Transforming Theological Education, 2nd Edition Perry Shaw, 2022-01-31 For several decades concern has been expressed about the need for greater integration and contextual significance in the curricular design of theological education. In addition, there has been a growing awareness of the role theological schools should play in strengthening the missional vision and practice of local churches. Drawing on Dr. Perry Shaw's experience as faculty member, educational engineer, and acting academic dean for Arab Baptist Theological Seminary, *Transforming Theological Education* provides theoretical foundations and practical principles for purposeful curriculum design as well as tools for facilitating integrated and contextually significant learning in the classroom. This updated second edition has been reorganized for thematic clarity and expanded to provide a stronger foundation for thinking theologically rather than just educationally about theological education. It also contains a wider range of curricular examples from innovative theological programs around the world along with practical advice for implementing change in change-resistant environments. This handbook continues to be a one-of-a-kind resource for theological educators and all those involved in Christian leadership training.

The Catholic Social Imagination Joseph M. Palacios, 2008-11-15 The reach of the Catholic Church is arguably greater than that of any other religion, extending across diverse political, ethnic, class, and cultural boundaries. But what is it about Catholicism that resonates so profoundly with followers who live under disparate conditions? What is it for instance that binds parishioners in America with those in Mexico? For Joseph M. Palacios, what unites Catholics is a sense of being Catholic, a social imagination that motivates them to promote justice and build a better world. In *The Catholic Social Imagination*, Palacios gives readers a feeling for what it means to be Catholic and put one's faith into action. Tracing the practices of a group of parishioners in Oakland, California, and another in Guadalajara, Mexico, Palacios reveals parallels and contrasts in the ways these ordinary Catholics receive and act on a church doctrine that emphasizes social justice. Whether they are building a supermarket for the low-income elderly or waging protests to promote school reform, these parishioners provide important insights into the construction of the Catholic social imagination. Throughout, Palacios also offers important new cultural and sociological interpretations of Catholic doctrine on issues such as poverty, civil and human rights, political participation, and the natural law.

Baptism and the Baptists Anthony R. Cross, 2017-06-20 Since its first publication in 2000, *Baptism and the Baptists* has become the definitive work on the subject. It examines the theology and practice of believers' baptism among twentieth-century Baptists associated with the Baptist Union of Great Britain and identifies the major influences which have led to its development. In the nineteenth and early twentieth centuries, the majority of Baptists concentrated predominantly on the mode and subjects of baptism: immersion and believers' understanding of the rite merely as an ordinance, the believer's personal profession of faith in Christ. However, in continuity with a tradition of Baptists going back as far as the first Baptists in the second and third decades of the seventeenth century, there

were also a significant number of ministers and scholars who saw the inadequacy of this view of baptism both biblically and theologically. This sacramental view developed and grew throughout the twentieth century and influenced a resurgence of baptismal sacramentalism in the early twenty first century among Baptists not just in Britain but also in North America, Europe and further afield.

Christian Worship Franklin M. Segler, Randall Bradley, 2006-10-01 A classic treatise on the meaning, expression, planning and leading of Christian worship originally written by the late Franklin Segler and now updated by Randall Bradley for this third edition with more emphasis on contemporary issues. *The Holy Spirit and Worship* Elizabeth A. Welch, 2020-12-15 The Holy Spirit has become a greater focus for attention in Trinitarian theology and in the life of the western church since the rise of Pentecostalism at the beginning of the twentieth century. Different understandings of the Holy Spirit have impacted worship in a variety of ways. This book looks at surprising overlaps in the thinking about the relationship between the Holy Spirit and worship between two radically different traditions of the church represented by John Owen from the seventeenth century in England and John Zizioulas from the twentieth century in Greece. Four threads of argument are identified flowing from the unexpected overlap between these two thinkers that are of value for the church today. The first is the personal and relational nature of the Triune God drawing the human person into a deeper sense of relational identity. The second is the immediacy of the encounter with God through the Holy Spirit in worship. The third is the way in which the Holy Spirit leads people into truth. The fourth is the transformative nature of the encounter with God in worship which draws people into sharing God's purpose for the transformation of the world.

Charism in the Church Constant Leke Ngolefac, 2024-03-01 Charism is a hot contemporary issue. The growing interest in the charisms is one of the significant religious developments of our time. Opinions on charisms vary to a remarkable degree. Unfortunately in some cases diverse viewpoints have led to confusion among Christians. On the positive side though this developing interest in charisms has contributed to spiritual renewal and stimulated biblical research in this most important area of the Church's life. The exponential growth of the Charismatic Pentecostal Movement throughout the world and especially in Africa urged led to choice of this topic on charisms. In the Charismatic Pentecostal Movements the issue of charisms is very vital and extremely important. It is at the centre of its spirituality and practice. This Movement has spread to almost all major Christian confessions, denominations and continues to attract many followers. This work is unique among the many studies written on the charisms. Even though the subject of charisms has received some scholarly attention most have not delved into the role of the charisms in the Church from a Pauline perspective as this study does. The following observations and reasons demonstrate that it is still meaningful and worthwhile to study charisms in Pauline letters.

Shaping the Church Martyn Percy, 2016-04-01 This book seeks to dynamically alter the way that theologians ecclesiologists students of religion and ministers look at the church Taking the ideas of composition formation and vocation as basic ecclesial categories Martyn Percy explores how apparently innocent and incidental material is in fact highly significant for the shaping of theological and ecclesiological horizons The Introduction sets the tone with a meditation on how the apparently ordinary scent of a country church can be redolent with meaning setting the tone of expectation in relation to subsequent worship This book is not however simply about reading meanings into events ideas conversations and contexts Rather it sets out to faithfully interpret much of the material that surrounds us yet is often taken for granted or more usually unnoticed The book is an invitation to involve the scholar or minister paying close and patient attention to beliefs language artefacts rituals practices and other material all of which are constitutive for ecclesial life and theological identity
