Alexander Pope in The Reign of Queen Anne A. D. Cousins, Daniel Derrin, 2020-11-29 This is the first collection of essays since George Sherburn's landmark monograph *The Early Career of Alexander Pope* 1934 to reconsider how the most important and influential poet of eighteenth century Britain fashioned his early career The volume covers Pope's writings from across the reign of Queen Anne and just beyond It focuses in particular on his interaction with the courtly culture constellated round the Queen It examines for instance his representations of Queen Anne herself his portrayals of politics and patronage under her reign his negotiations with current literary theory with the classical tradition with chronologically distant yet also contemporaneous English poets with current thought on the passions and with membership of a religious minority In doing so it comprehensively reconsiders anew the ways in which Pope increasingly supportive of Anne's rule and mindful of the Virgilian rota sought at first to realise his authorial aspirations

Satire, Comedy and Tragedy Richard C. Raymond, 2023-10-10 The first four chapters of the book provide a close reading of the satiric comic and tragic action of Laurence Sterne's novel in the context of criticism from the twentieth and twenty first centuries Chapter 5 provides a summary of Chapters 1-4 focusing on Sterne's purpose in revising satiric plot structures and in blurring the lines between fiction and autobiography Chapters 6-8 then examine Sterne's themes from *Tristram Shandy* that inform his letters sermons and other fiction Chapter 9 discusses the international reception of *Tristram Shandy* and argues for using writing to learn strategies to teach Sterne's greatest novel to undergraduate and graduate students

Romanticism, Self-Canonization, and the Business of Poetry Michael Gamer, 2017-02-17 This is the first book to examine how Romantic writers transformed poetic collections to reach new audiences In a series of case studies Michael Gamer shows Romantic poets to be fundamentally social authors working closely with booksellers intimately involved in literary production and resolutely concerned with current readers even as they presented themselves as disinterested artists writing for posterity Exploding the myth of Romantic poets as naive unworldly or unconcerned with the practical aspects of literary production this study shows them instead to be engaged with intellectual property profit and loss and the power of reprinting to reshape literary reputation Gamer offers a fresh perspective on how we think about poetic revision placing it between aesthetic and economic registers and foregrounding the centrality of poetic collections rather than individual poems to the construction of literary careers

Representation, Heterodoxy, and Aesthetics Ashley Marshall, 2014-12-23 The chapters constituting this book are different in subject and method striking testimony to the range of Paulson's interests and the versatility of his critical powers In his prolific career he has produced extensive analysis of art poetry fiction and aesthetics produced in England between 1650 and 1830 Paulson's unique contribution has to do with his understanding of seeing and reading as closely related

enterprises and popular forms in art and literature as intimately connected connections illustrated by literary critics and art historians here Every essay shares some of the concerns and methods that characterize Paulson s wonderfully idiosyncratic thought except for the final essay an attempt systematically to analyze Paulson s critical principles and methods Recurrent themes are a concern with satire in the eighteenth century a connection between verbal and visual reading an insistence on the importance of individual artistic choices to the history of culture an attention to the aims and motives of individual makers of art and a sensitivity to the crucial links between high and low art This volume offers rich explorations of a range of subjects Swift s relationship to Congreve Zoffany s condemnation of Gillray and Hogarth and broader implications for the role of art in public discourse the presentation of mourning in the work of the Welsh artist and writer Edward Pugh G M Woodward s Coffee House Characters representing a turn from satire on morals towards satire on manners Adam Smith s evolving aesthetic program Samuel Richardson s notions of social reading The discussions represent a variety of exemplifications of the Paulsonesque showing a concern with satiric representation in mixed media with different forms of heterodoxy and iconoclasm and with the values of producers of popular and polite culture in this period

Romance and Revolution David Duff,1994-09 Relates the revival of literary romance to the French Revolution s imaginative impact on English Romanticism *The Cambridge History of English Literature, 1660-1780* John Richetti,2005-01-06 The Cambridge History of English Literature 1660 1780 offers readers discussions of the entire range of literary expression from the Restoration to the end of the eighteenth century In essays by thirty distinguished scholars recent historical perspectives and new critical approaches and methods are brought to bear on the classic authors and texts of the period Forgotten or neglected authors and themes as well as new and emerging genres within the expanding marketplace for printed matter during the eighteenth century receive special attention and emphasis The volume s guiding purpose is to examine the social and historical circumstances within which literary production and imaginative writing take place in the period and to evaluate the enduring verbal complexity and cultural insights they articulate so powerfully [Alexander Pope in the Making](#) Joseph Hone,2021 Explores Alexander Pope s early career as a literary author and provides a transformative account of the eighteenth century poet

Unveiling the Magic of Words: A Report on "**Subtler Language Critical Readings Of Neoclassic And Romantic Poems**"
