United States Military Academy, 2015-11-03 Reader's Digest Endowed Book Fund **Spitfire Photo-Recce Units of World War 2** Andrew Fletcher, 2023-08-17 A fascinating exploration of the feats of the RAF's photographic reconnaissance aircraft. The photographic reconnaissance PR versions of the Supermarine Spitfire saw service against the Axis Tripartite throughout World War 2. Its superior performance even led to the USAAF adopting the type for the Eighth Air Force's reconnaissance needs in Europe. PR Spitfires were responsible for some of the most significant intelligence finds of the war from low level oblique photographs of new German radars in France to locating the battleship Bismarck off the Norwegian coast before it attempted to sortie into the Atlantic. It has been estimated that as much as 80 per cent of Allied intelligence was gathered from aerial photographs many of which were taken by cameras installed in PR Spitfires. In this volume RAF PR specialist Andrew Fletcher details the important part played by the small number of photo recce Spitfires in the key theatres of World War 2. His detailed text which includes numerous first hand accounts chronicles operations from the first months of the conflict through to VJ Day **Lion in the Sky** Jerry Scutts, 1987 **The Saturday Review of Politics, Literature, Science and Art**, 1909 **British Aircraft Carriers** David Hobbs, 2014-09-30 This book is a meticulously detailed history of British aircraft carrying ships from the earliest experimental vessels to the Queen Elizabeth class currently under construction and the largest ships ever built for the Royal Navy. Individual chapters cover the design and construction of each class with full technical details and there are extensive summaries of every ship's career. Apart from the obvious large deck carriers the book also includes seaplane carriers, escort carriers and MAC ships, the maintenance ships built on carrier hulls, unbuilt projects and the modern LPH. It concludes with a look at the future of naval aviation while numerous appendices summarise related subjects like naval aircraft recognition markings and the circumstances surrounding the loss of every British carrier. As befits such an important reference work it is heavily illustrated with a magnificent gallery of photos and plans including the first publication of original plans in full colour, one on a magnificent gatefold. Written by the leading historian of British carrier aviation himself, a retired Fleet Air Arm pilot, it displays the authority of a lifetime's research combined with a practical understanding of the issues surrounding the design and operation of aircraft carriers. As such **British Aircraft Carriers** is certain to become the standard work on the subject Saturday Review of Politics, Literature, Science and Art, 1909 **The Saturday Review of Politics, Literature, Science, Art, and Finance**, 1909 Boating, 1983-01
