Brian Lewis

The King Of Sunlight How William Lever Cleaned Up The World:

The King of Sunlight Adam Macqueen, 2004 The biography of this millionaire soap boiler social reformer MP and tribal chieftain traces his footsteps from humble beginnings to a business empire that straddled the world from the Mersey to the Congo

So clean Brian Lewis, 2017-10-03 This book is an unorthodox biography of William Hesketh Lever 1st Lord Leverhulme 1851 1925 the founder of the Lever Brothers Sunlight Soap empire Unlike previous biographies which have focused on the man's life story and eccentricities or just considered one aspect of his career So clean places him squarely in his social and cultural context and is fully informed by recent historical scholarship Much more than a warts and all biography the book uses Lever as an entry point for contextualized and comparative essays on the history of advertising on factory paternalism town planning the Garden City movement and their ramifications across the twentieth century and on colonialism and forced labour in the Belgian Congo and the South Pacific It concludes with a discussion of his extraordinary attempt in his final years to transform crofting and fishing in the Outer Hebrides Written in an engaging and accessible style So Clean will appeal to academics and students working in business social cultural and imperial history

German Colonialism, Visual Culture, and Modern Memory Volker Langbehn, 2010-07-01 There is no overarching master narrative in understanding the history of German colonialism and over the past decade the study of Germany's colonial past has experienced a dramatic transformation in its scope of inquiry Influenced by new theoretical and methodological approaches

to the study of race nationalism and globalization these new studies initiate a process of reevaluating and redefining the parameters within which German Colonialism is understood The role of visual materials in particular is ideal for exploring the porousness of disciplinary boundaries though visual culture studies pertaining to German history and especially German colonialism have previously been almost completely neglected Investigating visual communication and mass culture print culture and suggestive racial politics racial aesthetics racial politics and early German film racial continuity and German film and photography German Colonialism Visual Culture and Modern Memory offers compelling evidence of a German society between 1884 and 1919 that produced vibrant and heterogeneous and at times contradictory cultures of colonialism This collection of new essays illustrates the dramatic changes and vast array of perspectives that have recently emerged in the study of German colonialism In documenting the latest cutting edge research of German colonial history the contributors to this volume prove wrong the persistent assumptions that the creation of Germany's colonial empire did not have any lasting impact on German political and cultural life Their essays document how colonialism in its various forms was entwined with the inner workings of modern German life and society especially through the cultural and technical innovations of its time In contrast to existing research these studies show that colonial Germany played a significant role in shaping German perceptions of racial difference influenced German support for World War I and facilitated the construction of German nationalism German Colonialism Visual Culture and Modern Memory uniquely demonstrates that the visual culture of colonialism is closely linked to the fascination with new modes of seeing and the enigma of visual experience that have become trademarks of modernity

Empires of Vision Martin Jay, Sumathi Ramaswamy, 2014-03-14 Empires of Vision brings together pieces by some of the most influential scholars working at the intersection of visual culture studies and the history of European imperialism The essays and excerpts focus on the paintings maps geographical surveys postcards photographs and other media that comprise the visual milieu of colonization struggles for decolonization and the lingering effects of empire Taken together they demonstrate that an appreciation of the role of visual experience is necessary for understanding the functioning of hegemonic imperial power and the ways that the colonized subjects spoke and looked back at their imperial rulers Empires of Vision also makes a vital point about the complexity of image culture in the modern world We must comprehend how regimes of visibility emerged globally not only in the metropole but also in relation to the putative margins of a world that increasingly came to question the very distinction between center and periphery Contributors Jordanna Bailkin Roger Benjamin Daniela Bleichmar Zeynep elik David Ciarlo Natasha Eaton Simon Gikandi Serge Gruzinski James L Hevia Martin Jay Brian Larkin Olu Oguibe Ricardo Padr n Christopher Pinney Sumathi Ramaswamy Benjamin Schmidt Terry Smith Robert Stam Eric A Stein Nicholas Thomas Krista A Thompson
