The Kiribati Test:

Grappling with the Bomb Nic Maclellan, 2017-09-26 *Grappling with the Bomb* is a history of Britain's 1950s program to test the hydrogen bomb code name Operation Grapple. In 1957-58, nine atmospheric nuclear tests were held at Malden Island and Christmas Island, today part of the Pacific nation of Kiribati. Nearly 14,000 troops travelled to the central Pacific for the UK nuclear testing program; many are still living with the health and environmental consequences. Based on archival research and interviews with nuclear survivors, *Grappling with the Bomb* presents the story of a Kiribati woman, Sui Kiritome, a British pacifist, Harold Steele, a businessman, James Burns, a Fijian sailor, Paul Ah Poy, English volunteers Mary and Billie Burgess, and many other witnesses to Britain's nuclear folly.

Equator Thurston Clarke, 2014-09-09 Widely considered a jewel of contemporary travel literature, *Equator* is Thurston Clarke's magnificent, witty account of his solo journey along the earth's torrid midsection, a grueling twenty-five thousand mile odyssey that spanned three years and as many continents. His was a perilous trek across an almost surreal landscape where a first-class hotel appeared smack in the middle of a leper colony and a one-time Pacific island paradise stood as a hideous, bomb-blasted testament to nuclear folly. Along the way, Clarke encountered the world's heaviest rat, the earth's highest volcano, and the king of a Micronesian island wearing flip-flops and a novelty T-shirt. Throughout, Clarke's unflagging sense of humor and wonder make *Equator* a classic of its kind.

The Ocean on Fire Anaïs Maurer, 2024-03-01 Anaïs Maurer foregrounds Pacific literature as a key archive for surviving and thriving in an environment in which Indigenous inhabitants have been bombarded with the equivalent of one Hiroshima bomb a day for half a century.

Emerging Space Powers Brian Harvey, Henk H. F. Smid, Theo Pirard, 2011-01-30 This work introduces the important emerging space powers of the world. Brian Harvey describes the origins of the Japanese space program from rocket designs based on WW II German U-boats to tiny solid-fuel pencil rockets which led to the launch of the first Japanese satellite in 1970. The next two chapters relate how Japan expanded its space program, developing small satellites into astronomical observatories and sending missions to the Moon, Mars, comet Halley, and asteroids. Chapter 4 describes how India's Vikram Sarabhai developed a sounding rocket program in the 1960s. The following chapter describes the expansion of the Indian space program. Chapter 6 relates how the Indian space program is looking ahead to the success of the moon probe Chandrayaan due to launch in 2008 and its first manned launching in 2014. Chapters 7, 8, and 9 demonstrate how in Iran, communications and remote sensing drive space technology. Chapter 10 outlines Brazil's road to space, begun in the mid-1960s with the launch of the Sonda sounding rockets. The following two chapters describe Brazil's satellites and space launch systems and plans for the future. Chapters 13 and 14 study Israel's space industry. The next chapters look at the burgeoning space programs of North and South Korea. The book ends by contrasting and comparing all the space programs and speculating how they may evolve in the future. An appendix lists all launches and launch attempts to date of the emerging space powers.

Nuclear Bodies Robert A. Jacobs, 2022-01-01 The Cold War reconsidered as a limited nuclear war. A grimly

