Spirituality and Moral Theology James Keating, 2000 A collection of essays by leading moral theologians on the topic of how being good is related to being holy in the context of pastoral life      Spirituality and moral theology , 1973      **Moral Theology** James Keating, 2004 Gathers together some of the top moral theologians to recognize and honour the work of James P Hanigan and to present their own personal visions on the present state and future direction of fundamental moral theology      Catholic Moral Theology in the United States Charles E. Curran, 2008-04-11 In this magisterial volume Charles E Curran surveys the historical development of Catholic moral theology in the United States from its 19th century roots to the present day He begins by tracing the development of pre Vatican II moral theology that with the exception of social ethics had the limited purpose of training future confessors to know what actions are sinful and the degree of sinfulness Curran then explores and illuminates the post Vatican II era with chapters on the effect of the Council on the scope and substance of moral theology the impact of Humanae vitae Pope Paul VI s encyclical condemning artificial contraception fundamental moral theology sexuality and marriage bioethics and social ethics Curran s perspective is unique For nearly 50 years he has been a major influence on the development of the field and has witnessed first hand the dramatic increase in the number and diversity of moral theologians in the academy and the Church No one is more qualified to write this first and only comprehensive history of Catholic moral theology in the United States      Ethics and Spirituality Charles E. Curran, 2014 This volume compiles writings by leading moral theologians and ethicists on an important emerging topic in the field of ethics As spirituality asserts its broad humanistic interdisciplinarity and moral theology emerges from its fixation on sin to address broader questions of human formation and Christian discipleship the need for the two disciplines to be in dialogue is clear      Phenomenological Approaches to Religion and Spirituality Essien, Essien D., 2021-01-29 There is an interesting knowledge trajectory that God remains incomprehensible not imperceptible This lends credence to the fact that religious study since the Enlightenment has dedicated itself almost entirely to the problem of reconciling the non existence of God in the physical world with his necessary existence in the metaphysical world When seriously examined it would be discovered that these two aspects are logically contradictory and this is a problem with no solution But interpreting God not as a physical being but as a phenomenological thing changes the nature of the problem enough that a solution emerges almost automatically In this phenomenological model the crux of the matter is that God does not exist but God is real Therefore it is imperative to return to experience and verifiability hence purging it of unexamined and often hidden assumptions Phenomenological Approaches to Religion and Spirituality brings together the different disciplines and research approaches to provide a comprehensive analysis of the phenomenology of God and spirituality as well as offering an effective epistemological apparatus capable of dealing with this concept The book employs multidisciplinary approaches from religious studies theology philosophy anthropology and other segments to dissect the subject matter for efficient evaluation and all

**Water Shaping Stone** Kathryn Lilla

Cox,2016-01-15 The Catholic Tradition requires the faithful to form and follow their conscience This is the case even with the recognition that consciences can be malformed and one can make errors in practical judgments Water Shaping Stone examines various aspects of this tradition regarding conscience by using among other sources twentieth century magisterial documents theologians works and Scripture Kathryn Lilla Cox argues that while the Magisterium retains teaching authority and a responsibility to help form consciences through its teaching focusing only on the Magisterium leads to incomplete formation A more holistic vision of conscience formation means considering the formation of the moral agent to be a multifaceted process that draws on for example teaching prayer rituals Scripture practices and virtues along with relationships with the Triune God and communities of accountability This vision of conscience formation retains the magisterial teaching authority while acknowledging discipleship as the theological basis for making and assessing practical judgments of conscience
