Suchbild Ueber Meinen Vater:

Memory Traces Silke Arnold-de Simine, 2005 This essay collection examines the dynamics of memory organization and the way it varies among different media and modes of discourse in post unification Germany German unification has put the post war period into a historical perspective Such a rupture raises questions concerning the appropriate commemoration preservation and reinterpretation of the past The processes of reorientation after unification influenced the self perception of literary authors as well as the social role position and status of German literature They also affected the way writers viewed the competition in which they found themselves pitted against visual and electronic media as rival windows on the past In the context of several debates on German literature during the 1990s the discussion revolved not only around the adequate aesthetic representation of the historical and cultural heritage but even more so around the role of literature itself in that process The contributions look at different discourses that were and still are concerned with reinterpreting and creating new collective symbols and narrative patterns in relation to Germany's past The volume focuses on the effects of the characteristic discourses of the press literature and its different genres film the internet and memorials on the depiction and performance of memories

Mit Den Augen Eines Kindes, 1998 Die vorliegenden siebzehn Beiträge basieren weitgehend auf den Vorträgen der im Oktober 1996 an der University of Nevada in Reno veranstaltenden Konferenz Children in the Holocaust Children in Exile Children under Fascism Die Tagung beschäftigte sich erstmals mit den einschneidenden oft nicht wieder auszulöschenden traumatischen Erfahrungen von Kindern im nationalsozialistischen Deutschland im Exil und im Holocaust Mit dem Jahr 2000 also in weniger als zwei Jahren geht der Holocaust den auch Daniel J Goldhagen als das schockierendsten Ereignis des zwanzigsten Jahrhunderts bezeichnet das innerhalb der deutschen Geschichte am schwierigsten zu verstehen sei zu den Ereignissen des sogenannten Letzten Jahrhunderts Ist es darum nicht geboten die Auseinandersetzung mit diesen Ereignissen die für viele Menschen selbst heute noch mit schweren Wunden verbunden sind unter neuen Gesichtspunkten zur Diskussion zu bringen damit die Thematik auch über die Schwelle zum nächsten Jahrhundert hinweg in unseren Sichtweite nichts an ihrer Ungeheuerlichkeit einbüßt

Vater-Spuren-Suche Dominika Borowicz, 2013 Seit dem Ende des Zweiten Weltkriegs hat sich die Erinnerungsliteratur zu einer beliebten Gattungsform entwickelt Dazu gehören auch die sogenannten Vaterbücher autobiographische Texte in denen die Verstrickung der Väter in der NS Zeit und im Zweiten Weltkrieg aus der Perspektive der Söhne und Töchter ergründet wird Dieses Buch bietet eine umfassende Zusammenstellung und systematische Analyse von deutschsprachigen Vaterbüchern die seit den 70er Jahren erschienen sind Auf einer breiten Textbasis wird ein Überblick über diverse Formen der Auseinandersetzung mit der Eltern generation und die einzelnen Stationen der deutschen Vergangenheitsaufarbeitung geboten Die Vaterliteratur wird im medialen und erinnerungspolitischen Zusammenhang untersucht Spuren öffentlich politischer Diskurse sowie Kontinuitäten und Brüche in ihrer Entwicklung werden präsentiert Abgerundet wird der Band durch acht Interviews mit namhaften Autoren darunter Ruth

Rehmann und Martin Pollack **The German Student Movement and the Literary Imagination** Susanne Rinner, 2013-02-01 Through a close reading of novels by Ulrike Kolb Irmtraud Morgner Emine Sevgi Zdamar Bernhard Schlink Peter Schneider and Uwe Timm this book traces the cultural memory of the 1960s student movement in German fiction revealing layers of remembering and forgetting that go beyond conventional boundaries of time and space These novels engage this contestation by constructing a palimpsest of memories that reshape readers understanding of the 1960s with respect to the end of the Cold War the legacy of the Third Reich and the Holocaust Topographically these novels refute assertions that East Germans were isolated from the political upheaval that took place in the late 1960s and 1970s Through their aesthetic appropriations and subversions these multicultural contributions challenge conventional understandings of German identity and at the same time lay down claims of belonging within a German society that is more openly diverse than ever before *Journeys of Remembrance* Kathryn Jones, 2017-12-02 The Second World War was a common experience of cultural and historical rupture for many European countries but studies of this period and its after images often remain locked in national frameworks Jones comparative study of national memory cultures argues for a more nuanced view of responses to shared issues of remembrance Focusing on the 1960s and 1970s two decades of great change and debate in French and German discourses of memory it investigates literary representations of the Second World War and in particular the Holocaust from France and both Germanies The study encompasses thirteen works representing a variety of genres and divergent perspectives and authors include Jorge Semprun Peter Weiss Georges Perec and Bernhard Vesper Addressing the underlying theme of travel as a means of exploring the past it contrasts the journeys made by deportees and post war visitors to the camps with the use of the journey as a literary device *Historical Dictionary of Postwar German Literature* William Grange, 2009-07-09 Some authors strongly criticized attempts to rebuild a German literary culture in the aftermath of World War II while others actively committed themselves to dealing with the German past There are writers in Austria and Switzerland that find other contradictions of contemporary life troubling while some find them funny or even worth celebrating German postwar literature has in the minds of some observers developed a kind of split personality In view of the traumatic monstrosities of the previous century that development may seem logical to some The Historical Dictionary of Postwar German Literature is devoted to modern literature produced in the German language whether from Germany Austria Switzerland or writers using German in other countries This volume covers an extensive period of time beginning in 1945 at what was called zero hour for German literature and proceeds into the 21st century concluding in 2008 This is done through a list of acronyms and abbreviations a chronology an introductory essay a bibliography and hundreds of cross referenced dictionary entries on writers such as Nobel Prize winners Heinrich Böll Günter Grass Elias Canetti Elfriede Jelinek and W G Sebald There are also entries on individual works genres movements literary styles and forms **Writers and Politics in Germany, 1945-2008** K. Stuart Parkes, 2009 A comprehensive survey of German literary writers political writing and

involvement since 1945 Germany's Second Chance Anne Sa'adah, 2009-07-01 How does a country reconstitute itself as a functioning democracy after a period of dictatorship The new community may execute imprison or temporarily disenfranchise some citizens but it will be unable to exclude all who supported the fallen regime Political reconciliation must lay the groundwork for political trust Democracy offers the compromised and many who were more than just compromised a second chance In this new book Anne Sa'adah explores twentieth century Germany's second chances Drawing on evidence from intellectual debates trials literary works controversies about the actions of public figures and partisan competition Sa'adah analyzes German responses to the problem of reconciliation after 1945 and again after 1989 She depicts the frustrations moral and political ambiguities and disappointments inherent to even successful processes of democratization She constantly underscores the difficult trade off between achieving a modicum of justice and securing the legitimacy and stability of the new regime A strategy of reconciliation emphasizing outward conformity to democratic norms and behavior she argues has a greater chance of sustaining a new and fragile democracy than do more direct attempts to punish past misdeeds and alter people's inner convictions From Hitler to Heimat Anton Kaes, 1989 Examines changing attitudes among Germans as evident in films of the modern German era leading away from guilt and atonement and seeking national identity

Recasting Autobiography Barbara Kosta, 1994 For all four Kosta demonstrates autobiography is at once a process of remembering and working through national and personal trauma a task of mourning and healing and an act of self invention
