The Keys To Happiness Sex And The Search For Modernity In Fin De Siecle Russia:

The Keys to Happiness Laura Engelstein, 1992 Throughout the decade that followed the Revolution of 1905 in the salons of the artistic and intellectual avant garde in the pages of popular romances in the staid assemblies of physicians psychiatrists and legal men the talk everywhere was of sex This book marks the first serious attempt to understand the intense public interest in sexuality as a vital dimension of late tsarist political culture Drawing on a strong foundation of historical sources Engelstein shows how Western ideas and attitudes towards sex and gender were transformed in the Russian context as imported views on prostitution venereal disease homosexuality masturbation abortion and other themes took on distinctively Russian hues Engelstein shows Russian liberals caught between autocracy and revolution as they struggled to define a civic world in which desire was tempered by self discipline and where the right to privacy self expression and personal happiness was more than a utopian dream publisher Photocopied materials for Laura Engelstein's The keys to happiness : sex and the search for modernity in fin-de-siècle Russia ,1975 Includes approximately 200 photocopied articles book chapters and other research materials gathered during the writing of The keys to happiness sex and the search for modernity in fin de si cle Russia published in 1992 This collection contains law and legal sources used in her research

Russian Writers and the Fin de Siècle Katherine Bowers, Ani Kokobobo, 2015-06-17 An essay collection that explores Russian literature and culture in relation to the late nineteenth century fin de si cle **Petersburg Fin de**

Siècle Mark D. Steinberg, 2011-11-29 The final decade of the old order in imperial Russia was a time of both crisis and possibility an uncertain time that inspired an often desperate search for meaning This book explores how journalists and other writers in St Petersburg described and interpreted the troubled years between the Russian revolutions of 1905 and 1917 Mark Steinberg distinguished historian of Russia in the late nineteenth and early twentieth centuries examines the work of writers of all kinds from anonymous journalists to well known public intellectuals from secular liberals to religious conservatives Though diverse in their perspectives these urban writers were remarkably consistent in the worries they expressed They grappled with the impact of technological and material progress on the one hand and with an ever deepening anxiety and pessimism on the other Steinberg reveals a new darker perspective on the history of St Petersburg on the eve of revolution and presents a fresh view of Russia's experience of modernity Degeneration, decadence and disease in the Russian fin de siècle Frederick White, 2015-11-01 Early in the twentieth century Russia was experiencing a decadent period of cultural degeneration just as science was developing ways to identify medical conditions which supposedly reflected the health of the entire nation Leonid Andreev the leading literary figure of his time stepped into the breach of this scientific discourse with literary works about degenerates The spirited social debates on mental illness morality and sexual deviance which resulted from these works became part of the ongoing battle over the definition and depiction of the irrational complicated by Andreev's own publicised bouts with neurasthenia This book examines the concept of pathology in Russia the influence of European medical discourse the development of Russian psychiatry and the role that it had in popular culture by investigating the life and works of Andreev It engages the emergence of psychiatry and the role that art played in the development of this objective science **Entertaining Tsarist Russia** James Von Geldern, Louise McReynolds, 1998 Companion disc features recordings of popular songs and vaudeville skits performed by some of Russia's most famous singers and comics of early twentieth century *Other Russias* B. Baer, 2009-04-13 This book examines the unprecedented explosion of homosexual discourse in post Soviet Russia and details how homosexuality has come to signify a surprising and often contradictory array of uniquely post Soviet concerns Threads of Empire Charles Steinwedel, 2016-05-09 A history and analysis of Bashkiria and its transformation into a Russian imperial region of the course of three and a half centuries Threads of Empire examines how Russia's imperial officials and intellectual elites made and maintained their authority among the changing intellectual and political currents in Eurasia from the mid sixteenth century to the revolution of 1917 The book focuses on a region 750 miles east of Moscow known as Bashkiria The region was split nearly evenly between Russian and Turkic language speakers both nomads and farmers Ufa province at Bashkiria's core had the largest Muslim population of any province in the empire The empire's leading Muslim official the mufti was based there but the region also hosted a Russian Orthodox bishop Bashkirs and peasants had different legal status and powerful Russian Orthodox and Muslim nobles dominated the peasant estate By the twentieth century industrial mining and rail commerce gave rise to a

