Success Of Hispanic Magazine A Publishing Success Story:

The Success of Hispanic Magazine John A. García,1996 Describes the people and processes involved in the production of Hispanic a popular magazine which focuses primarily on positive news related to all aspects of Hispanic American culture

Making Hispanics G. Cristina Mora,2024-05-31 How did Puerto Ricans Mexicans and Cubans become known as Hispanics and Latinos in the United States How did several distinct cultures and nationalities become portrayed as one Cristina Mora answers both these questions and details the scope of this phenomenon in *Making Hispanics* She uses an organizational lens and traces how activists bureaucrats and media executives in the 1970s and 80s created a new identity category and by doing so permanently changed the racial and political landscape of the nation Some argue that these cultures are fundamentally similar and that the Spanish language is a natural basis for a unified Hispanic identity But Mora shows very clearly that the idea of ethnic grouping was historically constructed and institutionalized in the United States During the 1960 census reports classified Latin American immigrants as white grouping them with European Americans Not only was this decision controversial but also Latino activists claimed that this classification hindered their ability to portray their constituents as underrepresented minorities Therefore they called for a separate classification Hispanic Once these populations could be quantified businesses saw opportunities and the media responded Spanish language television began to expand its reach to serve the now large and newly unified Hispanic community with news and entertainment programming Through archival research oral histories and interviews Mora reveals the broad national level process that led to the emergence of Hispanicity in America **American Book Publishing Record** ,1995 *Hispanic Heritage* Tonya
