*Early Modern Intertextuality* Sarah Carter,2021-04-20 This book is an exploration of the viability of applying the post structuralist theory of intertextuality to early modern texts It suggests that a return to a more theorised understanding of intertextuality as that outlined by Julia Kristeva and Roland Barthes is more productive than an interpretation which merely identifies source texts The book analyses several key early modern texts through this lens arguing that the period s conscious focus on and prioritisation of the creative imitation of classical and contemporary European texts makes it a particularly fertile era for intertextual reading This analysis includes discussion of early modern creative writers utilisation of classical mythology allegory folklore parody and satire in works by William Shakespeare Sir Francis Bacon John Milton George Peele Thomas Lodge Christopher Marlowe Francis Beaumont and Ben Jonson and foregrounds how meaning is created and conveyed by the interplay of texts and the movement between narrative systems This book will be of interest to undergraduate and postgraduate students of early modern literature as well as early modern

scholars      **Uses of Intertextuality in Classroom and Educational Research** Nora Stuart-Faris, David Bloome, 2004-11-01      Intertextuality Michael Worton, Judith Still, 1990 A collection of essays by American British and Australian scholars which approaches this field of textual enquiry from perspectives as diverse as Marxism and psychoanalysis Each essay examines an aspect of contemporary practice and proposes new ways forward for students and teachers      *The Birth of Intertextuality* Scarlett Baron, 2019-11-01 Why was the term intertextuality coined Why did its first theorists feel the need to replace or complement those terms of quotation allusion echo reference influence imitation parody pastiche among others which had previously seemed adequate and sufficient to the description of literary relations Why especially in view of the fact that it is still met with resistance did the new concept achieve such popularity so fast Why has it retained its currency in spite of its inherent paradoxes Since 1966 when Kristeva defined every text as a mosaic of quotations intertextuality has become an all pervasive catchword in literature and other humanities departments yet the notion as commonly used remains nebulous to the point of meaninglessness This book seeks to shed light on this thought provoking but treacherously polyvalent concept by tracing the theory's core ideas and emblematic images to paradigm shifts in the fields of science philosophy psychoanalysis and linguistics focusing on the shaping roles of Darwin Nietzsche Freud Saussure and Bakhtin In so doing it elucidates the meaning of one of the most frequently used terms in contemporary criticism thereby providing a much needed foundation for clearer discussions of literary relations across the discipline and beyond

Intertextuality and Romance in Renaissance Drama Richard Hillman, 2016-07-27 These essays apply the postmodernist theory of intertextuality to romantic drama of the English Renaissance including work by Heywood Beaumont and Fletcher Ford and especially Shakespeare Placing the plays into dynamic relation with a wide variety of literary cultural and political intertexts causes them to signify in ways not previously appreciated as well as to define neglected features of the staged romance of the period Equally important is the development of intertextuality as a critical methodology with a particular affinity for the genre and the period      *Authority and Displacement in the English-Speaking World (Volume I)* Florence Labaune-Demeule, 2016-01-14 Whether one thinks of the modern world or of more remote times both seem to have been affected if not moulded by the interaction between the concepts of authority and displacement Indeed political and social sources of authority have often been the causes of major geographical displacements as can be illustrated by the numerous waves of migration which have been observed in the past and which are still present today such as the transportation of slaves from African to American coasts in colonial times If displacement can often be understood as spatial displacement it can also be synonymous with psychological social and even aesthetic displacement for instance through different artistic means or through the use of stylistic discursive devices Displacement also entails displacement dislocation as well as dislocation or chaos This suggests that the etymological meaning of the term authority auctoritas has to be highlighted thus referring to the author of a particular work and to the different manifestations of the authorial persona in a work of art This

collection of essays in two volumes examines the relationships between the concepts of authority and displacement in the English speaking world without restricting the analysis to a particular area or to the field of literature Some essays do indeed deal with literature from different spatial areas and temporal eras while others look into these concepts from a more cultural or aesthetic point of view Volume One Exploring Europe from Europe includes essays on Shakespeare's Measure for Measure John Ross's Second Exploration Voyage Thomas Hardy's Jude the Obscure in addition to investigations of Rose Tremain's novels Disguise by Hugo Hamilton and the cinematic adaptation of Conrad's Almayer's Folly by Chantal Akerman The volume concludes with a study of two novels by the Anglo Sudanese writer Jamal Mahjoub

