The Kings Honor And The Kings Cardinal The War Of The Polish Succession:

The King's Honor and the King's Cardinal John L. Sutton, 2021-10-21 Early in 1733 Augustus II elector of Saxony and king of Poland died in Warsaw from complications of a gangrenous foot The elective throne of Poland thus fell vacant and the states of Europe began cautious maneuvers designed to secure for each some national advantage in the choice of a successor Before the year was out diplomacy had given way to military force Yet the Age of Reason fostered a relationship between diplomacy and warfare that limited the violence of military action The War of Polish Succession might have produced widespread carnage It was a major struggle among the great powers of Europe with actions in Poland the Rhineland and Italy Many illustrious commanders took part Marshal Villars and Prince Eugene Maurice de Saxe and Count Daun Behind them stood the powerful figures of Cardinal Fleury anxious to uphold the honor of King Louis even as he guarded against escalation of the war and Emperor Charles VI obsessed with his desire to keep the Holy Roman Empire in Hapsburg hands After three years of wary military action the war ended as it had begun in a series of secret diplomatic maneuvers No nation was annihilated no prince unthroned and once again Europe's precarious balance of power had been restored John L Sutton's engrossing account the first in any major European language to bring together the evidence from the great diplomatic and military archives of Europe reveals the very essence of eighteenth century warfare with its grand campaigns as formal as minuets its sieges as gentlemanly as court receptions On another level the plight of the mercenaries who did much of the fighting yet had no stake in the conflict beyond day to day survival is portrayed just as vividly in this clear eyed examination of a dynastic war and its setting

Austria's Wars of Emergence, 1683-1797 Michael Hochedlinger, 2015-12-22 The Habsburg Monarchy has received much historiographical attention since 1945 Yet the military aspects of Austria's emergence as a European great power in the seventeenth and eighteenth centuries have remained obscure This book shows that force of arms and the instruments of the early modern state were just as important as its marriage policy in creating and holding together the Habsburg Monarchy Drawing on an impressive up to date bibliography as well as on original archival research this survey is the first to put Vienna's military back at the centre stage of early modern Austrian history

Emanuel Swedenborg, Secret Agent on Earth and in Heaven Marsha Keith Schuchard, 2011-10-28 Drawing on unpublished diplomatic and Masonic archives this study reveals the career of Emanuel Swedenborg as a secret intelligence agent for Louis XV and the pro French pro Jacobite party of Hats in Sweden Utilizing Kabbalistic meditation techniques he sought political intelligence on earth and in heaven

The Politics of Succession Andrej Kokkonen, Jørgen Møller, Anders Sundell, 2022 Drawing on a unique dataset of the life and fates of monarchs in all major monarchies in Medieval and Early Modern Europe this book documents how succession have historically been moments of violence and insecurity