important analysis of the cold war Andrew Robinson Nature Inexorable clarity and care for his fellow humans mark Robert Jacobs s guide to the Cold War as a limited nuclear war whose harms disfigure any possible future Norma Field author of *In the Realm of a Dying Emperor* Japan at Century s End In the fall of 1961 President Kennedy somberly warned Americans about deadly radioactive fallout clouds extending hundreds of miles from H bomb detonations yet he approved ninety six U S nuclear weapon tests for 1962 Cold War nuclear testing production and disasters like Chernobyl and Fukushima have exposed millions to dangerous radioactive particles these millions are the global hibakusha Many communities continue to be plagued with dire legacies and ongoing risks sickness and early mortality forced displacement uncertainty and anxiety dislocation from ancestors and traditional lifestyles and contamination of food sources and ecosystems Robert A Jacobs re envisions the history of the Cold War as a slow nuclear war fought on remote battlegrounds against populations powerless to prevent the contamination of their lands and bodies His comprehensive account necessitates a profound rethinking of the meaning costs and legacies of our embrace of nuclear weapons and technologies Nuclear Weapons Stuart Casey-Maslen,2021-11-04 A new nuclear arms race is underway between Russia and the United States one that focuses on the technology of delivery of nuclear warheads This book describes how and why this race is happening who still possesses nuclear weapons and what constraints apply to those weapons under international law A global nuclear ban treaty entered into force in January 2021 but the nuclear powers kept distant The last remaining treaty restraining the arsenals of the two nuclear superpowers will expire in less than five years time and the risk is that other States will turn to nuclear arms for their defence further fracturing the non proliferation regime installed after the Cuban missile crisis *Imagining Disarmament, Enchanting International Relations* Matthew Breay Bolton,2019-06-25 This book explores the global politics of disarmament through emerging international relations IR theories of discourse and imagination Each chapter reflects on an aspect of contemporary activism on weapons through an analogous story from literary tradition Shahrazade convenor of the 1001 Nights offers a potent metaphor for the humanitarian advocacy seeking to moderate the behaviour of violent people The author reads Don Quixote in Cambodia s minefields reflects on Lysistrata at Greenham Common and considers how tropes in *The Tempest* were enrolled in both Pacific nuclear testing and efforts to resist it The book draws on ethnographic fieldwork in communities affected by weapons and disarmament advocacy at the UN and calls for a re enchantment of IR alive to affect ritual and myth *Contextualizing the Pedagogy of English as an International Language* Nugrahenny T. Zacharias,2013-09-11 Among the growing number of publications on promoting English as an International Language EIL little has been written on the complexities that the EIL paradigm has brought to the teaching and learning of English in the classroom This edited book seeks to address this deficit in the literature by bringing together narratives of the realities that EIL practitioners encountered in their diverse teaching contexts including Indonesia the Pacific islands USA and Australia the struggles tensions dilemmas and quests of living as EIL practitioners in specific teaching contexts and wider English

The Last Colonies Robert Aldrich, John Connell, 1998-07-13 This comprehensive and authoritative book is about the last colonies those remaining territories formally dependent on metropolitan powers It discusses the surprisingly large number of these territories mainly small isolated islands with limited resources Yet these places are not as obscure as might be expected They may be major tourist destinations military bases satellite tracking stations tax havens or desolate underpopulated spots that can become international flashpoints such as the Falklands The authors find that at a time of escalating nationalism and globalization these remnants of empire provide insights into the meanings of political economic legal and cultural independence as well as sovereignty and nationhood This book provides a broad based and provocative discussion of colonialism and interdependence in the modern world from a unique perspective

International Perspectives on Democratization and Peace Narayanan Ganesan, 2020-10-26 This book examines the concept of peace and the relevance of historical and contextual factors that contribute to peaceful coexistence of people and dives into a deep examination of how democracy furthers peace especially in conflict prone countries Seven case studies illustrate the impact of democratization on transformation and prevention

Detect and Deter: Can Countries Verify the Nuclear Test Ban? Ola Dahlman, Jenifer Mackby, Svein Mykkeltveit, Hein Haak, 2011-09-03 How can countries verify compliance with the Comprehensive Nuclear Test Ban Treaty CTBT and detect and deter violations It is in their interest to increase their verification readiness because the assessment of compliance with the treaty rests with states parties to the CTBT The treaty provides countries with two verification elements an international system of monitoring stations and an on site inspection regime The monitoring system can detect nuclear explosions underground in the atmosphere and under water This book provides incentives to nations around the world on how they can organize their efforts to verify compliance with the CTBT and how they can collaborate with other countries perhaps on a regional basis to monitor areas of concern Such focused efforts can improve their detection and deterrence capabilities through precision monitoring The book addresses the CTBT verification from the perspective of countries It shows how they can create the essential tools for the assessment of the large amounts of data available from the verification regime and other sources including observations from satellites and thousands of stations outside of the treaty regime Countries can also use current scientific and technological developments to assist them in verifying compliance with the treaty The book offers political and scientific analysis on the evolution of the

treaty over the years The book is intended for professionals in the political diplomatic scientific and military fields who deal with international security non proliferation and arms control It is also intended for non governmental organizations and journalists seeking a better understanding of the nuclear test ban issue and how states can verify compliance with the treaty
