Stamm,2018-01-11 Excerpt from The Kentucky Warbler 1965 Vol 41 At least 70% Of the woodlands in the region covered had been badly burned by forest fires in November this burned out portion simply had no bird life except for the crows we found The Starlings seem to be entirely absent from Martin County this season not one has been sighted this winter The juncos too are almost totally non existent

with only six on our count as compared to 79 last year The scarcity of Tufted Titmice could well be due to the widespread forest fires and the destruction Of the natural food supply Chickadees titmice and towhees were observed feeding on dogwood berries at the edge of a clearing About the Publisher Forgotten Books publishes hundreds of thousands of rare and classic books Find more at [www.forgottenbooks.com](http://www.forgottenbooks.com) This book is a reproduction of an important historical work Forgotten Books uses state of the art technology to digitally reconstruct the work preserving the original format whilst repairing imperfections present in the aged copy In rare cases an imperfection in the original such as a blemish or missing page may be replicated in our edition We do however repair the vast majority of imperfections successfully any imperfections that remain are intentionally left to preserve the state of such historical works      **The Kentucky Warbler; V.58-60**
