Subnational Politics In The 1980s Organization Reorganization And Economic Development:

Subnational Politics in the 1980s Louis Picard, Raphael Zariski, 1987 This book brings together thirteen experts in subnational politics to examine the effects on local and regional governments of the pessimistic perception that governments are limited in their problem solving abilities Contributors discuss the issue of popular participation in the political decision making process which has led to the creation of community action groups and local and regional organizations that foster economic development They take a hard look at the nature of relationships with other levels of government and address the problems caused by a shrinking budget **The Political Economy of Special-Purpose Government** Kathryn A.

Foster, 1997-03-01 In recent decades local governments across America have increasingly turned specialized functions over to autonomous agencies ranging in scope from subdivision sized water districts to multi state transit authorities This book is the first comprehensive examination of the causes and consequences of special purpose governments in more than 300 metropolitan areas in the United States It presents new evidence on the economic political and social implications of relying on these special districts while offering important findings about their use and significance *Constitutional Engineering in Brazil* Celina Souza, 2016-07-27 The book investigates why a country facing issues that needed to be tackled nationwide chose to decentralize when it moved from authoritarianism to democracy It discusses the events of the Brazilian constituent assembly and investigates the results of decentralization at the subnational sphere The results suggest that there was a lack of social consensus on what was to be achieved by decentralization They suggest that political and economic factors influence the outcomes of decentralization thus exposing the limits of decentralization on policy results Globalization and the European Political Economy Steve Weber, Steven Weber, 2001 Exploring the impact of globalization on governance structures in the modern European political economy this volume evaluates a set of propositions about the effects of globalization in the context of several empirical settings including corporate governance and regional economic development