**Intertextual War** Steven Blakemore, 1997 These writers established the anti Burke paradigms that continue to reverberate in Anglo American criticism and the Revolution's historiography To understand the significance of what they contend is being revealed is to begin to see what is being obscured striking resemblances between themselves and the enemy they denounce

*Hermeneutics, Intertextuality and the Contemporary Meaning of Scripture* Ross Cole, Paul Petersen, 2013-12-31 Did Matthew twist the Scriptures Where did Satan come from My Reading Questions and issues like these are presented in this selection of papers and presentations from a Bible conference at Avondale College on the broad topic of intertextuality More than 100 scholars and administrators convened and shared their research as well as their personal perspectives on how to read and apply holy Scripture in the 21st century This anthology contains a representative sample of their studies and reflections

**Jesus' Cry From the Cross** Holly J. Carey, 2009-05-28 Using a multi level approach to Mark 15 34 and contra to the opinion of the majority of Markan scholarship a contextual reading of Ps 22 2 does not serve to negate or dilute the presentation of Jesus as one in distress Rather such a reading enhances this aspect of his death by underscoring his identity as a Righteous Sufferer who experiences suffering but has the promise of vindication The evidence that supports a contextual reading of the citation in the Markan narrative includes a the importance of Jesus impending resurrection vindication and its foreshadowing b the relatively consistent contextual use of the scriptures in the narrative prior to Mark 15 34 c the patterns of the textual and liturgical use of the psalms and the presence of the motif of the Righteous Sufferer in Mark's socio cultural milieu d the presentation of Jesus as the Righteous Sufferer throughout the narrative and e an exegesis of Mark 15 34 and the surrounding Markan passion resurrection narrative with regard to the function of Ps 22 in the story of Jesus death and resurrection A test case of this argument is undertaken at the close of the book when both Matthew and Luke's treatment of Ps 22 and other Righteous Sufferer language is considered regarding their readings of Ps 22 in Mark as the earliest tangible evidence of the interpretation of this passage in his gospel

**Criticism, History, and Intertextuality** Richard Fleming, Michael Payne, 1988 Exploring the dynamics of intertextuality this collection begins with the origins of the idea of the poem as autonomous and coherent object in American New Criticism and the relationship of that idea to the rhetoric of Brooks's Kantian sense of history Succeeding essays demonstrate the intriguing patterns of intertextuality

*Subtexts and Pretexts* Brian James Baer, 2011 This volume presents Eastern Europe and Russia as a distinctive translation zone despite significant internal differences in language religion and history The persistence of large multilingual empires which produced bilingual and even polyglot readers the shared experience of belated modernity and the longstanding practice of repressive censorship produced an incredibly vibrant profoundly politicized and highly visible culture of translation throughout the region as a whole The individual contributors to this volume examine diverse manifestations of this shared translation culture from the Romantic Age to the present day revealing literary translation to be at times an embarrassing reminder of the region s cultural marginalization and reliance on the West and at other times a mode of resistance and a metaphor for cultural supercession This volume demonstrates the relevance of this region to the current scholarship on alternative translation traditions and exposes some of the Western assumptions that have left the region underrepresented in the field of Translation Studies **The Italian World of English Renaissance Drama** A. J.

Hoenselaars, 1998 It is widely accepted that English Renaissance drama owes its extraordinary richness and variety to the blending of elements originating from the medieval heritage and classical and Italian dramatic traditions This grafting of the Italian world onto the English Renaissance goes far beyond the conventional research of the literary sources The articles in this collection explore English Renaissance drama through new and challenging aspects of influence and through investigations into classical and Italian theater The volume moves from early Elizabethan to late Jacobean drama The area of research ranges from New Classical Comedy to commedia erudita from the Renaissance theory of tragedy and tragicomedy to the birth of pastoral drama and beyond **Practicing Intertextuality** Max J.
