership In other words church growth is effective evangelism not a methodology for increasing membership According to *Biblical Church Growth* growing churches always evidence a desire to fulfill the Great Commission by cooperating with God in building a faithful church Using personal stories and current statistics as well as numerous biblical examples the author sets forth ten basic principles that provide an eternal foundation

for helping any church large or small achieve lasting vitality and growth

**The Church In Many Houses** Steve Cordle, 2014-01-01 Although the largest churches in the world are cell based many have questioned whether the model will work in North America The Church In Many Houses Reaching Your Community Through Cell Based Ministry makes the case that the cell model will work if key assumptions about spiritual growth and the nature of the church are reexamined and renewed By drawing on scripture research and insights gained through personal experience as the pastor of a growing cell church Steve Cordle identifies the four pivotal philosophical shifts necessary for the cell approach to work These are mindset shifts that move from programs to relationships the purposes of the church are best fulfilled in the cell group instead of in programs member to disciple maker every member can and should become a group leader educating to equipping spiritual growth is not knowing more but applying more come and see to go and show the power of penetration evangelism Impose a cell structure upon a congregation that has not yet made these philosophical shifts we are likely to fail But when people adopt these biblical mindset changes the cell approach will seem natural and will result in great unity and effectiveness The Church In Many Houses will help congregations make the changes that are necessary for success

*Spiritual Formation as if the Church Mattered* James C. the cultural ecclesiastical and corporate business issues that have been added to the church over the last two thousand years I am not interested in getting rid of these trappings so much as discovering what they are and what the bedrock of the church would look like without them Once exposed then we can decide what to keep and what is unnecessary Over the years I began to put together a list of criteria which I would periodically hold up to a congregation to help them determine whether they were still on track with what God wanted for His Church These criteria included 1 growing numerically 2 growing spiritually 3 reproduction 4 missions and 5 ministry This list set the framework for the study into the reality of what the church should be Unfortunately I believe that fully 80 percent of the existing congregations in America probably could not pass this test Therefore this may mean that we need to help our current churches re envision their purpose and not hamstring those moving out regardless of their size or leadership style God is doing a great and marvelous work amongst us today We must get on board with His program and stop reinventing it around those criteria that make us feel or look good I doubt anything that I will say is new I am a practitioner All of this comes from my own struggles with understanding what God wants for His church Please join me in the struggle as together we seek His will      **A Design for Mentored Spiritual**
