Spirituality Revisited:

Spirituality Revisited Karl A. Pohlhaus, 2005-06 Spirituality Revisited is a unique book It evenly addresses Spirituality among the great religions present in the world today as well as those qualities that denigrate what it means to be spiritually minded The author has many years of study and experience to draw from in describing the experience of Spirituality It is not a how to book or one that specifically remembers certain historic figures who have been deemed Spirit in nature and practice Rather it focuses on Spirituality as an experience contrasting it with qualities and positions that stand in distinction to its purpose for being felt in real time and space A must reading for those interested in World Religions and their place in the world today *Assessing Spirituality in a Diverse World* Amy L. Ai, Paul Wink, Raymond F. Paloutzian, Kevin A. Harris, 2020-12-07 This volume addresses an important problem in social scientific research on global religions and spirituality How to evaluate the role of diverse religious and spiritual R S beliefs and practices within the rapid evolution of spiritual globalization and diversification trends The book examines this question by bringing together a panel of international scholars including psychologists sociologists and researchers in religious studies public health medicine and social work The content includes chapters describing innovative concepts of post Christian spirituality Eastern forms of meditation afterlife beliefs associated with the three dominant cultural legacies various non religious worldviews spiritual Jihad and secular and religious reverence The book also covers such important themes as spiritual well being faith struggle meaning making modeling and support as well as mysticism and using prayer to cope with existential crises This book advances the understanding of the role of R S across different faiths and cultural systems including both Western and non Western ones and enriches the mainstream of psychological sciences and practices It appeals to students educators researchers and clinicians in multiple related fields and disciplines *England's Wars of Religion, Revisited* Dr Charles W A Prior, Professor Glenn Burgess, 2013-06-28 The causes and nature of the civil wars that gripped the British Isles in the mid seventeenth century remain one of the most studied yet least understood historical conundrums Religion politics economics and affairs local national and international all collided to fuel a conflict that has posed difficult questions both for contemporaries and later historians Were the events of the 1640s and 50s the first stirrings of modern political consciousness or as John Morrill suggested wars of religion This collection revisits the debate with a series of essays which explore the implications of John Morrill's suggestion that the English Civil War should be regarded as a war of religion This process of reflection constitutes the central theme and the collection as a whole seeks to address the shortcomings of what have come to be the dominant interpretations of the civil wars especially those that see them as secular phenomena waged in order to destroy monarchy and religion at a stroke Instead a number of chapters present a portrait of political thought that is defined by a closer integration of secular and religious law and addresses problems arising from the clash of confessional and political loyalties In so doing the volume underlines the extent to which the dispute over the constitution took place within a

political culture comprised of many elements of fundamental agreement and this perspective offers a richer and more nuanced readings of some of the period s central figures and draws firmer links between the crisis at the centre and its manifestation in the localities

Psychosis and Spirituality Isabel Clarke,2010-10-26 The new edition of this successful text builds on the very latest research to present an original and unique exploration of the psychology of both spirituality and psychosis The editor brings together fascinating perspectives from a broad range of distinguished contributors This new edition covers the most recent body of research both qualitative and quantitative in its exploration of the interface between psychosis and spirituality and investigation into anomalous experiences Ten new chapters added and the remaining text completely updated New to this edition is an expanded clinical section relevant to clinicians working with psychosis Offers a fundamental rethink of the concept of psychosis and proposes new insights into spirituality Includes feature chapters from a distinguished list of contributors across a broad range of disciplines including Peter Fenwick Peter Chadwick David Kingdon Gordon Claridge Neil Douglas Klotz and David Lukoff

Topographies of African Spirituality Afe Adogame,Ebenezer Obadare,Wale Adebani,2025-01-31 This book explores African spirituality inside and outside of religion investigating African traditions and perceptions in the study of spirituality across Africa and the African diaspora It provides an interdisciplinary reflection on key issues in the field and sheds light on everyday experiences In particular the volume celebrates the work and mentorship of Professor Jacob K Olupona a leading figure in the study of African spiritualities religions in Africa and methodological approaches to the study of religion With chapters by an impressive range of scholars from institutions across Africa Europe and North America this book makes a valuable empirical and theoretical contribution to the development of African religious studies The Open Access version of this book available at <http://www.taylorfrancis.com> has been made available under a Creative Commons Attribution Non Commercial No Derivatives CC BY NC ND 4 0 license

