Suburban America 1930-1970:

Houston on the Move Steven R. Strom, 2016-10-25 Houston completely transformed itself during the twentieth century burgeoning from a regional hub into a world class international powerhouse This remarkable metamorphosis is captured in the Bob Bailey Studios Photographic Archive an unparalleled visual record of Houston life from the 1930s to the early 1990s Founded by the commercial photographer Bob Bailey in 1929 the Bailey Studios produced more than 500 000 photographs and fifty two 16 mm films making its archive the largest and most comprehensive collection of images ever taken in and around Houston The Bob Bailey Studios Archive is now owned by the Dolph Briscoe Center for American History at the University of Texas at Austin Houston on the Move presents over two hundred of the Bailey archive s most memorable and important photographs with extended captions that detail the photos subjects and the reasons for their significance These images most never before published document everything from key events in Houston s modern history World War II the Texas City Disaster the building of the Astrodome and the development of the Ship Channel Medical Center and Johnson Space Center to nostalgic scenes of daily life Bob Bailey s expertly composed photographs reveal a great city in the making a downtown striving to be the best biggest and tallest birthday parties snow days celebrations and rodeos opulent department stores Hollywood stars and political leaders rapid industrial and commercial growth and the inexorable march of the suburbs An irresistible reminder that for long time Houstonians Houston on the Move will also be an essential reference for historians photographers designers and city planners Political Process and the Development of Black Insurgency, 1930-1970 Doug McAdam, 1982 In this classic work of sociology Doug McAdam presents a political process model that explains the rise and decline of the black protest movement in the United States Moving from theoretical concerns to empirical analysis he focuses on the crucial role of three institutions that foster protest black churches black colleges and Southern chapters of the NAACP He concludes that political opportunities a heightened sense of political efficacy and the development of these three institutions played a central role in shaping the civil rights movement In his new introduction McAdam revisits the civil rights struggle in light of recent scholarship on social movement origins and collective action A first rate analytical demonstration that the civil rights movement was the culmination of a long process of building institutions in the black community Raymond Wolters Journal of American History A fresh rich and dynamic model to explain the rise and decline of the black insurgency movement in the United States James W Lamare Annals of the American Academy of Political and Social Science **Towards a Comparative Economic History of Cinema, 1930-1970** John Sedgwick, 2022-09-09 This book examines the economic circumstances in which films were produced distributed exhibited and consumed during the spoken era of film production until 1970 The periodisation covers the years between the onset of sound and the demise of the phased distribution of films Films are generally appreciated for their aesthetic qualities But they are also commodities This work of economic history presents a new approach considering consumption behaviour as significant as supply side

decision making Audiences tastes are considered central with box office an indicator of what they liked The POPSTAT Index of Film Popularity is used as a proxy where box office knowledge is missing Comparative analysis is conducted through the tool RelPOP The book comprises original case studies covering film consumption in Great Britain the Netherlands Sweden and the United States during the 1930s Australia and occupied Belgium during the Second World War and Italy the United States Poland and Czechoslovakia during the Post war An overriding theme is how the classical American business model which emerged during the 1910s linking production to distribution and exhibition adapted to local circumstances including the two countries behind the Iron Curtain during the years of High Stalinism

Exercise in the Female Life-Cycle in Britain, 1930-1970 Eilidh Macrae, 2016-07-09 This book examines how adolescence menstruation and pregnancy were experienced or managed by active women in Britain between 1930 and 1970 and how their athletic life styles interacted with their working lives marriage and motherhood It explores the gendered barriers which have influenced women s sporting experiences Women s lives have always been shaped by the socially and physically constructed life cycle and this is all the more apparent when we look at female exercise Even self proclaimed sporty women have had to negotiate obstacles at various stages of their lives to try and maintain their athletic identity So how did women overcome these obstacles to gain access to exercise in a time when the sportswoman was not an image society was wholly comfortable with Oral history testimony and extensive archival research show how the physically and socially constructed female life cycle shaped women s experiences of exercise and sport throughout these decades

Surrogate Suburbs Todd M. Michney, 2017-02-08 The story of white flight and the neglect of Black urban neighborhoods has been well told by urban historians in recent decades Yet much of this scholarship has downplayed Black agency and tended to portray African Americans as victims of structural forces beyond their control In this history of Cleveland s Black middle class Todd Michney uncovers the creative ways that members of this nascent community established footholds in areas outside the overcrowded inner city neighborhoods to which most African Americans were consigned In asserting their right to these outer city spaces African Americans appealed to city officials allied with politically progressive whites notably Jewish activists and relied upon both Black and white developers and real estate agents to expand these surrogate suburbs and maintain their livability until the bona fide suburbs became more accessible By tracking the trajectories of those who in spite of racism were able to succeed Michney offers a valuable counterweight to histories that have focused on racial conflict and Black poverty and tells the neglected story of the Black middle class in America s cities prior to the 1960s

The Americans Gerald A. Danzer, 2003

Diaspora in the Countryside Royden Loewen, 2006-01-01 From the 1930s to the 1980s the North American countryside faced a profound cultural transformation in which a once unified rural society became fragmented and dispersed Families wishing to remain on the farm were required to accept new levels of

automation while others unwilling or unable to make the change migrated to nearby towns or regional cities The cultural reformulation that resulted saw the emergence of a genuine rural diaspora The growing cultural and physical separation was especially true for close knit ethno religious communities Mennonites in particular Forced into regional cities the kaleidoscopic urban culture further fragmented the Mennonites into disparate social entities In *Diaspora in the Countryside* the phenomena of rural fragmentation is examined by comparing and contrasting two closely related but distinctive Dutch Russian Mennonite communities located in different parts of the continent Kansas and Manitoba respectively By systematically comparing these communities two distinctive responses to the mid twentieth century Great Disjuncture are made apparent Royden Loewen also contrasts the cultural changes of these farm families to the cultures their kin adopted in nearby towns and cities Loewen charts not only the dispersion of two rural communities but follows their former residents as they reformulate their lives in new settings
