**Sturm und Drang: Lenz, Wagner, Klinger, and Schiller** Alan Leidner, 1992-01-01      **Staging Blackness and Performing Whiteness in Eighteenth-Century German Drama** Wendy Sutherland, 2017-05-15

Focusing on eighteenth century cultural productions Wendy Sutherland examines how representations of race in philosophy anthropology aesthetics drama and court painting influenced the construction of a white bourgeois German self Sutherland positions her work within the framework of the transatlantic slave trade showing that slavery colonialism and the triangular trade between Europe West Africa and the Caribbean function as the global stage on which German bourgeois dramas by Friedrich Wilhelm Ziegler Ernst Lorenz Rathlef and Theodor Körner and a novella by Heinrich von Kleist on which Körner's play was based were performed against a backdrop of philosophical and anthropological influences Plays had an important role in educating the rising bourgeois class in morality Sutherland argues with fathers and daughters offered as exemplary moral figures in contrast to the depraved aristocracy At the same time black female protagonists in nontraditional dramas represent the boundaries of physical beauty and marriage eligibility while also complicating ideas of moral beauty embodied in the concept of the beautiful soul Her book offers convincing evidence that the eighteenth century German stage grappled with the representation of blackness during the Age of Goethe even though the German states were neither colonial powers nor direct participants in the slave trade

*German #MeToo* Elisabeth Krimmer, Patricia Anne Simpson, 2022 This volume responds to the MeToo movement whose worldwide resonance has illustrated not only the ubiquity of sexual abuse and sexual violence but also the failure to hold perpetrators accountable Representing a range of disciplines the collected essays engage current cultural and political discourses about systemic sexism feminist theory and practice and gender based discrimination from an academic and activist perspective The focus on national cultures of German speaking Europe from the mid eighteenth century to the present captures the persistence of normalized and institutionalized sexism reframed through the lens of a contemporary political and social movement With 16 essays from established and emerging scholars *German MeToo* argues that sexual violence is not a universal human constant Rather it is enabled and sustained by the social political cultural legal and economic fabric of specific societies The contributors sustain and vary their exploration of MeToo related issues through considerations of rape prostitution sexual murder the politics of consent and victim blaming as enacted in canonical and marginalized authors the visual arts the graphic novel film television and theater

*Critique as Critical History* Bregham Dalgliesh, 2017-08-22 This book presents the first sustained articulation of a Foucauldian *œuvre* It situates Foucault's critique within the tradition of Kant's call for a philosophical archaeology of reason in parallel it demonstrates the priority in Foucault's thought of Nietzsche over Heidegger and the framing of reason against an ontology of power Bregham Dalgliesh hereby claims that at the heart of the Foucauldian *œuvre* is the philosophical method of critical history Its task is to make the will to know that drives thought conscious of itself as a problem especially the regimes of truth that define our governmentalities By

revealing the contingency of their constituent parts of knowledge power and ethics Dalgliesh demonstrates that critical history offers an alternative mode of critique to the hitherto singular reading of the intellectual heritage of enlightenment while it fosters an agonistic concept of freedom in respect of our putatively necessary limits *Literature of the Sturm und Drang* David Hill, 2003 Carefully focused essays on major aspects of one of the most significant German literary movements the Storm and Stress Sturm und Drang refers to a set of values and a style of writing that arose in Germany in the second half of the eighteenth century a particularly intense kind of pre Romanticism that has often been represented as marking the beginning of an independent modern German culture The circle of writers around the young Goethe including Herder Lenz Klinger and later Schiller felt frustrated by the Enlightenment world of reason balance and control and turned instead to nature as the source of authentic experience Inspired by Rousseau and Herder by Shakespeare and by folk culture they rebelled against propriety and experimented with new literary forms their creative energy bursting through conventions that seemed staid and artificial The Sturm und Drang has often been cited by those attempting to legitimate nationalism and irrationalism but scholars have more recently emphasized the diversity of the movement and the links between it and the Enlightenment This volume of essays by leading scholars from the UK the US and Germany illuminates the guiding ideas of the movement discussing its most important authors texts and ideas and taking account of the variety and complexity of the movement placing it more securely within late eighteenth century European history The main focus is on literature and in particular on the drama which was of special importance to the Sturm und Drang However the essays also outline the social conditions that gave rise to the movement and consideration is given to different currents of ideas that underlie the movement including areas of thought and bodies of work that traditional approaches have tended to marginalize Contributors Bruce Duncan Howard Gaskill Wulf Koepke Susanne Kord Frank Lampert Alan Leidner Matthias Luserke Michael Patterson Gerhard Sauder Margaret Stoljar Daniel Wilson Karin Wurst David Hill is a Senior Lecturer in the Department of German Studies at the University of Birmingham UK

**Music, Sexuality and the Enlightenment in Mozart's Figaro, Don Giovanni and Così fan tutte** Charles Ford, 2016-04-29 Music Sexuality and the Enlightenment explains how Mozart's music for *Le nozze di Figaro* *Don Giovanni* and *Così fan tutte* sounds the intentions of Da Ponte's characters and their relationships with one another Mozart by way of the infinitely generative and beautiful logic of the sonata principle did not merely interpret Da Ponte's characterizations but lent them temporal musical forms Charles Ford's analytic interpretation of these musical forms concerns processes and structures in detail and at medium to long term levels He addresses the music of a wide range of arias and ensembles and develops original ways to interpret the two largely overlooked operatic genres of *secco recitative* and *finales* Moreover Ford presents a new method by which to relate musical details directly to philosophical concepts and thereby the music of the operas to the inwardly contradictory thinking of the European Enlightenment This involves close readings of late eighteenth century understandings of man and nature self and other morality and

transgression and gendered identities and sexuality with particular reference to contemporary writers especially Goethe Kant Laclos Rousseau Sade Schiller Sterne and Wollstonecraft The concluding discussion of the implied futures of the operas argues that their divided sexualities which are those of the Enlightenment as a whole have come to form our own unquestioned assumptions about gender differences and sexuality This along with the elegant and eloquent precision of Mozart's music is why Figaro Giovanni and Cos still maintain their vital immediacy for audiences today [Ottomiller's Index to Plays in Collections](#) Denise L.
