Groome, 1998     **Redefining Religious Education** S. Gill, G. Thomson, 2016-10-18 This book is a unique collection of interdisciplinary articles that argue for religious education to be directed primarily towards the spiritual insofar as it is part of a flourishing human life The articles address this issue from the perspectives of theory different religious traditions and innovative teaching and learning practices     **Reconstructing Religious, Spiritual and Moral Education** Clive Erricker, Jane Erricker, 2012-11-12 Religious Education is now identified as a shortage subject as a growing number of pupils in schools opt for it The growing emphasis on children s moral and spiritual education the DfEE s hunt for new teachers OFSTED s calls for improvement and reinforced links with philosophy have pushed the subject into the spotlight Based on research and partnership with schools this book examines and explains the role of Religious Education in the curriculum the role of spirituality in children s lives better teaching practice giving practical examples     Informed by Faith Mark Bozzuti-Jones, 2004-01-25 All of us educate teach and form others as Christians the place in which this formation takes place is our community Every waking moment offers opportunities for education and the home especially is a place for ongoing Christian formation At home we equip the family to know that God is a mystery and a God of life and love and our families can be much needed examples of how best to struggle with what it means to know God in everyday life experiences of love suffering and death In *Informed by Faith* Mark Francisco Bozzuti Jones creates a dialogue between religious educators and parents that is designed to lead to meditation prayer reflection and a new perspective on the ministry of teaching Through examination of the history of education education as life and the meaning of being a Christian Bozzuti Jones offers those who teach a sense of refreshment in soul mind and body leading to a new commitment to teaching and proclaiming God s life and love One of the primary purposes of religious formation in the home is to equip the members of a family to know God specifically to know that God is a God of life God is love and God is a mystery More than ever our society needs the examples of families that struggle with what it means

to know God in their daily lives loves and encounters with pain suffering and death      **Religious Education in the Family** Henry Frederick Cope,2022-09-16 In *Religious Education in the Family* Henry Frederick Cope presents a meticulous exploration of the integral role that family dynamics play in the spiritual upbringing of children Cope s literary style is characterized by a clear didactic tone that carefully combines empirical research with philosophical inquiry Set against the backdrop of early 20th century American thought the book engages with contemporary debates about the intersection of education religion and family life emphasizing the concept that moral and spiritual values are primarily cultivated within the domestic sphere The work is not only a reflection of its time but also a prescient guide for future generations navigating the complexities of religious education Henry Frederick Cope an influential figure in the field of religious education draws upon his extensive background in theology sociology and pedagogy to craft this work His experiences as an educator and his commitment to integrating faith with academic rigor inform his insights making his arguments both practical and theoretically robust Cope s dedication to the family as a primary unit of spiritual development showcases his belief in the transformative power of home centered religious instruction This enlightening volume is highly recommended for educators parents and anyone interested in the confluence of faith and family Cope s compelling arguments and actionable strategies provide essential resources for fostering a meaningful spiritual foundation in contemporary family life making it a timeless read for those seeking to enrich their understanding of religious education      Contemporary Challenges for Religious and Spiritual Education Arniika Kuusisto,Terry Lovat,2017-10-02 From being on the margins of scholarly debate for much of the past century and a half religion is being recognized once again as an area of concern for scholars politicians and public policy makers and thus the role of religious and spiritual education has taken on a new importance Apart from its socio political ramifications the place of religiousness and spirituality in the make up of individuals has been given renewed prominence through updated brain science and neuroscientists regularly refer to elements of this brain science in terms such as spiritual intelligence and even mystical consciousness This book explores many of the new directions being taken in the field of religious and spiritual education as new developments challenge the priorities of formal education and open up new avenues for incorporating religion and spirituality into the modern curriculum It asks whether the educational aims of teachers should be focused on specifically personal development or whether religious education should be used to develop understanding of more global and social issues such as citizenship conflict and ethics The book also addresses neuroscientific insights which suggest a need to engage with cognition and emotion in order to create a rich learning environment something to which a particularly contested subject area like religion and spirituality is well placed to contribute This book was originally published as a special issue of the *Journal of Beliefs Values*      *Reshaping Religious Education* Maria Harris,Gabriel Moran,1998-01-01 Well known religious educators Maria Harris and Gabriel Moran challenge the religious education community to risk change Focusing on themes of foundations development spirituality and a wider world Harris and Moran

**International Handbook of the Religious, Moral and Spiritual Dimensions in Education** Marian de Souza, Gloria Durka, Kathleen Engebretson, Robert Jackson, Andrew McGrady, 2007-06-04 Traditionally spirituality has resided and been contained within religious frameworks but while the links between the two areas are still acknowledged by many in the contemporary world spirituality is perceived by some as an aspect of human life that is distinct from religion Consequently many are searching for meaning within and

without religious traditions today and seeking answers to ethical and moral questions that have been generated by the knowledge and technological explosion One outcome is the renewed interest in the religious spiritual and moral dimensions of education throughout the life cycle This International Handbook presents the research and professional practice of scholars who are daily engaged in the consideration of these dimensions in education The result is a collection of essays which reflects the discipline in all of its internationality as it is today Embedded within the chapters is also an agenda for the future where the religious moral and spiritual dimensions in education are proposed as an exciting and challenging way forward for educators at all levels in society As well it offers a vision for the emergence of a peaceful and just world