Dictionary of Christian Spirituality Zondervan,2016-11-22 In recent decades Christian spirituality spiritual formation and spiritual theology have become important concepts in the global evangelical community Consequently an accessible and reliable academic resource is needed on these topics one that will offer a discerning orientation to the wealth of ecumenical resources available while still highlighting the distinct heritage and affirming the core grace centered values of classic evangelical spirituality The Dictionary of Christian Spirituality reflects an overarching interpretive framework for evangelical spiritual formation a holistic and grace filled spirituality that encompasses relational connecting transformational becoming and vocational doing dynamics At the same time contributors respectfully acknowledge the differences between Reformed Holiness and Pentecostal paradigms of the spiritual life And by bringing together writers from around the world who share a common orthodoxy this reference work is truly global and international in both its topical scope and contributors Entries give appropriate attention to concepts concerns and formative figures in the evangelical tradition of spirituality that other reference work neglect They offer a discerning orientation to the wealth of ecumenical resources available exploring the

similarities and differences between Christianity and alternate spiritualities without lapsing into relativism The Dictionary of Christian Spirituality is a resource that covers a wide range of topics relating to Christian spirituality and is biblically engaged accessible and relevant for all contemporary Christians

Understanding the Psychological Soul of Spirituality

Ralph L. Piedmont, Teresa A. Wilkins, 2019-11-20 Understanding the Psychological Soul of Spirituality is a comprehensive exploration of spiritual constructs based on an empirical evidence based paradigm for understanding and addressing spirituality In a field where there is no current consensus on spirituality this book provides a much needed psychologically based definition and ontology that assists helping professionals in formulating their professional identities developing effective and appropriate training models furthering their understanding of what spirituality is and is not from a psychological perspective and more effectively addressing spiritual issues to support clients The authors provide a review of current issues in the area of spirituality also called the numinous and provide perspectives that address these concerns in ways that promote a fully scientific understanding of the construct Ultimately the book provides a concise definition of the numinous that places it squarely in the social sciences Chapters outline the clear value of the numinous for psychology and detail its relevance for professionals training

International Handbook of Education for Spirituality, Care and Wellbeing

Marian de Souza, LESLIE J. FRANCIS, James O'Higgins-Norman, Daniel G. Scott, 2009-10-13 Acknowledging and understanding spiritual formation is vital in contemporary education This book explores the dynamic relationship between education and wellbeing It examines the theory underpinning the practice of education in different societies where spirituality and care are believed to be at the heart of all educational experiences The book recognizes that regardless of the context or type of educational experience education is a caring activity in which the development of the whole person body mind and spirit is a central aim for teachers and educators in both formal and informal learning The chapters in this handbook present and discuss topics that focus on spirituality as an integral part of human experience and consequently essential to educational programs which aim to address personal and communal identity foster resilience empathy and compassion and promote meaning and connectedness

The Legacy of Second-Wave Feminism in American Politics

Angie Maxwell, Todd Shields, 2017-12-05 This book chronicles the influence of second wave feminism on everything from electoral politics to LGBTQ rights The original descriptions of second wave feminism focused on elite white voices obscuring the accomplishments of many activists as third wave feminists rightly criticized Those limited narratives also prematurely marked the end of the movement imposing an imaginary timeline on what is a continuous struggle for women s rights Within the chapters of this volume scholars provide a more complex description of second wave feminism in which the sustained efforts of women from many races classes sexual orientations and religious traditions in the fight for equality have had a long term impact on American politics These authors argue that even the Second Wave metaphor is incomplete and should be replaced by a broader more inclusive metaphor that accurately depicts the overlapping and extended battle waged by women

activists With the gift of hindsight and the awareness of the limitations of and backlash to this Second Wave the time is right to reflect on the feminist cause in America and to chart its path forward

Spirituality and Art Therapy Mimi Farrelly-Hansen,2001-03-15 The book is an exciting exploration of the different ways in which the spiritual forms an essential life enhancing component of a well rounded therapeutic approach The contributors explain how their own spiritual and creative influences interact finding expression in the use of art as a healing agent with specific populations

