Bellous, 2013-09-13 The book demonstrates the hopeful stance the young take in response to ordinary suffering and significant trauma when adults talk with them about their losses Its underlying themes convey the truth that loss and recovery are normal in the process of growing to maturity It examines the strength of the child s capacity for resilience through partnerships with adults who allow children to focus on the loss and tell the story of its meaning to someone who really hears it The authors agree that adults need to perceive their own losses so that their attentiveness to the young is informed by wisdom that comes through self understanding but also agree that many adults do not offer that help to children

because they believe it will make matters worse The book reveals this fear as a false notion by dealing with childhood traumas such as acquired disability warfare HIV AIDS death of one's parents and cultural dislocation The authors are experienced practitioners who provide practical and theoretical insight into the dynamics of loss and recovery The book offers hope for those who live and work with children and youth through its studied approach to addressing loss by describing young people's potential to work towards wholeness even in the face of fundamental losses to their security This book was published as a special issue of the International Journal of Children's Spirituality **Spirituality** Kees Waaijman, 2002 This textbook is a systematic guide to the extensive field of spirituality Kees Waaijman charts the multiform phenomenon of spirituality the spirituality of ordinary people the great spiritual traditions and the force of counter movements From the foundation of this survey he answers questions like What exactly is spirituality What forms can a scholarly approach take Finally the book provides methodic access to the study of spirituality focusing on the following questions Which are the different forms of spirituality and how can we describe them How can spiritual texts be given a reliable reading Which themes can be distinguished in the field of spirituality and what would be a meaningful way to address them What do we mean by spiritual guidance and what can we learn from it This textbook has no equal It is indispensable to scholars wishing to study the subject but also to others who want to learn about spirituality From Contemplation to Action Mark G. Boyer, 2018-09-10 Contemplation is a spiritual process involving long thoughtful steady serious and attentive consideration or observation in order to achieve closer unity with God and to discover and understand God's will for the contemplative Contemplation gives rise to activity and activity in turn gives rise to more contemplation The result of contemplation is often called discernment seeing clearly what is at first not very clear or obvious understanding what is not immediately obvious resulting in accuracy of spiritual perception Divine discernment is contemplation in action it results in insight inspiration and an awareness of inner truth upon which one must act While there are countless models of contemplation leading to action the ninth century BCE prophets Elijah and Elisha are the examples used in this book Both are seers messengers and heralds of the LORD They appear in activity when they are needed and they disappear into solitude and silence when they are not *Emotions and Spirituality in Religions and Spiritual Movements* Erika Wilson, 2012-07-19 Applying recent psychological and neuropsychological studies of emotions Erika Wilson explores the role of emotions in major Eastern Western and primal religions as well as in some contemporary spiritual movements The book tries to answer the following questions What kinds of emotions and spiritual experiences arise in individuals and groups during prayer conversions rituals meditations and other spiritual practices Which positive emotions are valued most in a particular religion or spiritual movement How do these attitudes relate to their respective historical context And finally how does each religious or spiritual teaching recommend handling negative emotions **The Heart of Religion** Matthew T. Lee, Margaret M. Poloma, Stephen G. Post, 2013-01-10 Drawing on a random survey of 1 200 men and women across the United States this

book sheds new light on how Americans wake up to the reality of divine love and how that transformative experience expresses itself in concrete acts of benevolence
