Historical Writing in Britain, 1688-1830 B. Dew, F. Price, 2014-10-21 Historical Writing in Britain 1688 1830 explores a series of debates concerning the nature and value of the past in the long eighteenth century The essays investigate a diverse range of subjects including art history biography historical poetry and novels as well as addressing more conventional varieties of historical writing

Four Nations Approaches to Modern 'British' History Naomi Lloyd-Jones, Margaret Scull, 2017-10-26 This collection brings together leading and emerging scholars to evaluate the viability of four nations approaches to the history of the United Kingdom from the eighteenth to the twentieth century It recognises the separate histories of England Ireland Scotland and Wales and explores the extent to which they share a common British history They are entwined with the points at which they interweave and detach dependent upon the nature of our inquiry where we locate our core and our periphery and the cause and effect of our subject The collection demonstrates that four nations frameworks are relevant to a variety of topics and tests the limits of the methodology The chapters illuminate the changing shape of modern British history writing and provide fresh perspectives on subjects ranging from state governance nationalism and Unionism economics cultural identities and social networking

The Shaping of French National Identity Matthew D'Auria, 2020-12-03 The Shaping of French National Identity casts new light on the intellectual origins of the dominant and official French nineteenth century national narrative Focussing on the historical debates taking place throughout the eighteenth century and during the Restoration Matthew D'Auria evokes a time when the nation's origins were being questioned and discussed and when they acquired the meaning later enshrined in the official rhetoric of the Third Republic He examines how French writers and scholars reshaped the myths symbols and memories of pre modern communities Engaging with the myth of our ancestors the Gauls and its ideological triumph over the competing myth of our ancestors the Franks this study explores the ways in which the struggle developed and the values that the two discourses enshrined the collective actors they portrayed and the memories they evoked D'Auria draws attention to the continuity between ethnic discourses and national narratives and to the competition between various groups in their claims to represent the nation and to define their past as the true history of France

Scottish Town in the Age of the Enlightenment 1740-1820 Bob Harris, 2014-08-04 This heavily illustrated and innovative study is founded upon personal documents town council minutes legal cases inventories travellers tales plans and drawings relating to some 30 Scots burghs of the Georgian period It establishes a distinctive and much needed history for the development of Georgian Scots burghs

Famous Battles and How They Shaped the Modern World, 1588-1943

Beatrice Heuser, Athena S. Leoussi, 2018-11-30 Why are some battles remembered more than others Surprisingly it is not just size that matters nor the number of dead the decisiveness of battles or their effects on communities and civilisations It is their political afterlife the multiple meanings and political uses attributed to them that determines their fame This ground breaking series goes well beyond military history by exploring the transformation of battles into sites of memory and meaning Cast into epic myths of the fight of Good against Evil of punishment for decadence or reward for virtue of the birth of a nation or the collective assertion against a tyrant the defense of Civilisation against the Barbarians Christendom against the Infidel particular battles have acquired fame beyond their immediate contemporaneous relevance The great battles of modern history examined in this second volume range from the defeat of the Armada and the relief of Vienna to Chatham Culloden Waterloo Gettysburg the Somme and Stalingrad In each chapter the historical events surrounding a battle form the backdrop for multiple later interpretations which consciously or unconsciously carry political agendas some for further bloodshed and sacrifice but others for the more recent and laudable phenomenon of reconciliation over the graves of the dead

The Historical Novel in Nineteenth-Century Europe Brian Hamnett, 2011-11-24 Even at the height of its popularity in the early nineteenth century the historical novel faced criticism at many levels After its predominance in the 1810s and 1820s writers and historians shunned it as a travesty of their respective disciplines Even so the historical novel has frequently attracted a wide ranging public right up to the present day Brian Hamnett examines key novels by authors including Scott Balzac Manzoni Dickens Eliot Flaubert Fontane Gald s and Tolstoy revealing the contradictions inherent in this form of fiction and exposing the challenges writers faced in attempting to represent a reality that linked past and present He argues that the historical novel in the nineteenth century was a common European phenomenon with considerable interconnection of themes and periods Accordingly the book ranges from the British Isles and France through the Germanic territories Italy and Spain to the Russian Empire identifying the different objectives and phases of the historical novel Although historical novels did appear in the two previous centuries the form came to maturity in the nineteenth century a consequence of the developing nature of history as a discipline distinct from literature and philosophy and the increasing primacy of the novel for writers and the reading public Yet the frontiers between history and literature remained blurred and the two disciplines continued to influence one another as each sought a faithful representation of human experience

Enlightenment's Frontier Fredrik Albritton Jonsson, 2013-06-18 DIVE Enlightenment s Frontier is the first book to investigate the environmental roots of the Scottish Enlightenment What was the place of the natural world in Adam Smith s

famous defense of free trade Fredrik Albritton Jonsson recovers the forgotten networks of improvers and natural historians that sought to transform the soil plants and climate of Scotland in the eighteenth century The Highlands offered a vast outdoor laboratory for rival liberal and conservative views of nature and society But when the improvement schemes foundered toward the end of the century northern Scotland instead became a crucible for anxieties about overpopulation resource exhaustion and the physical limits to economic growth In this way the rise and fall of the Enlightenment in the Highlands sheds new light on the origins of environmentalism div