The ^AOxford Handbook of Psychology and Spirituality ,2021-04-19 This updated edition of The Oxford Handbook of Psychology and Spirituality codifies the leading empirical evidence in the support and application of postmaterial psychological science Lisa J Miller has gathered together a group of ground breaking scholars to showcase their work of many decades that has come further to fruition in the past ten years with the collective momentum of a Spiritual Renaissance in Psychological Science With new and updated chapters from leading scholars in psychology medicine physics and biology the Handbook is an interdisciplinary reference for a rapidly emerging approach to contemporary science Highlighting fresh ideas and supporting science this overarching work provides both a foundation and a roadmap for what is truly a new ideological age

The Making of American Liberal Theology Gary J. Dorrien,2006-01-01 In this first of three volumes Dorrien identifies the indigenous roots of American liberal theology and demonstrates a wider longer running tradition than has been thought The tradition took shape in the nineteenth century motivated by a desire to map a modernist third way between orthodoxy and rationalistic deism atheism It is defined by its openness to modern intellectual inquiry its commitment to the authority of individual reason and experience its conception of Christianity as an ethical way of life and its commitment to make Christianity credible and socially relevant to modern people Dorrien takes a narrative approach and provides a biographical reading of important religious thinkers of the time including William E Channing Ralph Waldo Emerson Horace Bushnell Henry Ward Beecher Elizabeth Cady Stanton and Charles Briggs Dorrien notes that although liberal theology moved into elite academic institutions its conceptual foundations were laid in the pulpit rather than the classroom

Patterns of Connection Fritjof Capra,2021-10 Fritjof Capra scientist educator activist and accomplished author presents the evolution of his thought over five decades in Patterns of Connection

Servant Leadership Dirk van Dierendonck,Kathleen Patterson,2025-01-23 In the context of socially responsible business hybrid working demographic changes to the workforce and the renewed focus on employee well being the concept of the leader as servant has only continued in prominence Indeed servant leadership may be the answer to the demand for more ethical people centred leadership where working from humility with a focus on contribution are key elements This second edition of the seminal text in the field provides a completely up to date overview of current thinking and empirical research on the determinants underlying processes and consequences of servant leadership Updated throughout to reflect the current context it includes new chapters covering the gender perspective on servant leadership inner development goals the servant follower and how

to study servant leadership A definitive resource for anyone studying or practicing servant leadership this book provides a foundational approach that is rooted between theory and practice and takes a global approach to the topic A New Old Spirituality? Tone Stangeland Kaufman,2017-07-11 How do pastors live their spiritual lives both as private persons and as professionals How can their spirituality be characterized and understood Drawing on in depth interviews with Norwegian clergy as well as literature from the fields of Christian spirituality practical theology congregational studies and the sociology of religion this book offers a nuanced understanding of clergy spirituality Tone Stangeland Kaufman identifies three locations and sources of spiritual nurture for pastors the ministry itself vocational spirituality daily life everyday spirituality and spiritual practices located at the margins of daily life intentional spirituality The participants in this study engage in classic Christian practices yet approach them in a subjective and new way that also potentially revitalizes their spiritual lives Hence the author makes the case that their spirituality can aptly be described as a new old spirituality The book also seeks to nuance Paul Heelas s and Linda Woodhead s Spiritual Revolution claim and thus engages in the broader spirituality vs religion discourse A New Old Spirituality is an exciting example of how qualitative empirical research can be used in creative ways to make a practical theological argument It is a book for scholars students and practitioners Storytelling Organizational Practices David M. Boje,2014-06-20 Once upon a time the practice of storytelling was about collecting interesting stories about the past and converting them into soundbite pitches Now it is more about foretelling the ways the future is approaching the present prompting a re storytelling of the past Storytelling has progressed and is about a diversity of voices not just one teller of one past it is how a group or organization of people negotiates the telling of history and the telling of what future is arriving in the present With the changes in storytelling practices and theory there is a growing need to look at new and different methodologies Within this exciting new book David M Boje develops new ways to ask questions in interviews and make observations of practice that are about storytelling the future This after all is where management practice concentrates its storytelling while much of the theory and method work is all about how the past might recur in the future Storytelling Organizational Practices takes the reader on a journey from looking at narratives of past experience through looking at living stories of emergence in the present to looking at how the future is arriving in ways that prompts a re storytelling of the past **Fragments of Trauma and the Social Production of Suffering** , Marilyn Charles,Michael O'Loughlin,2014-11-05 Fragments of Trauma and the Social Production of Suffering Trauma History and Memory offers a kaleidoscope of perspectives that highlight the problem of traumatic memory Because trauma fragments memory storytelling is impeded by what is unknowable and what is unspeakable Each of the contributors tackles the problem of narrativizing memory that is constructed from fragments that have been passed along the generations When trauma is cultural as well as personal it becomes even more invisible as each generation s attempts at coping push the pain further below the surface Consequently that pain becomes increasingly ineffable haunting succeeding generations In each story the contributors offer

