Subsidies To Higher Education The Issues The Issues Praeger Studies In Grants Economics:

Subsidies to Higher Education Howard P. Tuckman, Edward Whalen, 1980 **Journal of Economic Literature**, 1999

Sociologic, Economic, and Policy Influences on College-going Decisions Gregory Jackson, 1981 **Higher Education**

Finance Research Mary P. McKeown-Moak, Christopher M. Mullin, 2014-02-01 There is a void in the literature on how to conduct research in the finance and economics of higher education Students professors and practitioners have no concise document that examines the field provides history definitions of terms sources of data and research methods Higher Education Finance Research Policy Politics and Practice fills that void The book is structured in four parts The first section provides a brief history and description of the general organization of American higher education the sources and uses of funds over the last 100 years and who is served in what types of institutions Definitions of terms that are unique to higher education are provided and some basic rules for conducting research on the economics and finance of higher education are established Although in some ways conducting research in higher education funding is similar to that for elementary secondary education there are some important distinctions that also are provided The second section introduces guiding philosophies sources of data data elements vocabulary metrics and analytics related to institutional revenues and expenditures Chapters in this section focus on student oriented revenues institutionally oriented revenues and funding formulas The third section introduces accountability related concepts by first examining the accountability movement in higher education and performance based approaches applied in budgeting and funding then looking at methods to determine public and private returns on investment in postsecondary education and closing with an examination of finance from the perspective of the primary consumer students The fourth and last section of the book focuses on presenting postsecondary finance research to policy audiences to assist in connecting academic research and policy making Chapters focus on accounting for time considerations in analysis the placing of data in context to make the data and findings relevant and ways to effectively communicate findings to various policy making audiences **The Encyclopedia of Higher Education:**

Analytical perspectives Burton R. Clark, 1992 V 1 National systems of higher education v 2 3 Analytical perspectives v 4 Academic disciplines and indexes **Congressional Record** United States. Congress, 1990 The Congressional Record is the official record of the proceedings and debates of the United States Congress It is published daily when Congress is in session The Congressional Record began publication in 1873 Debates for sessions prior to 1873 are recorded in The Debates and Proceedings in the Congress of the United States 1789 1824 the Register of Debates in Congress 1824 1837 and the Congressional Globe 1833 1873 **Higher Education in the Global Age** Daniel Araya, Peter Marber, 2013-11-20 Discussions on globalization now routinely focus on the economic impact of developing countries in Asia Africa the Middle East the former Soviet Union and Latin America Only twenty five years ago many developing countries were largely closed societies Today the growing power of emerging markets is reordering the geopolitical landscape On a purchasing power

parity basis emerging economies now constitute half of the world's economic activity Financial markets too are seeing growing integration Asia now accounts for 1/3 of world stock markets more than double that of just 15 years ago Given current trajectories most economists predict that China and India alone will account for half of global output by 2050 almost a complete return to their positions prior to the Industrial Revolution How is higher education shaping and being shaped by these massive tectonic shifts As education rises as a geopolitical priority it has converged with discussions on economic policy and a global labor market As part of the Routledge Studies in Emerging Societies series this edited collection focuses on the globalization of higher education particularly the increasing symbiosis between advanced and developing countries Bringing together senior scholars journalists and practitioners from around the world this collection explores the relatively new and changing higher education landscape
