explore the ways in which law incentivizes particular types of activity as they develop themes related to emergent theories of entrepreneurship public private and social lawyering and the creative process creativity in a business and social context and creativity and the construction of legal rights *Creativity and Crime* David H. shaped these three writers creative process highlighting the impact of the law on their work The second theme uses these same three writers to focus on the changing role of imagination in literature From Balzac through Stevens to Hellman and beyond the author traces imagination s arc from a positive artistic quality to something that is sometimes more controversial perhaps deceitful and negative In the last few decades ever since Hellman s memoirs were attacked as untrue journalists memoirists and other writers have palmed off works of fiction as non fiction often causing literary scandals This book offers a new theory why this phenomenon is happening and how it should be regarded