there emerges the theme of difference a difference that turns back on itself and makes an accusation Themes of knowing and unknowing show the terrible toll that trauma takes when there is no one with whom the trauma can be acknowledged and worked through In the face of utter lack of recognition what might be known together becomes hidden Our failure to speak to these unaspirated truths becomes a betrayal of self and also of others In the case of intergenerational and cultural trauma we betray not only our ancestors but also the future generations to come In the face of unacknowledged trauma this book reveals that we are confronted with the perennial choice of speaking or becoming complicit in our silence Christian Identity, Piety, and Politics in Early Modern England Robert E. Stillman, 2021-07-15 This book challenges the adequacy of identifying religious identity with confessional identity The Reformation complicated the issue of religious identity especially among Christians for whom confessional violence at home and religious wars on the continent had made the darkness of confessionalization visible Robert E Stillman explores the identity of Christians without names as well as their agency as cultural actors in order to recover their consequence for early modern religious political and poetic history Stillman argues that questions of religious identity have dominated historical and literary studies of the early modern period for over a decade But his aim is not to resolve the controversies about early modern religious identity by negotiating new definitions of English Protestants Catholics or moderate and radical Puritans Instead he provides an understanding of the culture that produced such a heterogeneous range of believers by attending to particular figures such as Antonio del Corro John Harington Henry Constable and Aemilia Lanyer who defined their pious identity by refusing to assume a partisan label for themselves All of the figures in this study attempted as Christians to situate themselves beyond between or against particular confessions for reasons that both foreground pious motivations and inspire critical scrutiny The desire to move beyond confessions enabled the birth of new political rhetorics promising inclusivity for the full range of England's Christians and gained special prominence in the pursuit of a still imaginary Great Britain Christian Identity Piety and Politics in Early Modern England is a book that early modern literary scholars need to read It will also interest students and scholars of history and religion **Counting Religion in Britain, 1970-2020** Clive D. Field, 2021-12-09 Counting Religion in Britain 1970 2020 the fourth volume in the author's chronological history of British secularization sheds significant new light on the nature scale and timing of religious change in Britain during the past half century with particular reference to quantitative sources Adopting a key performance indicators approach twenty one facets of personal religious belonging behaving and believing are examined offering a much wider range of lenses through which the health of religion can be viewed and appraised than most contemporary scholarship Summative analysis of these indicators by means of a secularization dashboard leads to a reaffirmation of the validity of secularization in its descriptive sense as the dominant narrative and direction of travel since 1970 while acknowledging that it is an incomplete process and without endorsing all aspects of the paradigmatic expression of secularization as a by product of modernization **Spiritual Formation for Pastors** Michael C.

Gemignani, 2002 *Spiritual Formation for Pastors* takes pastors on a journey. First author Michael Gemignani explores The Look of a Sound Spirituality and then he provides a map to help pastors navigate The Road to a Sound Spirituality. Along that road are the guideposts of classic spiritual disciplines such as contemplative prayer, meditation, and Bible study. And Gemignani urges pastors to find companions for the journey: spiritual directors who will assist them in striving for the higher levels of maturity essential to those who are called to Christian leadership. Book jacket

Unveiling the Energy of Verbal Beauty: An Mental Sojourn through **Spirituality Revisited**

In a world inundated with monitors and the cacophony of fast interaction, the profound energy and psychological resonance of verbal beauty usually diminish in to obscurity, eclipsed by the constant barrage of noise and distractions. Yet, set within the lyrical pages of **Spirituality Revisited**, a captivating function of fictional elegance that pulses with natural feelings, lies an unforgettable journey waiting to be embarked upon. Written with a virtuoso wordsmith, this enchanting opus manuals visitors on an emotional odyssey, delicately exposing the latent possible and profound affect stuck within the elaborate web of language. Within the heart-wrenching expanse of this evocative analysis, we shall embark upon an introspective exploration of the book is key subjects, dissect their fascinating writing model, and immerse ourselves in the indelible impact it leaves upon the depths of readers souls.
