## **Split Connection Split Connection:**

**Internet Congestion Control** Subir Varma, 2015-08-18 Internet Congestion Control provides a description of some of the most important topics in the area of congestion control in computer networks with special emphasis on the analytical modeling of congestion control algorithms. The field of congestion control has seen many notable advances in recent years and the purpose of this book, which is targeted towards the advanced and intermediate reader, is to inform about the most important developments in this area. The book should enable the reader to gain a good understanding of the application of congestion control theory to a number of application domains such as Data Center Networks, Video Streaming, High Speed Links, and Broadband Wireless Networks. When seen through the lens of analytical modeling, there are a number of common threads that run through the design and analysis of congestion control protocols in all these different areas, which are emphasized in this book. The book also cuts a path through the profusion of algorithms in the literature and puts the topic on a systematic and logical footing. Internet Congestion Control provides practicing network engineers and researchers with a comprehensive and accessible coverage of analytical models of congestion control algorithms and gives readers everything needed to understand the latest developments and research in this area. Examines and synthesizes the most important developments in internet congestion control from the last 20 years. Provides detailed description on the congestion control protocols used in four key areas: broadband wireless networks, high speed networks with large latencies, video transmission networks, and data center networks. Offers accessible coverage of advanced topics such as Optimization and Control Theory as applied to congestion control systems.

**The old woman and the moon** Wilna van der Walt, 2016-04-14 The Old Woman herself is the old moon; she is the ancient, the basic archetypal pattern of the personality and the origin of the book. In this well-prepared book, the reader may experience the reality of the psychic world in image 47. Full page, full color pictures delight one weaving the thread of deeper meaning to and fro across 25 years. Descriptions are multi-layered and instructive of the underlying creative and psychic processes. Additional information supports the reader in the form of appendixes, for example, Alchemy as an ancient process. Mythology is used to amplify the deeper meaning of some works. This is a book depicting the depth journey of individuation over a twenty-five year period of images depicting this process of transformation. It illustrates the remarkable capacity of the psyche to reveal in images the inner process of becoming a more integrated human being. This book offers a rare glimpse into how the human psyche of one individual who is willing to engage in a depth therapy process is capable of transforming. John Gosling, Jungian Analyst, Cape Town.
