Spiritual Marketplace:

Spiritual Marketplace Wade Clark Roof, 2001-07-02 In large chain bookstores the religion section is gone and in its place is an expanding number of topics including angels Sufism journey recovery meditation magic inspiration Judaica astrology gurus Bible prophecy evangelicalism Mary Buddhism Catholicism and esoterica As Wade Clark Roof notes such changes over the last two decades reflect a shift away from religion as traditionally understood to more diverse and creative approaches But what does this splintering of the religious perspective say about Americans Have we become more interested in spiritual concerns or have we become lost among trends Do we value personal spirituality over traditional religion and no longer see ourselves united in a larger community of faith Roof first credited this religious diversity to the baby boomers in his bestselling *A Generation of Seekers* 1993 He returns to interview many of these people now in mid life to reveal a generation with a unique set of spiritual values a generation that has altered our historic interpretations of religious beliefs practices and symbols and perhaps even our understanding of the sacred itself The quest culture created by the baby boomers has generated a marketplace of new spiritual beliefs and practices and of revisited traditions As Roof shows some Americans are exploring faiths and spiritual disciplines for the first time others are rediscovering their lost traditions others are drawn to small groups and alternative communities and still others create their own mix of values and metaphysical beliefs *Spiritual Marketplace* charts the emergence of five subcultures dogmatists born again Christians mainstream believers metaphysical believers and seekers and secularists Drawing on surveys and in depth interviews for over a decade Roof reports on the religious and spiritual styles family patterns and moral vision and values for each of these subcultures The result is an innovative engaging approach to understanding how religious life is being reshaped as we move into the next century

The Eastern Church in the Spiritual Marketplace

Amy Slagle, 2011-09-01 Like many Americans the Eastern Orthodox converts in this study are participants in what scholars today refer to as the spiritual marketplace or quest culture of expanding religious diversity and individual choice making that marks the post World War II American religious landscape In this highly readable ethnographic study Slagle explores the ways in which converts clerics and lifelong church members use marketplace metaphors in describing and enacting their religious lives Slagle conducted participant observation and formal semi structured interviews in Orthodox churches in Pittsburgh Pennsylvania and Jackson Mississippi Known among Orthodox Christians as the Holy Land of North American Orthodoxy Pittsburgh offers an important context for exploring the interplay of Orthodox Christianity with the mainstreams of American religious life Slagle's second round of research in Jackson sheds light on the American Bible Belt where over the past thirty years the Orthodox Church in America has marshaled significant resources to build mission parishes Relatively

few ethnographic studies have examined Eastern Orthodox Christianity in the United States and Slagle's book fills a significant gap. This lucidly written book is an ideal selection for courses in the sociology and anthropology of religion, contemporary Christianity, and religious change. Scholars of Orthodox Christianity as well as clerical and lay people interested in Eastern Orthodoxy will find this book to be of great appeal.

Freedoms, Faiths and Futures Andrew Singleton, Mary Lou Rasmussen, Anna Halafoff, Gary Bouma, 2021-04-08 How do contemporary teenagers experience and understand religious, spiritual, gender, and sexual diversity? How are their experiences mediated by where they go to school, their faith, and their geographic location? Are their outlooks materialist, religious, spiritual, or do they have hybrid identities? *Freedoms, Faiths and Futures: Teenage Australians on Religion, Sexuality, and Diversity* offers powerful insight into how teenagers make sense of the world around them. Drawing on rich data from a major national study, this book creates new ways of understanding the complexity of young people's lives and how school education covering diversity best addresses their world. This book argues that school education focused on worldviews is founded on ways of thinking about young people that do not reflect the complexities of Generation Z's everyday experiences of diversity and their interactions with each other. It argues that certain kinds of education in schools can play a significant role in developing religious literacy, tolerance, and positive attitudes to diversity.

