Sudden Sky Selected Poems:

A Sudden Sky Ulrikka S. Gernes, 2001 A Sudden Sky is a book of northern poems with crystalline images and lines fragile graceful poems that speak of fragments of the moment between open and closed eyes of the human need for embrace These poems note the spaces between things always a gap a failed connection like radio waves caught in the sky I REFUSE to accept the spine's dictated script which at the precise moment lets itself dissolve lets itself be inserted as a footnote of terror in the great law that has condemned us to carry the quake's loosening when the alibi doesn't hold and the body surrenders itself when dawn cleans up among the stars Gernes has called poetry a resistance movement explaining A poem gives us the possibility of hearing our own voices While the media offer us the world in small pieces which are experienced as chaos poetry seeks connections

Collected Poems Lorna Goodison, 2017-04-15 Lorna Goodison is a poet alive to places from the loved and lived in world of Jamaica where she began and started a family to the United States and Canada where she has made her teaching career but always re-connecting with her Caribbean roots She travels with an ear alert to histories and voices How differently English sounds in the tropics and in colder lands at seaside in sunlight and on prairies mountains and in cities The same words say quite different things depending on who speaks them and who's listening obeying or resisting She covers a wide range of subjects and themes too Her instinct is to celebrate being alive in a world that is rich but in peril And what is the rare quality that has gone out of poetry that these marvellous poems restore asks Derek Walcott Joy The mango of poetry eaten straight from the tree Goodison somehow finds growing in Wordsworth country and in Sligo in Russia and Norway in Spain and Portugal which spilled their empires into the Caribbean in Hungary and Far Rockaway The publication of Lorna Goodison's Collected Poems with their extraordinary music sensuous texture and powerful historical imagination is a major event These are poems stunningly alive to the nuances of language beautifully pitched and tuned rich with feeling and insight Jahan Ramazani Lorna Goodison brings herself into the presence of every poem and so into the presence of her readers Like the ideal teacher she enables us to hear history sing its joy and shout its rage in her own personal tones of voice and to feel the folds and textures of her various homelands like a display of rich cloths She excels in both the emblematic and descriptive powers of popular poetry and introduces us to an array of characters sharply but generously perceived and often as deliciously audible after death as in life This is an inspiring collection for a time when hopes for transnational unity are profoundly challenged Goodison's poems frequently acknowledge the complex unhealed scars of imperial greed and violence but the impulse is towards hope and our imaginations are enchanted by a potential global spring of warmth nourishment camaraderie and sheer fun In the poet's own words of gratitude to Miss Mirry African bush healing woman we should turn thanks now to Lorna Goodison for addressing us across so many years on her unique world service of human truth and stay tuned Carol Rumens

Performing Consciousness Per Brask, Daniel Meyer-Dinkgrafe, 2010-02-19 Since its inaugural issue in April 2000 the journal Consciousness Literature and the Arts has regularly published essays on the intersection of theatre and consciousness Often these essays have seen theatre as a spiritual practice that for both the performer and her audience can bring about experiences that help heal the world a shift in consciousness This practice though spiritual is not ethereal but is rooted in doing in actions in breathing That is theatre is seen as an art form understood as part of a whole as taking place in total Consciousness as well as expressing consciousness es making both breathing a source of meaning and shamanic journeying part of the creative process that brings into being imaginative resources for the actor that undermines traditional understandings of character self ego All the pieces collected here then reveal a concern with consciousness and the theatre the ways that performance can be a spiritual practice a means a reaching higher levels of consciousness as well as the ways the theatre may have healing effects on audiences by engaging them in wider and deeper levels of imagination the levels where dualities disappear
