Successful Career Women Their Professional And Personal Characteristics:

Successful Career Women Cecilia Ann Northcutt, 1991-03-25 The dramatic increase in women's participation in the labor force has prompted considerable interest among researchers particularly those who are interested in women careers and career development However when considering career success for women the majority of past comparison research has used a male model for characteristics of success Cecilia Northcutt's study attempts to identify the personal characteristics that successful career women have in common across career fields and to formulate a more appropriate female model To identify general and specific characteristics of successful career women the author considers the following What characteristics do successful career women have in common regardless of their career field What factors might affect women's achievement motivation and self esteem What other factors might affect the self esteem and achievement motivation of successful career women and what factors do they share Do successful career women see themselves as successful and how do they define success Using data based on a questionnaire that gathered information on self esteem achievement motivation self descriptive words ethnicity age income level and occupation Northcutt offers some provocative suggestions about the personal and professional characteristics of successful career women Her work will interest sociologists and psychologists and will offer guidance to women who are entering the workforce as well as to women who are already there

Women Entrepreneurship and Social Capital Iiris Aaltio-Marjosola, Paula Kyrö, Elisabeth Sundin, 2008 Human resources are the social capital of a firm or business based on trust as well as on expertise values and cultural diversity This calls for cross cultural knowledge an understanding of gender issues and individual differences in the social capital of the firm and society The dialogue between women entrepreneurship and social capital theory research strengthens the fragmented voice of women entrepreneurship providing the landscape for women entrepreneurs as creators of and created by social capital It indicates how women entrepreneurs appear to have a special position in forming developing and reorganizing the social capital in the business world This book explores social capital in the multiple relationships between gender management and entrepreneurship Twenty six researchers representing a variety of disciplines from different parts of the world provide findings on diverse aspects of the dialogue between women entrepreneurship and social capital As a consequence the central concepts social capital entrepreneurship and gender are given a variety of meanings Women entrepreneurs and business owners regardless of their cultural context branch and education provide interesting ideas to the global debate on equality and social capital
