The Land Of Ulro:

The Land of Ulro Czesław Miłosz, 1985-01-01 This major prose work originally published in English in 1985 is both a moving spiritual self portrait and an unflinching inquiry into the genesis of our modern afflictions A man who was raised a Catholic in rural Lithuania lived through the Nazi occupation of Poland and emerged first in Europe and then in America as one of our most important men of letters speaks here of the inherited dilemmas of our civilization in a voice recognizable for its honesty and passion

The Reluctant Political Thinker Sherman W. Garnett, 2025-05-19 Czesław Miłosz was a poet and public writer for almost eight decades and still remains a tremendous figure in world literature four decades after he won the Nobel Prize and two decades after his death Miłosz saw himself as an artist flying above the political fray but he left the building blocks for an analysis of his political and social thought in plain sight In this book Sherman Garnett explores this crucial neglected aspect of Miłosz's thinking by closely studying a wide range of his Polish and English writings arguing that he held a unique nuanced political philosophy Miłosz's observations on totalitarianism and democracy dissent emigration the United States and Soviet Union and the great crisis of civilization fit coherently into his overall artistic project and offer valuable insights for contemporary global social humanitarian and ecological challenges This original book contributes to ongoing scholarly debates and offers the first full account of Miłosz as a political thinker

Ecstatic Pessimist Peter Dale Scott, 2023-02-28 Ecstatic Pessimist is a timely book about the Central and Eastern European experience of the mid 20th century as told through the poetry and experiences of Czesław Miłosz Nobel Laureate for literature who wrote on the horrors of war and the human experience Written by a colleague and friend of the poet it is part literary criticism and part memoir This biography memoir of Czesław Miłosz is a first hand account of the poet's life and his relationship to the author beginning in the 1960s Miłosz was a Polish American poet prose writer translator and diplomat Regarded as one of the great poets of the 20th century he won the 1980 Nobel Prize in Literature In its citation the Swedish Academy called Miłosz a writer who voices man's exposed condition in a world of severe conflicts Ecstatic Pessimist expands on Czesław Miłosz's commitment to unpolitical politics working for a revolution in culture and above all poetry as a necessary preparation for a revolution in politics This is a familiar notion in Poland which for two centuries was politically divided but poets preserved and enhanced a lively Polish consciousness And as the book shows Miłosz took steps over two decades to help reunite Poles in the successful Solidarity movement whose struggle eventually changed the regime and forced the Soviet armies to withdraw But the book is designed to encourage a similar development in America Miłosz's ambition for poetry may at first sound exotic but as the book says it is in the spirit of what John Adams wrote late in life to Thomas Jefferson The American revolution was in the mind of the people and in the union of the colonies both of which were accomplished before the hostilities commenced Though the book is also designed for those who already know and love Miłosz it is primarily written for those looking for someone whose genius could similarly inspire Americans of both left and right to unite in restoring the badly broken politics

of this country The book argues that Czeslaw Milosz is that genius as perhaps the only person who has been praised by intellectual leaders like Chris Hedges on the left and has also spoken at Hillsdale College the intellectual citadel of the American right

Czesław Miłosz's Faith in the Flesh Stanley Bill, 2021 A study of the writings of Polish laureate Czeslaw Milosz s that focuses on the poet s attempts to recover perspectives on transcendence and religious belief in a secular age through creative engagement with sensual or material experience

A Deeper Vision Robert Royal, 2015-10-30 In this wide ranging and ambitious volume Robert Royal a prominent participant for many years in debates about religion and contemporary life offers a comprehensive and balanced appraisal of the Catholic intellectual tradition in the twentieth century The Catholic Church values both Faith and Reason and Catholicism has given risen to extraordinary ideas and whole schools of remarkable thought not just in the distant past but throughout the troubled decades of the twentieth century Royal presents in a single volume a sweeping but readable account of how Catholic thinking developed in philosophy theology Scripture studies culture literature and much more in the twentieth century This involves great figures recognized as such both inside and outside the Church such as Jacques Maritain Bernard Lonergan Joseph Pieper Edith Stein Alasdair MacIntyre Charles Taylor Romano Guardini Karl Rahner Henri du Lubac Karol Wojtyla Joseph Ratzinger Hans Urs von Balthasar Charles Peguy Paul Claudel George Bernanos Francois Mauriac G K Chesterton Gerard Manley Hopkins Christopher Dawson Graham Greene Sigrid Undset J R R Tolkien Czeslaw Milosz and many more Royal argues that without rigorous thought Catholicism however welcoming and nourishing it might be would become something like a doctor with a good bedside manner but who knows little medicine It has always been the aspiration of the Catholic tradition to unite emotion and intellect action and contemplation But unless we know what the tradition has already produced especially in the work of the great figures of the recent past we will not be able to answer the challenges that the modern world poses or even properly recognize the true questions we face This is a reflective non polemical work that brings together various strands of Catholic thought in the twentieth century A comprehensive guide to the recent past and the future

