The King Conspiracy:

A Complete Collection of State Trials and Proceedings for High Treason and Other Crimes and Misdemeanors from the Earliest Period to the Year 1783 Thomas Bayly Howell, 1818 **Cobbett's Complete Collection of State Trials and Proceedings for High Treason and Other Crimes and Misdemeanors from the Earliest Period to the Present Time**, 1818 **The Law Journal Reports**, 1843 *The King's Three Faces* Brendan McConville, 2012-12-01 Reinterpreting the first century of American history Brendan McConville argues that colonial society developed a political culture marked by strong attachment to Great Britain's monarchs. This intense allegiance continued almost until the moment of independence, an event defined by an emotional break with the king. By reading American history forward from the seventeenth century rather than backward from the Revolution, McConville shows that political conflicts long assumed to foreshadow the events of 1776 were in fact fought out by factions who invoked competing visions of the king and appropriated royal rites rather than used abstract republican rights or pro-democratic proclamations. The American Revolution, McConville contends, emerged out of the fissure caused by the unstable mix of affective attachments to the king and a weak imperial government. Sure to provoke debate, *The King's Three Faces* offers a powerful counterthesis to dominant American historiography. Imagining the King's Death John Barrell, 2000 It is high treason in British law to imagine the king's death. But after the execution of Louis XVI in 1793, everyone in Britain must have found themselves imagining that the same fate might befall George III. How easy was it to distinguish between fantasising about the death of George and imagining it in the legal sense of intending or designing? John Barrell examines this question in the context of the political trials of the mid-1790s and the controversies they generated. He shows how the law of treason was adapted in the years following Louis's death to punish what was acknowledged to be a modern form of treason unheard of when the law had been framed. The result, he argues, was the invention of a new, an imaginary, a figurative treason by which the question of who was imagining the king's death, the supposed traitors or those who charged them with treason, became inescapable. **The Speeches of the Hon. Thomas Erskine** Thomas Erskine, Baron Erskine, 1813 *The Law Journal for the Year 1832-1949*, 1843 *The Speeches of the Earl of Chatham, the Hon. R.B. Sheridan, Lord Erskine, and the Hon.
