Subversive Southerner Catherine Fosl, 2006-08-01 With a Foreword by Angela Y Davis Winner of the 2003 Oral History Association Book Award Winner of the 2003 Gustavus Myers Center for Human Rights Outstanding Book Award Anne McCarty Braden 1924 2006 was a courageous southern white woman who in the late 1940s rejected her segregationist and privileged past to become a lifelong crusader against racial discrimination Arousing the conscience of white southerners to the reality of racial injustice Braden was branded a communist and seditionist by southern politicians who used McCarthyism to buttress legal and institutional segregation as it came under fire in deferral courts She became nevertheless one of the civil rights movement's staunchest white allies and one of five southern whites commended by Rev Martin Luther King Jr in his 1963 Letter from Birmingham Jail Although Braden remained a controversial figure even in the movement her commitment superseded her radical reputation and she became a mentor and advisor to students who launched the 1960s sit ins and to successive generations of peace and justice activists In this riveting oral history based biography Catherine Fosl also offers a social history of how racism sexism and anticommunism overlapped in the twentieth century south and how ripples from the Cold War divided and limited the southern civil rights movement **Unlikely Dissenters** Anne

Fight Jessica Wilkerson, 2018-12-30 Launched in 1964 the War on Poverty quickly took aim at the coalfields of southern Appalachia There the federal government found unexpected allies among working class white women devoted to a local tradition of citizen caregiving and seasoned by decades of activism and community service Jessica Wilkerson tells their stories within the larger drama of efforts to enact change in the 1960s and 1970s She shows white Appalachian women acting as leaders and soldiers in a grassroots war on poverty shaping and sustaining programs engaging in ideological debates offering fresh visions of democratic participation and facing personal political struggles Their insistence that caregiving was valuable labor clashed with entrenched attitudes and rising criticisms of welfare Their persistence meanwhile brought them into unlikely coalitions with black women disabled miners and others to fight for causes that ranged from poor people's rights to community health to unionization Inspiring yet sobering To Live Here You Have to Fight reveals Appalachian women as the indomitable caregivers of a region and overlooked actors in the movements that defined their time Divided We Fail Sarah Garland, 2013-01-29 Examines why school desegregation despite its success in closing the achievement gap was never embraced wholeheartedly in the black community as a remedy for racial inequality In 2007 a court case originally filed in Louisville Kentucky was argued before the Supreme Court and officially ended the era of school

desegregation both changing how schools across America handle race and undermining the most important civil rights cases of the last century Of course this wasn't the first federal lawsuit to challenge school desegregation But it was the first and only one brought by African Americans In *Divided We Fail* journalist Sarah Garland deftly and sensitively tells the stories of the families and individuals who fought for and against desegregation By reframing how we commonly understand race education and the history of desegregation this timely and deeply relevant book will be an important contribution to the continued struggle toward true racial equality *Civil Rights in the Gateway to the South* Tracy E. K'Meyer, 2009-05-22 A noted civil rights historian examines Louisville as a cultural border city where the black freedom struggle combined northern and southern tactics Situated on the banks of the Ohio River Louisville Kentucky represents a cultural and geographical intersection of North and South This border identity has shaped the city's race relations throughout its history Louisville's black citizens did not face entrenched restrictions against voting and civic engagement yet the city still bore the marks of Jim Crow segregation in public accommodations In response to Louisville's unique blend of racial problems activists employed northern models of voter mobilization and lobbying as well as methods of civil disobedience usually seen in the South They also crossed traditional barriers between the movements for racial and economic justice to unite in common action In *Civil Rights in the Gateway to the South* Tracy E. K Meyer provides a groundbreaking analysis of Louisville's uniquely hybrid approach to the civil rights movement Defining a border as a space where historical patterns and social concerns overlap K Meyer argues that broad coalitions of Louisvillians waged long term interconnected battles for social justice The definitive book on the city's civil rights history Louisville Courier Journal *Anne Braden Speaks* Anne Braden, 2022-08-02 Letter to Rev Dr Martin Luther King Jr 1960 The Southern Freedom Movement in perspective 1965 The SNCC trends challenge to white America 1966 Black power and white organizing 1966 Remembering Martin Luther King Jr 1968 Statement from a group of socialist women 1971 Communist Party elector speaks out 1972 A letter to white Southern women 1972 Salute to Cuba 1975 Capitalism and freedom 1976 Sermon in Nashville 1977 The struggle against racism in the 1980s 1980 Education for building a people's movement 1981 The witch hunting committees never again 1982 Expanding the notion of peace 1983 Ella Baker Memorial speech 1986 Years of racism in U S Foreign policy 1992 Honoring Kwame Ture 1996 Finding the other America 2006 Maintaining Segregation LeeAnn G. Reynolds, 2017-05-08 Based on the author's thesis Ph D Vanderbilt University 2007 Encyclopedia of African American History, 1896 to the Present Paul Finkelman, 2009 Alphabetically arranged entries from A to C that explores significant events major persons organizations and political and social movements in African American history from 1896 to the twenty first century *Behold the Land* James Smethurst, 2021-04-27 In the mid 1960s African American artists and intellectuals formed the Black Arts movement in tandem with the Black Power movement with creative luminaries like Amiri Baraka Gwendolyn Brooks Toni Cade Bambara and Gil Scott Heron among their number In this follow up to his award winning history of the movement nationally James Smethurst investigates the

origins development maturation and decline of the vital but under studied Black Arts movement in the South from the 1960s until the early 1980s Traveling across the South he chronicles the movement s radical roots its ties to interracial civil rights organizations on the Gulf Coast and how it thrived on college campuses and in southern cities He traces the movement s growing political power as well as its disruptive use of literature and performance to advance Black civil rights Though recognition of its influence has waned the Black Arts movement s legacy in the South endures through many of its initiatives and constituencies Ultimately Smethurst argues that the movement s southern strain was perhaps the most consequential successfully reaching the grassroots and leaving a tangible local legacy unmatched anywhere else in the United States

Don't Call Us Girls Barbara Leonora Tischler, 2024-11-30 In a collective voice calling for peace tracing back to pre World War II Don t Call Us Girls follows the protests of women and their allies from the White House to the Arc de Triomphe heralding their impact on today s world Don t Call Us Girls examines the importance of women s participation in the Civil Rights Movement in the United States and the international anti war movement This collective voice for peace and an end to nuclear proliferation reached back to before the Second World War and then firmly embedded itself during the war years when women assumed such important roles in the workplace that Franklin D Roosevelt called them the Arsenal of Democracy When the men returned from war women were encouraged by forces as powerful as government agencies and eminent psychiatrists to return to their place at home And return home they did only to realize that they could use the skills they practiced as housewives to begin organizing themselves into groups that would start a wave of protest action that swept through the late 1950s gathering up the Civil Rights Movement as it hurtled ever forward through the next two decades In the 1960s and 1970s no institution or convention was sacred many aspects of women s lives were fair game for criticism protest and change In this no holds barred era women debated everything from international nuclear policies pay equity and child care for women to reproductive rights and sexual politics They protested in the streets outside the White House in Trafalgar Square at the Arc de Triomphe on university campuses and just about anywhere else they would be heard They were tired of the role society had cast for them and they would not rest until they saw the substantial change that seemed promising with the emergence of Second Wave Feminism in the 1970s While we still live in a patriarchal society we have these women to thank for many of the freedoms we now enjoy If they have taught us anything it is never to stop pushing back against the patriarchy and to rest only when we are truly equal The final chapter of Don t Call Us Girls reminds us that there is still a lot of work to do