class structure of workers and managers Bashkiria thus presents a fascinating case study of empire in all its complexities and of how the tsarist empire's ideology and categories of rule changed over time An original and well researched study of the incorporation of the Bashkir lands and their transformation into a Russian imperial region over the course of three and a half centuries Steinwedel argues that the history of Bashkiria exposes a number of the empire's achievements as a multiethnic society He draws out both important shifts and abiding continuities in the history of the region and by employing a multi dimensional approach covering a range of intersecting topics provides a fuller appreciation for the region He also does a nice job pointing out the useful commonalities and differences between the Bashkir lands and other parts of the empire making a compelling case for Bashkiria's importance for understanding larger processes Willard Sunderland author of *Taming the Wild Field: Colonization and Empire on the Russian Steppe* With its solid grounding in Russian archival and printed sources and its sophisticated comparative approach Steinwedel's work will serve as a point of departure for historians of the Russian Empire and will become a book of reference for any future study of empires in global history *American Historical Review* Steinwedel's book is both a skilful exercise in local and regional history and an important contribution to the history of Imperial Russia as a whole *Slavonic and East European Review* **The Feminine in the Prose of Andrey Platonov** Philip

Bullock, 2017-12-02 Andrey Platonovich Platonov 1899-1951 is increasingly regarded as one of the greatest writers of the Soviet period His linguistic virtuosity philosophical rigour and political unorthodoxy combined to create some of the most captivatingly absurd works of literature in any language Unsurprisingly many of these remained unpublished in his lifetime and indeed for many years thereafter In this lively and original study Philip Bullock traces the development of feminine imagery in Platonov's prose from the seemingly misogynist outrage of his early works to the tender reconciliation with domesticity in his final stories and argues that gender is a crucial feature of the author's audacious utopian vision **The Routledge History Handbook of Gender and the Urban Experience** Deborah Simonton, 2017-02-03 Challenging current perspectives of urbanisation *The Routledge History Handbook of Gender and the Urban Experience* explores how our towns and cities have shaped and been shaped by cultural spatial and gendered influences This volume discusses gender in an urban context in European North American and colonial towns from the fourteenth to the twentieth century casting new light on the development of medieval and modern settlements across the globe Organised into six thematic parts covering economy space civic identity material culture emotions and the colonial world this book comprises 36 chapters by key scholars in the field It covers a wide range of topics from women and citizenship in medieval York to gender and tradition in nineteenth and twentieth century South African cities reframing our understanding of the role of gender in constructing the spaces and places that form our urban environment Interdisciplinary and transnational in scope this volume analyses the individual dynamics of each case study while also examining the complex relationships and exchanges between urban cultures It is a valuable resource for all researchers and students interested in gender urban history and their intersection

and interaction throughout the past five centuries **Beyond the Pale** Benjamin Nathans, 2002 A surprising number of Jews lived literally and figuratively beyond the Pale of Jewish Settlement in tsarist Russia during the half century before the Revolution of 1917 This text reinterprets the history of the Russian Jewish encounter using long closed Russian archives and other sources State of Madness Rebecca Reich, 2018-03-13 What madness meant was a fiercely contested question in Soviet society State of Madness examines the politically fraught collision between psychiatric and literary discourses in the years after Joseph Stalin's death State psychiatrists deployed set narratives of mental illness to pathologize dissenting politics and art Dissidents such as Aleksandr Volpin Vladimir Bukovskii and Semen Gluzman responded by highlighting a pernicious overlap between those narratives and their life stories The state they suggested in their own psychiatrically themed texts had crafted an idealized view of reality that itself resembled a pathological work of art In their unsanctioned poetry and prose the writers Joseph Brodsky Andrei Siniavskii and Venedikt Erofeev similarly engaged with psychiatric discourse to probe where creativity ended and insanity began Together these dissenters cast themselves as psychiatrists to a sick society By challenging psychiatry's right to declare them or what they wrote insane dissenters exposed as a self serving fiction the state's renewed claims to rationality and modernity in the post Stalin years They were as they observed like the child who breaks the spell of collective delusion in Hans Christian Andersen's story The Emperor's New Clothes In a society where normality means insisting that the naked monarch is clothed it is the truth teller who is pathologized Situating literature's encounter with psychiatry at the center of a wider struggle over authority and power this bold interdisciplinary study will appeal to literary specialists historians of culture science and medicine and scholars and students of the Soviet Union and its legacy for Russia today *Modernisation in Russia since 1900* Markku Kangaspuro, Jeremy Smith, 2006-12-27 Modernisation has been a constant theme in Russian history at least since Peter the Great launched a series of initiatives aimed at closing the economic technical and cultural gap between Russia and the more advanced countries of Europe All of the leaders of the Soviet Union and post Soviet Russia have been intensely aware of this gap and have pursued a number of strategies some more successful than others in order to modernise the country But it would be wrong to view modernisation as a unilinear process which was the exclusive preserve of the state Modernisation has had profound effects on Russian society and the attitudes of different social groups have been crucial to the success and failure of modernisation This volume examines the broad theme of modernisation in late imperial Soviet and post Soviet Russia both through general overviews of particular topics and specific case studies of modernisation projects and their impact Modernisation is seen not just as an economic policy but as a cultural and social phenomenon reflected through such diverse themes as ideology welfare education gender relations transport political reform and the Internet The result is the most up to date and comprehensive survey of modernisation in Russia available which highlights both one of the perennial problems and the challenges and prospects for contemporary Russia *Literary Passports* Shachar Pinsker, 2010-12-13 Literary Passports is the first book to

