## **Spirituality In Recovery A 12 Step Approach:**

*Spirituality in Recovery* Paul Barton Doyle, 1993      **Why Can't Church Be More Like an AA Meeting?** Stephen R. Haynes, 2021-10-26 Do Christians need recovery Or is recovery something needed by the church itself Addiction whether to a substance or to a behavior is a problem within faith communities just like it is everywhere else But because churches are rarely experienced as safe places for dealing with addiction co addiction or the legacy of family dysfunction Christians tend to seek recovery from these conditions in Twelve Step fellowships Once they become accustomed to the ethos of vulnerability acceptance and healing that these fellowships provide however they are often left feeling that the church has failed them with many asking why can't church be more like an AA meeting Inspired by his own quest to find in church the sort of mutual support and healing he discovered in Twelve Step fellowships Stephen Haynes explores the history of Alcoholics Anonymous and its relationship to American Christianity He shows that while AA eventually separated from the Christian parachurch movement out of which it emerged it retained aspects of Christian experience that the church itself has largely lost comfort with brokenness and vulnerability an emphasis on honesty and transparency and suspicion toward claims to piety and respectability Haynes encourages Christians to reclaim these distinctive elements of the Twelve Step movement in the process of recovering church He argues that this process must begin with he calls Step 0 which as he knows from personal experience can be the hardest step the admission that despite appearances we are not fine      *Identification and Treatment of Alcohol Dependency* Professor Colin R. Martin, 2008 Colin Martin has brought together an excellent set of contributors to produce a truly comprehensive text that will ensure all interested professionals can not only update their knowledge but also better understand each other's roles and how best to help patients and clients through shared working to achieve a common goal of better health This book is not just for people who see themselves as having a primary role in the field but also for those teachers the police and family members who live daily with its effects Professor Dame Betty Kershaw University of Sheffield UK Alcohol dependency represents an enduring problem for both the individual and wider society Despite contemporary media coverage on increasingly dangerous levels of drinking in the United Kingdom the fact remains that excessive alcohol consumption has been a distinguishing feature of Western society for generations This book is arranged by a number of themed parts largely representing the key areas in the process of facilitating access to effective clinical management The book will also be of interest to the wider public who have an interest or concern in relation to alcohol dependency Contents include Part 1 Identification Part 2 Medical interventions Part 3 Psychological interventions Part 4 Contemporary issues in the identification and treatment of alcohol dependency Part 5 Clients with complex needs Part 6 Reproductive and developmental concerns      *An Individual Drug Counseling Approach to Treat Cocaine Addiction* Delinda E. Mercer, George E. Woody, 1999      Counselor's Treatment Manual: Matrix Intensive Outpatient Treatment for People With Stimulant Use Disorders U.S. Department of Health and Human Services, 2019-03-17 The Matrix IOP method was developed initially in the

1980s in response to the growing numbers of individuals entering the treatment system with cocaine or methamphetamine dependence as their primary substance use disorder. Many traditional treatment models then in use were developed primarily to treat alcohol dependence and were proving to be relatively ineffective in treating cocaine and other stimulant dependence. Obert et al 2000. To create effective treatment protocols for clients dependent on stimulant drugs, treatment professionals at the Matrix Institute drew from numerous treatment approaches incorporating into their model methods that were empirically tested and practical. Their treatment model incorporated elements of relapse prevention, cognitive behavioral psychoeducation, and family approaches as well as 12 Step program support. Obert et al 2000. Substance Use Disorders and Addictions Keith Morgen, 2024-09-24. Experienced researcher and clinician Keith Morgen summarizes cutting edge research into an applied introduction in Substance Use Disorders and Addictions Second Edition, Updated with the DSM 5 TR's diagnostic criteria. Morgen provides a holistic approach to treating individuals with addiction and co-occurring psychiatric disorder. **Peoples Anonymous** Lane W., 2017-01-18. Welcome to Peoples Anonymous.
