Spiritual Diversity in Social Work Practice Edward R. Canda, Leola Dyrud Furman, 2010. Weaving together interdisciplinary theory and research as well as the results from a national survey of practitioners, the authors describe a spiritually oriented model for practice that places clients' challenges and goals within the context of their deepest meanings and highest aspirations. Using richly detailed case examples and thought provoking activities, this highly accessible text illustrates the professional values and ethical principles that guide spiritually sensitive practice. It presents definitions and conceptual models of spirituality and religion, draws connections between spiritual diversity and cultural, gender and sexual orientation diversity and offers insights from Buddhism, Christianity, Confucianism, Hinduism, Indigenous religions, Islam, Judaism, Existentialism and Transpersonal theory. Eminently practical, it guides professionals in understanding and assessing spiritual development and related mental health issues and outlines techniques that support transformation and resilience such as meditation, mindfulness, ritual, forgiveness.

and engagement of individual and community based spiritual support systems **Engaged Spirituality** Gregory C. Stanczak, 2006 In *Engaged Spirituality* Gregory C. Stanczak challenges this assumption arguing that spirituality plays an important social role as well. Based on more than one hundred interviews with individuals of diverse faith traditions the book shows how prayer, meditation and ritual provide foundations for activism. Among the stories a Buddhist monk in Los Angeles intimately describes the physical sensations of strength and compassion that sweep her body when she recites the Buddha's name in times of selfless service and a Protestant reverend explains how the calm serenity that she feels during retreats allows her to direct her multi service agency in San Francisco to creative successes that were previously unimaginable. In an age when Madonna studies Kabbalah and the internet is bringing Buddhism to the white middle class it is clear that formal religious affiliations are no longer enough. Stanczak's critical examination of spirituality provides us with a way of discussing the factors that impel individuals into social activism and forces us to rethink the question of how religion and spirituality might be defined.

Artistry in Social Work Practice Max Siporin, 2009-03 *Artistry in Social Work Practice* deals with the aesthetics of helping practice. There is a focus on the features of artistry that give effectiveness to the work of assisting people with their problems in social living and improving their personal and communal welfare. Consideration is given to such elements as the use of self, form, relationships, creativity, communication, style, performance and to aesthetic and spiritual experiences as part of the helping process. This book is an alert to the much neglected but crucial artistic aspect of social work. Max Siporin, a long time innovator in thinking about social work, calls practitioners to engage more deeply the aesthetic, creative, dynamic, symbolic and spiritual qualities of our helping relationships and transformative activities. Ed R. Canda. This is a book that has been badly needed in social work. Siporin has given the artistic dimension of social work practice its just due. It is a practice that can be done with a creativity, skill, style and wisdom which achieve a helping experience that is a thing of beauty. Ed Sherman.