Spiritual, but not Religious Robert C. Fuller, 2001-12-20 Nearly 40% of all Americans have no connection with organized religion. Yet many of these people, even though they might never step inside a house of worship, live profoundly spiritual lives. But what is the nature and value of unchurched spirituality in America? Is it a recent phenomenon, a New Age fad that will soon fade, or a long-standing and essential aspect of the American experience? In *Spiritual But Not Religious*, Robert Fuller offers fascinating answers to these questions. He shows that alternative spiritual practices have a long and rich history in America, dating back to the colonial period when church membership rarely exceeded 17% and interest in astrology, numerology, magic, and witchcraft ran high. Fuller traces such unchurched traditions into the mid-nineteenth century when Americans responded enthusiastically to new philosophies such as Swedenborgianism, Transcendentalism, and mesmerism, right up to the current interest in meditation, channeling, divination, and a host of other unconventional spiritual practices. Throughout, Fuller argues that far from the flighty and narcissistic dilettantes they are often made out to be, unchurched spiritual seekers embrace a mature and dynamic set of basic beliefs. They focus on inner sources of spirituality and on this world rather than the afterlife; they believe in the accessibility of God and in the mind's untapped powers; they see a fundamental unity between science and religion and an equality between genders and races; and they are more willing to test their beliefs and change them when they prove untenable. Timely, sweeping in its scope, and informed by a clear historical understanding, *Spiritual But Not Religious* offers a fresh perspective on the growing numbers of Americans who find their spirituality outside the church.

American Spiritualities Catherine L. Albanese, 2001 This reader explores current interest in spirituality in the United States. It traces the concept and presence of spirituality in the nation's

past and explains the strong attraction to spiritual themes in the present with attention to questions of definition historical usage and connection to religion Twenty seven selections pursue the difference and diversity among Americans in terms of their spiritual styles here understood as modes of experiential knowledge Catherine L Albanese has organized these selections to reflect four approaches to spirituality knowing through the body or ritual based spiritualities knowing through the heart or evangelical and emotionally toned spiritualities knowing through the will or prophetic and social action spiritualities and knowing through the mind or metaphysically oriented spiritualities Taken together these essays make the argument that the spiritual is human made essentially religious and surely not the same at all American times and places The anthology includes selections by Catherine L Albanese Janet and Robert Aldridge Daniel Berrigan Joseph Epes Brown Charles W Colson Annie Dillard Virgilio Elizondo Tamar Frankiel Emma Goldman Charles E Hambrick Stowe B K S Iyengar Curtis D Johnson Martin Luther King Jr Chen Kung Jerena Lee Shirley MacLaine Aimee Semple McPherson Thomas Merton Carry A Nation E Burke Rochford Jr Jerry Rubin Molly Rush Starhawk Henry David Thoreau Ralph Waldo Trine Joachim Wach B Alan Wallace Steven Wilhelm and Dhyani Ywahoo Catherine L Albanese is Professor of Religious Studies at the University of California Santa Barbara She is the author of the widely used textbook *American Religions and Religion* now in its third edition and of numerous other articles and books including *Nature Religion in America From the Algonkian Indians to the New Age* Albanese is a former president of the American Academy of Religion 552 pages 6 1 8 x 9 1 4 bibl index cloth 0 253 33839 5 65 00 L 50 00 paper 0 253 21432 7 27 50 s 21 00 **The New Metaphysicals** Courtney Bender, 2010-07-15

American spirituality with its focus on individual meaning experience and exploration is usually thought to be a product of the postmodern era But as *The New Metaphysicals* makes clear contemporary American spirituality has historic roots in the nineteenth century and a great deal in common with traditional religious movements To explore this world Courtney Bender combines research into the history of the movement with fieldwork in Cambridge Massachusetts a key site of alternative religious inquiry from Emerson and William James to today Through her ethnographic analysis Bender discovers that a focus on the new on progress and on the way spiritual beliefs intersect with science obscures the historical roots of spirituality from its practitioners and those who study it alike and shape an enduring set of modern religious possibilities in the process
