The Kites Tale The Story Of The Red Kite In Wales:

The Kite's Tale Roger Lovegrove, 1990 *The Red Kite's Year* Ian Carter, 2019-05-20 thoroughly recommended Country side magazine The Red Kite *Milvus milvus* one of our most elegant and impressive birds of prey has a varied and dramatic history in Britain Having been driven perilously close to extinction it has now made a welcome comeback in part through one of the most successful reintroduction projects ever undertaken This beautifully illustrated book follows the birds through the ups and downs of the year from the rigours of raising young during the warm summer months to the struggle for survival in the depths of winter Interspersed with the monthly accounts are chapters on the history of the Red Kite in Britain the reintroduction programme the threats it still faces and its status elsewhere in Europe Red Kite biology is explored from nest construction egg laying and nest defence through to juveniles leaving the nest and learning to live independently The book concludes with an overview of Red Kite status throughout their range With a foreword by Mark Avery **A Sky Full of Kites** Tom Bowser, 2021-06-03 Shortlisted for the Saltire Society First Book of the Year Award Red kites were once Britain's most common bird of prey By the early 1900s they had been wiped out in Scotland and England following centuries of ruthless persecution When some reintroduced kites began roosting on their 1 400 acre farm at Argaty in Perthshire Tom Bowser's parents Lynn and Niall decided to turn their estate into a safe haven They began feeding the birds and invited the world to come and see them learn about them and fall in love with them *A Sky Full of Kites* is the story of the Argaty Red Kite project and the re-establishing of these magnificent raptors to Scotland but it is also much more than that Ill at ease with the traditional rural values of livestock farming Lynn and Niall's son Tom who returned to work on the farm after a career in journalism reveals his passion for nature and his desire to dedicate his family's land to conservation **The Hand that Feeds** Alexander Mullan, Riley Smallman, Herre de Bondt, Juliette Waterman, 2025-05-13 Food plays a major part in shaping human animal relations from nurturing farm and zoo animals to bringing wild birds into suburban gardens Food mediated interactions create personal interspecies bonds enrich and alter environments change species distributions enable new relationships and reconfigure social perspectives but also lead to many concerns over health and disease for example as well as conflicts over spaces and resources However previous attention has almost exclusively focused on the purpose driven utilitarian and economic aspects of feeding rather than the affective and emotional encounters that motivate many feeding practices Presenting new research and interdisciplinary case studies *The Hand that Feeds* considers animal feeding from historic to modern times The volume explores the nuances and complexity of non utilitarian feeding relationships across urban and rural divides in the wild on the farm at the zoo and in the garden and how our feeding relationships have altered animal distributions and behaviours The authors scrutinise contrasts between which species are promoted and which are persecuted and how the species we choose to feed reflects broader world views and cultural values Ultimately this volume engages in the discussion of how we feed why we feed which animals we deem worthy of feeding and the widespread impacts

of feeding relations Praise for *The Hand that Feeds* An innovative and exciting collection of studies exploring the cultural phenomenon of animal feeding Drawing on cutting edge approaches and case studies from wild raptors to livestock and zoo animals *The Hand that Feeds* has started a new conversation on this fundamental relationship between other species and ourselves Aleks Pluskowski University of Reading This fascinating book explores the how why and consequences of people feeding other species drawing on perspectives from the historical life and social sciences Different voices bring diverse observations and viewpoints to a refreshingly lively and informative discussion of a topic that is anything but simple Terry O Connor University of York This is a fantastic interdisciplinary collection interrogating how human animal relations are mediated by food Food can be an enticement a medicine or a poison it can be a vehicle for protection and bonding or distance and killing Dolly J rgensen University of Stavanger

Raptor James Macdonald Lockhart, 2017-04-07 This illuminating book serves as homage to a brilliant naturalist and extraordinary birds If you loved *H Is for Hawk* put this next on your reading list Kirkus Reviews starred review From the merlin to the golden eagle the goshawk to the honey buzzard James Macdonald Lockhart s stunning debut is a quest of beak talon wing and sky On its surface *Raptor* is a journey across the British Isles in search of fifteen species of birds of prey but as Lockhart seeks out these elusive predators his quest becomes so much more an incomparably elegant elegy on the beauty of the British landscape and through the birds a journey toward understanding an awesome power at the heart of the natural world a power that is majestic and frightening in its strength but also fragile Linking his journey to that of his muse nineteenth century Scottish naturalist and artist William MacGillivray Lockhart shares his own encounters with raptors ranging from the scarce osprey to the successfully reintroduced red kite a species once protected by medieval royal statute revealing with poetic immediacy the extraordinary behaviors of these birds and the extreme environments they call home Creatures both worshipped and reviled raptors have a talon hold on the human heart and imagination With his book Lockhart unravels these complicated ties in a work by turns reverent and euphoric an interweaving of history travel and nature writing at its best A hymn to wanderers to the land and to the sky and especially to the birds *Raptor* soars Lockhart s soaring debut is a perfect synthesis of travel writing and natural history Financial Times *Birds* ,2000 ***Birds in Northumbria*** ,2006 *Country Life* ,1907 **BBC Wildlife** ,1997 *The Countryman* ,1991 *Raptor Conservation Today* Bernd-U. demography A Victorian Naturalist's Odyssey Dr. Gilbert Clark, 2013-03-06 This tale is of a scholarly man whom I was privileged to know He passed through the last decade of his life as I passed through my teens He had seen the British Empire reach its zenith a period when no value was placed on wild life conservation Big game hunting having been approved of in the highest echelons of society Birds had suffered badly and amongst them in the UK was the Red Kite By 1870 it had virtually been wiped out except for a few pairs in the fastnesses of rural Wales Having entered Wales in 1891 to join the Botany Department of the University Dr Salter heard of their parlous plight and in 1893 bent his shoulder to the wheel All this gave scope for expanding a simple biography into the Life and Times of Dr Salter hence the title Odyssey It also allowed me to show how an interest in natural history can lead to the most unexpected places and into the company of people from all walks of life in both war and peace
