Style Temper Studies In French Fiction:

Style and Temper Wilbur Merrill Frohock, 1967 **The French Novel: Theory and Practice** Michael Butor, 2024-10-07 "*Ces Forces Obscures de L'âme*" Christine Margerrison, 2008 In the first decade of a new century this collection of bilingual essays examines Camus's continuing popularity for a new generation of readers. In crucial respects the world Camus knew has changed beyond all recognition: decolonization, the fall of the Iron Curtain, a new era of globalization and the rise of new forms of terrorism have all provoked a reconsideration of Camus's writings. If the Absurd once struck a particular chord, Meursault is as likely now to be seen as a colonial figure who expresses the alienation of the settler from the land of his birth. Yet this increasing orthodoxy must also take account of the reasons why a new community of Algerian readers have embraced Camus. Equally once isolated because of his anti-Communist stance, Camus has been taken up by disaffected members of the Left convinced that new forms of totalitarianism are abroad in the world. This volume, which ranges from interpretations of Camus's literary works to his journalism and his political writings, will be of interest to all those seeking to re-evaluate Camus's work in the light of ethical and political issues that are of continuing relevance today.

BOOK JACKET Encyclopedia of the Novel Paul Schellinger, 2014-04-08 The *Encyclopedia of the Novel* is the first reference book that focuses on the development of the novel throughout the world. Entries on individual writers assess the place of that writer within the development of the novel form, explaining why and in exactly what ways that writer is important. Similarly, an entry on an individual novel discusses the importance of that novel, not only from analyzing the particular innovations that novel has introduced and the ways in which it has influenced the subsequent course of the genre. A wide range of topics: entries explore the history, criticism, theory, production, dissemination, and reception of the novel. A very important component of the *Encyclopedia of the Novel* is its long surveys of development of the novel in various regions of the world.

Shaping the Novel Constantina Thalia Mitchell, Paul Raymond Côté, 1996-10-01 The dialogue between form and message is intrinsic to the novel as genre. Yet the strength of that discourse has been shaken in the twentieth century by an increasing doubt about affirmations of any kind and a growing awareness of the relativity of knowledge and perception. The novel reflects this intellectual current by turning its glance inward to meditate on the creative act as a form of self-contained assertion of its own particular significance. The three writers on whom this study focuses—all major twentieth-century authors—were chosen because they can be considered as important representatives of this novelistic self-consciousness. Building on André Malraux's vision of the colloquium as an open-ended verbal interchange, this study calls upon the voices of Anne Hébert and Patrick Modiano to enter into a dialogue on novelistic form.

A Critical Bibliography of French Literature V2 16th C , A Time of Transition in the French Novel Christopher Shorley, 2006 The years around 1930 are marked by turning points in most areas of French life, and the fiction of the time is a privileged means of understanding those changes. This book traces vital transitions in French politics, society, and culture; the focus then moves to the novel, a genre uniquely equipped to reflect