Representing and (De)Constructing Borderlands Weronika Łaszkiewicz, Grzegorz Moroz, Jacek Partyka, 2016-02-08 This volume stems from the assumption that broadly understood borderlands as well as peripheries provinces or uttermost ends of different kinds are abodes of significant culture generating forces From the academic point of view their undeniable appeal lies in the fact that they constitute spaces of mutual interactions and enable new cultural phenomena to surface grow or decline and as such are worth thorough and constant scrutiny However they also provide the setting for radical clashes between ideologies languages religions customs and as the media report every single day armies or guerrilla units Living within such areas of creative dynamics and destructive friction or visiting them even vicariously as the contributors to the volume do is tantamount to exposing oneself to a difference One s response to this difference either in the form of rejection or more preferably acceptance or a mixture of both is not merely an index of one s tolerance a platitudinised term itself that all too

often hides an attitude of comfortable indifference but an affirmation of humaneness Borderlands are paradoxical if not aporetic loci They simultaneously connote territories on either side of a border in a literal sense and a vague intermediate state or region in a metaphorical sense Encapsulating the idea of border the term indicates both inescapable nearness and unavoidable or perhaps unbridgeable separateness The studies included in the volume focus on various aspects of borderland art and literature on analyses of selected works and on the peculiarities of cultural and literary representations Thus the borderland landscape both literal and metaphorical comes to be seen as a factor contributing to the emergence of new distinct and identifiable themes and motifs as well as theoretical frameworks *The Thought at the Back of the Mind*

Annette Aronowicz, 2024-10-31 *The Thought at the Back of the Mind* is a plea for the centrality of the humanities as a vehicle of knowledge about ourselves and about the reality around us It illustrates the interpretative arts through Aronowicz's close reading of Charles P. Guy, Don DeLillo, Bernard d'Espagnat, Wisława Szymborska and Marilynne Robinson Each author exhibits a complex relationship to the narratives emanating from the sciences wonder, terror, appreciation, resistance All in different ways point to a dimension of the human that cannot be captured through the scientific method For the most part they make their points not through abstract argument but through an exploration of daily life Each writer gives pride of place to metaphor, humor and/or intuition as indispensable conduits to the reality within and without us *The Thought at the Back of the Mind* explores the religious dimension embedded in the narratives emanating from the natural sciences as well as in the quest to formulate what eludes them These two contrary dimensions of our relation to the sciences in their various configurations reveal us to ourselves in our historical moment *Poetry, Providence, and Patriotism* Joel Burnell, 2010-01-01

Polish messianism tells the story of a nation struggling to survive and regain its independence As narrated by the poets Jan Pawał Wronicz and Adam Mickiewicz its vision of patriotism and civil responsibility first told two hundred years ago contains promising resources today for a world facing challenged by pluralism, secularization, nationalism and religious fundamentalism Yet this messianism has a dark side The romantic philosophy of history that funded this messianism proved an inadequate defense against Prussian and Russian military might and failed to inoculate Poles against the rising spirit of nationalism, xenophobia and anti-Semitism that swept Europe in the nineteenth and twentieth centuries In seeking to address the problematic and promising feature of Poland's particular messianism Burnell draws up on the theology of Dietrich Bonhoeffer arguing that his theology offers a much needed critique of the myths and values of romantic national messianism Where such messianism asks how Christ could serve a nation's cause and freedom Bonhoeffer declared that by it is by following Christ in discipleship that people and nations become truly free Recently a new wave of Polish religious political fundamentalism has appeared as a response to the rapid secularization of society since the end of the Cold War Certain members of the Polish clergy have again joined conservative politicians to promote nationalistic, populist, xenophobic and anti-Semitic attitudes Bonhoeffer in contrast argued for leaders who ennoble and empower those they serve and modeled how

patriots can honor their nation's achievements while freely confessing its failures His legacy facilitates dialogue and reconciliation in the ongoing struggle against ethnic religious and national bigotry Following his lead the messianic myth of Poland the Christ of the nations can be recast as a call to follow the One who is God for us and the man for others by standing with the suffering by speaking for the disenfranchised and serving alongside other nations in the cause of freedom and justice

Translating Myth Ben Pestell, Pietra Palazzolo, Leon Burnett, 2016-05-20 Ever since Odysseus heard tales of his own exploits being retold among strangers audiences and readers have been alive to the complications and questions arising from the translation of myth How are myths taken and carried over into new languages new civilizations or new media An international group of scholars is gathered in this volume to present diverse but connected case studies which address the artistic and political implications of the changing condition of myth this most primal and malleable of forms Translation is treated broadly to encompass not only literary translation but also the transfer of myth across cultures and epochs In an age when the spiritual world is in crisis Translating Myth constitutes a timely exploration of myth's endurance and represents a consolidation of the status of myth studies as a discipline in its own right