explore modernist Hebrew fiction in Europe in the early decades of the twentieth century It not only serves as an introduction to this important body of literature but also acts as a major revisionist statement freeing this literature from a Zionist nationalist narrative and viewing it through the wider lens of new comparative studies in modernism The book s central claim is that modernist Hebrew prose fiction as it emerged from 1900 to 1930 was shaped by the highly charged encounter of traditionally educated Jews with the revolution of European literature and culture known as modernism The book deals with modernist Hebrew fiction as an urban phenomenon explores the ways in which the genre dealt with issues of sexuality and gender and examines its depictions of the complex relations between tradition modernity and religion Love for Sale Colleen Lucey,2021-09-15 Love for Sale is the first study to examine the ubiquity of commercial sex in Russian literary and artistic production from the nineteenth century through the fin de si cle Colleen Lucey offers a compelling account of how the figure of the sex worker captivated the public s imagination through depictions in fiction and fine art bringing to light how imperial Russians grappled with the issue of sexual commerce Studying a wide range of media from little known engravings that circulated in newspapers to works of canonical fiction Lucey shows how writers and artists used the topic of prostitution both to comment on women s shifting social roles at the end of tsarist rule and to express anxieties about the incursion of capitalist transactions in relations of the heart Each of the book s chapters focus on a type of commercial sex looking at how the street walker brothel worker demimondaine kept woman impoverished bride and madam traded in sex as a means to acquire capital Lucey argues that prostitution became a focal point for imperial Russians because it signaled both the promises of modernity and the anxieties associated with Westernization Love for Sale integrates historical analysis literary criticism and feminist theory and conveys how nineteenth century beliefs about the fallen woman drew from medical judicial and religious discourse on female sexuality Lucey invites readers to draw a connection between rhetoric of the nineteenth century and today s debate on sex workers rights highlighting recent controversies concerning Russian sex workers to show how imperial discourse is recycled in the twenty first century **Transforming Peasants** Judith Pallot,1998-07-15 The essays in this collection explore the social construction of the Russian peasantry in the period between Emancipation and Collectivisation and the impact of these constructions on Tsarist and Bolshevik agrarian policy The international group of authors represent different trends in the historical sociological and geographical investigations of the East European peasantry and draw both upon the insights of cultural studies and recently available archival materials to throw new light on the relationship between peasantry and other classes *The Standard of Living and Revolutions in Russia, 1700-1917* Boris Nikolaevich Mironov,2012 This is the first full scale anthropometric history of Imperial Russia 1700 1917 It mobilizes an immense volume of archival material to chart the growth weight and other anthropometric indicators of the male and female populations in order to chart how the standard of living in Russia changed over slightly more than two centuries It draws on a wide range of data statistics on agricultural production taxation prices and wages nutrition and

demography to draw conclusions on the dynamics in the standard of living over this long period of time The economic social and political interpretation of these findings make it possible to reconsider the prevailing views in the historiography and to offer a new perspective on Imperial Russia
